Handbook Of War Studies Iii The Intrastate Dimension

Jacques Bertrand

Handbook Of War Studies Iii The Intrastate Dimension:

Handbook of War Studies III Manus I. Midlarsky, 2009-06-24 Handbook of War Studies III is a follow up to Handbook of War Studies I 1993 and II 2000 This new volume collects original work from leading international relations scholars on domestic strife ethnic conflict genocide and other timely topics Special attention is given to civil war which has become one of the dominant forms if not the dominant form of conflict in the world today Contributors Bruce Bueno de Mesquita New York University and Hoover Institution Stanford University Nils Petter Gleditsch International Peace Research Institute Oslo PRIO and Norwegian University of Science and Technology NTNU Trondheim H vard Hegre University of Oslo and International Peace Research Institute Oslo PRIO Erin K Jenne Central European University Budapest Mark Irving Lichbach University of Maryland Roy Licklider Rutgers University New Brunswick T David Mason University of North Texas Rose McDermott Cornell University Stephen Saideman McGill University H vard Strand International Peace Research Institute Oslo PRIO Monica Duffy Toft Harvard University Manus I Midlarsky is the Moses and Annuta Back Professor of International Peace and Conflict Resolution at Rutgers University New Brunswick He is the founding past president of the Conflict Processes Section of the American Political Science Association and a past vice president of the International Studies Association

Inequality, Grievances, and Civil War Lars-Erik Cederman, Kristian Skrede Gleditsch, Halvard Buhaug, 2013-08-26 This book argues that political and economic inequalities following group lines generate grievances that in turn can motivate civil war Lars Erik Cederman Kristian Skrede Gleditsch and Halvard Buhaug offer a theoretical approach that highlights ethnonationalism and how the relationship between group identities and inequalities are fundamental for successful mobilization to resort to violence Although previous research highlighted grievances as a key motivation for political violence contemporary research on civil war has largely dismissed grievances as irrelevant emphasizing instead the role of opportunities This book shows that the alleged non results for grievances in previous research stemmed primarily from atheoretical measures typically based on individual data The authors develop new indicators of political and economic exclusion at the group level and show that these exert strong effects on the risk of civil war They provide new analyses of the effects of transnational ethnic links and the duration of civil wars and extended case discussions illustrating causal mechanisms

Governance for Peace David Cortright, Conor Seyle, Kristen Wall, 2017-09-21 Governance for Peace presents a comprehensive analysis of the dimensions of governance that are most likely to prevent armed conflict and foster sustainable peace It is an accessible study written for the general reader that brings together the best empirical evidence across numerous disciplines showing how effective governance and inclusive participatory and accountable institutions help to reduce violence by addressing social needs and providing mechanisms for resolving disputes This balanced and incisive book gives meaning to the term good governance and identifies the specific features of political and economic institutions that are most likely to promote peace within and between states Concepts and topics examined in

the book include political legitimacy human security political goods governance and power inclusion accountability social cohesion gender equality countering corruption the role of civil society democratic participation development as freedom capitalism and economic growth the governance of markets China and the East Asian peace the European Union and global institutions

Origins of Political Extremism Manus I. Midlarsky, 2011-03-17 Political extremism is one of the most pernicious destructive and nihilistic forms of human expression During the twentieth century in excess of 100 million people had their lives taken from them as the result of extremist violence In this wide ranging book Manus I Midlarsky suggests that ephemeral gains together with mortality salience form basic explanations for the origins of political extremism and constitute a theoretical framework that also explains later mass violence Midlarsky applies his framework to multiple forms of political extremism including the rise of Italian Hungarian and Romanian fascism Nazism radical Islamism and Soviet Chinese and Cambodian communism Other applications include a rampaging military Japan Pakistan Indonesia and extreme nationalism in Serbia Croatia the Ottoman Empire and Rwanda Polish anti-Semitism after World War II and the rise of separatist violence in Sri Lanka are also examined

Mass Atrocities, Risk and Resilience Stephen McLoughlin, 2015-06-29 Mass Atrocities Risk and Resilience examines the relationship between risk and resilience in the prevention of genocide and other mass atrocities and explores two broad areas of neglect In terms of prevention there is very little research that analyzes how local and national actors manage the risk associated with mass atrocities In the field of comparative genocide studies to date there has been very little interest in examining negative cases Although much is known about why mass atrocities occur much less is established about why they do not occur The contributions in this book address this neglect in two important ways First they challenge commonly accepted approaches to prevention Second they explore negative cases in order to better understand how local and national actors have mitigated risk over time

