Organizational Communication Theory and Research Vernon D. Miller, Marshall Scott Poole, 2024-07-01. The Handbook of Organizational Communication Theory and Research offers concise but thorough reviews of important research on traditional and emerging areas in organizational communication. Section One, Theory and Methods, provides an overview of the field's history, prominent theories, and methodologies. Section Two, Processes, focuses on primal processes such as leadership, organizational entry, conflict, power, and inclusion. Section Three, Contexts, focuses on the settings where organizational communication occurs, including teams and workgroups, networks, and organizational structure. Section Four, Technology, considers the development and introduction of new media and intelligent technologies into organizations. The final section, Emerging Areas, addresses communication issues associated with changing environmental, social, and political upheavals, including wellness, corporate social responsibility, and crisis response. The Handbook of Organizational Communication Theory and Research covers topics of pressing interest to current scholars and practitioners, many of which have not been addressed in previous handbooks.

Early Internationalizing Firms

Rubina Romanello, Maria Chiarvesio, 2025-01-29 This monograph offers a thorough review of four decades of research on early internationalizing firms focusing on Born Globals and International New Ventures. It systematically examines 323 empirical studies exploring the origins, evolution, and key themes within this field. The book covers the theoretical foundations, internationalization strategies, performance outcomes, and the impact of digital technologies on these firms. It also addresses ongoing debates and identifies areas where further research is needed, presenting a clear agenda for future studies. Targeted at scholars, researchers, and advanced students in International Business, Entrepreneurship, and related fields, this monograph is an essential resource for understanding the complexities of early internationalization. It provides valuable insights into the international growth of small and medium-sized enterprises (SMEs) and the factors that influence their success in global markets.

The Management Thought of Louis R. Pondy

David M. Boje, 2023-10-31 Louis R. Pondy was a leading management and organizational studies scholar whose work on open systems helped launch and define the future of the field. This book offers an assessment of Pondy's contribution through critical reflection on what happened to the relationship between conflict theory and beyond open systems. Exploring the ways in which Louis R. Pondy theorizes conflict and systems and how he challenged the status quo paradigms, this book offers a historical analysis on Pondy's work and the relation to contemporary management theory. The author develops a Triple Loop framework building on Pondy's theories as well as the work of Gregory Bateson to demonstrate a beyond open systems approach and existing single or double loop systems. Demonstrating the value and legacy of Louis R. Pondy, this book will have international appeal to researchers, academics, and students across management disciplines and organizational studies, including systems thinking and conflict resolution.

Academic-Practitioner Relationships

Jean M. Bartunek, Jane McKenzie, 2017-07-06 While executives are keen to

harness organizational knowledge and improve business performance the topic of how academics can produce rigorous and relevant theory in working relationships with practitioners is a much contested topic Many aspects of this knowledge co creation can create tensions and the ways in which research is conducted and published can affect practitioner acceptance as well as its consequent uptake and use in different contexts Expertly compiled by Jean Bartunek and Jane McKenzie with contributions from global thinkers in the field this book offers a concise and up to date review of the essential analysis and action underlying scholarly engagement with the world of business It discusses the sorts of capabilities academics need to collaborate effectively with practitioners and illustrates good practice through international case studies drawn from acknowledged centres of excellence These show how to negotiate different constituencies with different priorities values and practices to work together to produce research of rigor and relevance It will be a key reference and resource for all researchers who are engaged with practitioners and an invaluable tool for training academics to develop research with impact

A World Scientific Encyclopedia Of Business Storytelling, Set 1: Corporate And Business Strategies Of Business Storytelling (A 5-volume Set) ,2023-08-17 This set of multi reference works is meant to be read together as the five volumes interlace one another like the laces of a shoe in the famous painting by Vincent van Gogh Who will wear the shoes is a question long debated in art history and philosophy If we take these five volumes from different points of view on the theory and practice of business storytelling then we have a crisscrossing a new and impressive dialogue for the reader This set is presented as a new way to lace up the laces of business storytelling Volume 1 aims to recount narratives in a variety of ways so that the precepts of entrepreneurial storytelling can be made accessible to a variety of audiences academic practitioner student and community member Entrepreneurship has a long history and tradition but there are disputed ways of doing business storytelling in entrepreneurship that the next four volumes articulate Volume 2 provides insights into stories fostering the idea of business and not necessarily business itself It focuses specifically on history contributing to the current debates within management and organizational history around the idea of the historic turn It reflects on the idea of business and beyond could there be more to history and business storytelling than what has previously been accepted in the field This book sets out to explore a diverse array of alternative modes and multiple ways of storing organizations The editors intentionally sought to involve an international network of authors with diverse storytelling accounts of history as a way of helping build out this new storytelling paradigm in a diverse and inclusive ethic As a result this volume showcases a broad spectrum of critical storytelling from geographically diverse authors working in universities small businesses and public service throughout Brazil Canada Finland the United Kingdom and the United States To reflect these dynamics and for the stories in this volume to fit together chapters were organized into three themes stories of processing history tales of history as method and narratives of history through a business opportunity Volume 3 features stories that reflect the exacerbated inequalities of race gender and income across the world These inequalities and power relations remain continuously con

tested particularly in these trying times despite being captive to a particular economic ideology built on the premise of exploitation and subjugation The stories told in this volume tell against the orthodoxy the colonizer and the seemingly powerful They are organized as stories of resistance emancipation and transformation They invite us to rethink the multiple ways to re structure power relations between the colonizer and the colonized and open up spaces for the marginalized underprivileged voices Volume 4 is designed to create a new business storytelling paradigm that critically approaches business narratives that have historically privileged a corporate agenda It explores the various ways that images of the other in business are developed presented and accounted for through powerful and dominant narratives The stories in this volume collectively help readers to understand resist and provide strategies for change through various analyses of how business narratives come to develop get written are legitimized are challenged and get changed over time Volume 5 brings together the practices specific to the socioeconomic approach to management SEAM SEAM is a method of change management developed through research interventions carried out in more than 2 000 companies and organizations since 1975 This method is systemic it considers the whole company and tends to simultaneously increase social and economic performance by focusing mainly on the development of human skills and behaviors making it possible to reduce dysfunctions and recycle hidden costs into added value