Understanding Civil Wars Edward Newman, 2014-04-24 This volume explores the nature of civil war in the modern world and in historical perspective Civil wars represent the principal form of armed conflict since the end of the Second World War and certainly in the contemporary era The nature and impact of civil wars suggests that these conflicts reflect and are also a driving force for major societal change In this sense Understanding Civil Wars Continuity and change in intrastate conflict argues that the nature of civil war is not fundamentally changing in nature The book includes a thorough consideration of patterns and types of intrastate conflict and debates relating to the causes impact and changing nature of war A key focus is on the political and social driving forces of such conflict and its societal meanings significance and consequences The author also explores methodological and epistemological challenges related to studying and understanding intrastate war A range of questions and debates are addressed What is the current knowledge regarding the causes and nature of armed intrastate conflict Is it possible to produce general cross national theories on civil war which have broad explanatory relevance Is the concept of civil wars empirically meaningful in an era of globalization and transnational war Has intrastate conflict fundamentally changed in

nature Are there historical patterns in different types of intrastate conflict What are the most interesting methodological trends and debates in the study of armed intrastate conflict How are narratives about the causes and nature of civil wars constructed around ideas such as ethnic conflict separatist conflict and resource conflict This book will be of much interest to students of civil wars intrastate conflict security studies and international relations in general *The Ashgate Research Companion to Secession* Peter Radan, 2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession Democracy and Nationalism in Southeast Asia Jacques Bertrand, 2021-04-29 A unique comparative historical analysis of the impact of democratization on five nationalist conflicts in Southeast Asia **Ethnic Politics and Conflict/Violence** Erika Forsberg, Jóhanna K. Birnir, Christian Davenport, 2018-10-18 Ethnicity is one of the most salient and enduring topics of social science not least with regard to its potential link to political conflict violence Despite or perhaps because of the concept's significant use all too seldom has the field paused to consider the state of our knowledge For example how do we define and conceive of ethnicity within the context of political conflict What do we really know about the causal determinants of ethnic conflict What has been the most useful development within this literature and why This volume comprises reflections from an international range of prominent political scientists all engaged in the study of ethnicity and conflict violence They attempt to synthesize what the field does and does not know with regard to ethnic conflict as well as draw out the research directions for the immediate future in unique and interesting ways This book was originally published as a special issue of the journal *Ethnopolitics*

Waves of War Andreas Wimmer, 2013 A new perspective on how the nation state emerged and proliferated across the globe accompanied by a wave of wars Andreas Wimmer explores these historical developments using social science techniques of analysis and datasets that cover the entire modern world Rethinking the Value of Democracy Renske Doorenspleet, 2018-07-21 This book is the first comprehensive analysis of the instrumental value of democracy in a comparative perspective Based on extensive analyses of quantitative studies from different disciplines it explores both the expected beneficial and harmful impact of democracy Democracy's reputation as delivering peace and development while controlling corruption is an important source of its own legitimacy Yet as this book acutely demonstrates the arguments tend to be normatively driven interventions in ideologically charged policy debates The book argues that we need neither a utopian framing of democracy as delivering all good things in politics nor a cynical one that emphasizes only the dangerous underbelly of this form of government The author also raises critical questions about the value of the study of democracy the choice for particular concepts and measures the unknown mechanisms and the narrow focus on specific instrumental values This volume will be necessary reading for anyone interested in debates on democracy in the contemporary global context

Violence and Propaganda in European Civil Wars Yiannis Kokosalakis, Francisco J. Leira-Castiñeira, 2025-03-31 This volume offers a broad overview of the conditions motives and practices of violence during the most prominent intra state conflicts in Europe during the first half of the 20th century This book seeks to move beyond accounts of civil war violence that focus on microlevel motives or grand cleavages arguing instead that violence is best examined as a multidimensional phenomenon involving a range of structural personal and conjectural factors operating at various levels of societal interaction Making a case for methodological pluralism the volume brings together an interdisciplinary team of historians and social scientists to address the aspects of civil war violence from a broad range of empirical and methodological perspectives The book consists of three thematic sections The first section covers contextual issues related to civil war violence including the role of ideology and social dynamics The second and third sections comprise empirical case studies that examine the dimensions of violence in six prominent European civil wars The volume focuses on these particular conflicts because they are almost universally recognized as instances of civil war and this enables the volume to maintain its analytical focus on the dynamics of violence This book will be of much interest to students of European history civil wars political violence and International Relations in general Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Democracies and Authoritarian Regimes Andrea Kendall-Taylor, Natasha Lindstaedt, Erica Frantz, 2019 The only introduction to cover the full spectrum of political systems from democracy to dictatorship and the growing number of systems that fall between equipping readers to think critically about democracy's future trajectory **When Nonviolent Civil Resistance Campaigns Fail** Kirssa Cline Ryckman, 2024-11-08 This book examines both how and why nonviolent civil

resistance campaigns fail and the diverse category of campaigns that fall short Civil resistance campaigns are known for their success for their ability to overthrow central governments or gain territorial independence There have been a growing number of civil resistance campaigns in recent decades however their rate of success has decreased More unarmed campaigns are now ending without achieving their ultimate political goals This study moves beyond the success or failure dichotomy to unpack how nonviolent campaigns end while also paying attention to the processes that encourage conflict demobilization or transformation Drawing from the fields of political science sociology and nonviolence studies the book develops a continuum of campaign outcomes that includes full and partial success as forms of positive demobilization as well as disbanding and defeat as forms of negative demobilization It provides an overarching framework that links sources of internal campaign strength to termination types and then considers each outcome in depth to explore the reasons why and how campaigns demobilize The work is global in scope including descriptive statistics quantitative analyses and case illustrations spanning a variety of regions and time periods from East Germany in 1953 to Suriname in 1984 and Togo in 2013 This book will be of much interest to students of civil resistance movements and nonviolence conflict studies intrastate conflicts and International Relations

Mobilization and Conflict in Multiethnic States Manuel Vogt, 2019-08-30 Why are some multiethnic countries more prone to civil violence than others This book examines the occurrence and forms of conflict in multiethnic states It presents a theory that explains not only why ethnic groups rebel but also how they rebel It shows that in extremely unequal societies conflict typically occurs in non violent forms because marginalized groups lack both the resources and the opportunities for violent revolt In contrast in more equal but segmented multiethnic societies violent conflict is more likely The book traces the origins of these different types of multiethnic states to distinct experiences of colonial rule Settler colonialism produced persistent stratification and far reaching cultural and economic integration of the conquered groups as for example in Guatemala the United States or Bolivia By contrast in decolonized states such as Iraq Pakistan or Sri Lanka in which independence led to indigenous self rule the colonizers divide and rule policies resulted in deeply segmented post colonial societies Combining statistical analyses with case studies based on original field research in four different countries in Sub Saharan Africa and Latin America Vogt analyzes why and how colonial legacies have led to peaceful or violent ethnic movements

Civil Wars David Armitage, 2017-02-07 A highly original history tracing the least understood and most intractable form of organized human aggression from Ancient Rome through the centuries to the present day We think we know civil war when we see it Yet ideas of what it is and what it isn't have a long and contested history from its fraught origins in republican Rome to debates in early modern Europe to our present day Defining the term is acutely political for ideas about what makes a war civil often depend on whether one is a ruler or a rebel victor or vanquished sufferer or outsider Calling a conflict a civil war can shape its outcome by determining whether outside powers choose to get involved or stand aside from the American Revolution to the war in Iraq pivotal decisions have depended on such shifts of

perspective The age of civil war in the West may be over but elsewhere in the last two decades it has exploded from the Balkans to Rwanda Burundi Somalia and Sri Lanka and most recently Syria And the language of civil war has burgeoned as democratic politics has become more violently fought This book s unique perspective on the roots and dynamics of civil war and on its shaping force in our conflict ridden world will be essential to the ongoing effort to grapple with this seemingly interminable problem *SI VIS PACEM, PARA UTIQUE PACEM* Willem Th. Oosterveld,Stephan de Spiegeleire,Marjolein de Ridder,Tim Sweijs, Frank Bekkers,Dana Poláčková,Scott Ward,Kamal Eldin Salah,Rik Rutten,Nathalie Olah ,2015-12-17

Analyses of the international security environment typically provide somber overviews of the various drivers and manifestations of conflict and instability around the world Recent developments such as the terrorist attacks in Paris Beirut and elsewhere a Middle East in flames a resurgent Russia incessant violence in West Africa or turmoil in South China Sea only reinforce this view By framing our analysis of the security environment in these terms debates about how to anticipate and respond to these current and future threats invariably focus on those forces of instability and conflict how to identify threats and enemies and then eliminate them This report is based on the premise that this conflict centric mindset has led to portfolio choices in terms of strategies what do we do and how do we do it capabilities what do we do it with and partners who do we do it with that have been excessively onesided This report argues that there is an alternative complementary way of framing security that is equally real and equally actionable for defense and security organizations DSOs4 a resilience centric one Contestation and Adaptation Enze Han,2013-07-23

Contestation and Adaptation unravels the complexities of national identity contestation among various ethnic minority groups in China It focuses on the interactions between domestic and international forces that inform ethnic groups national identity contestation positing a theoretical framework where international factors play a significant role in determining why and when ethnic groups will contest the national identities imposed on them by central governments as part of the nation building process Simmering grievances and occasional outbursts of social unrest among ethnic minority populations in China challenge not only the ruling party s legitimacy and governance but also contemporary Chinese national identity and the territorial integrity of the Chinese state But as Enze Han points out of the fifty five ethnic minority groups in China only the Tibetans and Uyghurs have forcefully contested the idea of a Chinese national identity He argues that whether ethnic groups contest those national identities depends on whether they perceive a better achievable alternative In particular Han argues that ethnic groups with extensive external kinship networks are most likely to perceive a capacity to achieve better circumstances and are therefore more likely to politically mobilize to contest national identity In the absence of such alternatives ethnic groups are more likely to cope with their situation through emigration political ambivalence or assimilation Using this theoretical framework the book compares the way that five major ethnic minority groups in China negotiate their national identities with the Chinese nation state Uyghurs Chinese Koreans Dai Mongols and Tibetans Overall Contestation and Adaptation sheds light on the nation building processes in China

over the past six decades and the ways that different groups have resisted or acquiesced in their dealings with the Chinese state and majority Han Chinese society **Why Democracies Flounder and Fail** Michael Haas, 2018-06-26 Democracy is in crisis because voices of the people are ignored due to a politics of mass society After demonstrating how the French Fourth Republic failed wherein Singapore's totalitarianism is a dangerous model Washington is enmeshed in gridlock and there is a global democracy deficit solutions are offered to revitalize democracy as the best form of government The book demonstrates how mass society politics operates with intermediate institutions of civil society media pressure groups political parties no longer transmitting the will of the people to government but instead are concerned with corporate interests and have developed oligarchical mindsets Rather than micro remedy bandaids the author focuses on the need to transform governing philosophies from pragmatic to humanistic solutions **Peace and Conflict 2014** Paul K. Huth, Jonathan Wilkenfeld, David A. Backer, 2016-09-16 Peace and Conflict is a biennial publication that provides cutting edge data and analysis concerning domestic and international conflicts and corresponding peacebuilding activities The book include forecasts of risks of political and social instability as well as trends and patterns in conflict The 2014 edition focusses on the micro level in the study of conflict and peacebuilding such as social relationships below the level of the nation state with attention to key topics such as ethnicity climate change foreign aid and sexual violence Peace and Conflict is a large format full color resource with numerous graphs tables maps and appendices dedicated to the visual and summary presentation of information Crisp narratives are highlighted with pull quote extracts emphasizing major findings

Handbook Of War Studies Iii The Intrastate Dimension Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Handbook Of War Studies Iii The Intrastate Dimension PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Handbook Of War Studies Iii The Intrastate Dimension PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms

offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Handbook Of War Studies Iii The Intrastate Dimension free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Handbook Of War Studies Iii The Intrastate Dimension Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Handbook Of War Studies Iii The Intrastate Dimension is one of the best book in our library for free trial. We provide copy of Handbook Of War Studies Iii The Intrastate Dimension in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Handbook Of War Studies Iii The Intrastate Dimension. Where to download Handbook Of War Studies Iii The Intrastate Dimension online for free? Are you looking for Handbook Of War Studies Iii The Intrastate Dimension PDF? This is definitely going to save you time and cash in something you should think about.
