

[illegible]

Qu'est-ce que le "droit d'avoir des droits", dire sans-faute pour Raymond Aron? Qu'est-ce que le "droit d'avoir des droits" signifierait pour un tel sans-faute, d'ailleurs quand on est un philosophe, sans doute, hors du "droit d'avoir des droits", du droit à la politique? Qu'est-ce que résister en agit? Comment une Agit militante de la libération politique trahit-elle son droit d'être de "XX^{ème} siècle américaine ou non à décrire l'apparence politique, pour Hannah Arendt? A partir de l'œuvre de Hannah Arendt, on pourrait se demander si son livre, qu'est-ce que cette philosophie comme elle est, de la résistance, de la résistance et donc de la révolte?

These various sources should reflect the entire set of philosophical or political commitments to justice in the political or in the economic, institutional or governmental spheres.

Mazzocchi, Devin Penner**

Hannah Arendt Volume 1 Hannah Arendt Volume 1:

Phenomenology 2010. Volume 1, Selected Essays from Asia and Pacific Yu, Chung-Chi, 2010-01-01 Hannah Arendt's Unwritten Chapter on Judging Samantha Fazekas, 2025-07-21

Hannah Arendt's claim that she brings Immanuel Kant's unwritten political philosophy to fruition is controversial. For one, it is inconsistent with Kant's thought as he separates aesthetic and political judgments. Moreover, Arendt's appropriation of reflective judgment conflicts with her sharp distinction between the public and private realms. Whereas reflective judgment is a reflective ability, political judgment is a public ability. This book justifies Arendt's claim that reflective judgment has political potential while remaining consistent with Kant's aesthetics and Arendt's politics. By developing an Arendtian phenomenology of privacy, I offer a new reading of her public/private distinction. I uncover non-privacy as the space of withdrawal where the life of the mind unfolds. What is more, I show that reflective activities constitute the necessary but not sufficient conditions for the emergence of the public realm. Reflective judgment is one of these activities. For Arendt, attributes to enlarged mentality: the public communicability of political judgments. Enlarged mentality thus gives persons the ability to insert themselves into the world. Therefore, Arendt is right to locate political potential in reflective judgment.

The Life of the Mind Hannah Arendt, 2017-11-01. A passionate humane intelligence addressing itself to the fundamental problem of how the mind operates. Newsweek considered by many to be Hannah Arendt's greatest work published as she neared the end of her life. *The Life of the Mind* investigates thought itself as it exists in contemplative life. In a shift from her previous writings, most of which focus on the world outside the mind, this work was planned as three volumes that would explore the activities of the mind considered by Arendt to be fundamental. What emerged is a rich, challenging analysis of human mental activity considered in terms of thinking, willing, and judging. This final achievement presented here in a complete one-volume edition may be seen as a legacy to our own and future generations.

The Political Philosophy of Hannah Arendt Maurizio Passerin d'Entrèves, 2002-01-04. First published in 1993. This is a systematic introduction to the thought of one of the most important political philosophers of the twentieth century. The author uncovers the concepts of modernity: action, judgement, and citizenship that underpin her work.

The Juridical Unconscious Shoshana Felman, 2002-11-30. This book offers an account of the surprising interaction between trauma and justice. Moving from texts by Arendt, Benjamin, Freud, Zola, and Tolstoy to the Dreyfus and Nuremberg trials and the trials of O. J. Simpson and Adolf Eichmann, Felman argues that the adjudication of collective traumas in the 20th century transformed both culture and law.

Phenomenology of Sociality Thomas Szanto, Dermot Moran, 2015-11-19. Phenomenological accounts of sociality in Husserl, Heidegger, Merleau-Ponty, Sartre, Scheler, Schütz, Stein, and many others offer powerful lines of arguments to recast current predominantly analytic discussions on collective intentionality and social cognition. Against this background, the aim of this volume is to reevaluate critically and in contemporary terms the rich phenomenological resources regarding social reality: the interpersonal, collective, and communal aspects of the life-world.

Lebenswelt Specifically the book pursues three interrelated objectives it aims 1 to systematically explore the key phenomenological aspects of social reality 2 to offer novel state of the art assessments of both central and lesser known proponents of the phenomenology of sociality Gurwitsch L with von Hildebrand or Walther and 3 to contextualize this elaborate body of work in light of contemporary social cognition research the growing literature in analytic social ontology and current trends in moral psychology moral phenomenology and social and political philosophy The collection brings together original articles by a host of prominent scholars and upcoming young talents to provide a comprehensive and up to date treatment of the topic It will be essential reading for those studying phenomenological accounts of intersubjectivity empathy and community including analytic social moral and political philosophers and will also be of interest for social scientists and social psychologists

Behemoth Irving Horowitz, 2017-10-19 The title Behemoth derives from the Hebrew word Behemah a beast an enormous creature monstrously huge and vast It is an apt description of the State on the eve of the twenty first century Loved by few vilified by many from all perspectives it nonetheless continues to grow by turns rivaling and co-opting that more pleasant sounding word Society Political sociology aims to define and understand the interrelationship between these two huge terms State and Society Continuing in a path begun by Horowitz in the 1950s in The Idea of War and Peace in Contemporary Social and Philosophical Thought expanded upon in the 1970s with Foundations of Political Sociology this summing up in the late 1990s is an effort to extract and evolve the canon of political sociology Starting with Montesquieu Horowitz proceeds through the European experience of Rousseau Tocqueville Hegel Marx Durkheim Sorel and Weber He then takes the field on its tangled migration to America with the Frankfurt School in exile followed by searching chapters on Schumpeter Mills Arendt and Huntington among others The result is a stunning revaluation of the intellectual sources of the present day divisions between statists and socialists welfarists and individualists advocates of dictatorship and of democracy mandated rules and voluntary association hard realists and soft utopians a world without states and a world with a single state Horowitz does not offer the usual evolutionary notion of doctrines but a canon embedded in and embattled with the societies they aim to serve or overthrow in the present as in the past The result is a major recasting of the theory and practice of social science and normative frameworks The final chapter offers Horowitz's own prognosis of what we can expect in the recasting of the Welfare State to include the Welfare Society and its growing nemesis the global economy which threatens to engulf State and Society alike in a return to civilizational concerns This is an essential text for policy makers and social scientists interested in macroscopic changes in the political order

Toward a New (Old) Theory of Responsibility: Moving beyond Accountability Daryl Koehn, 2019-03-29 This book offers a much needed overview of the neglected notion of responsibility Instead of offering vague talk about individual responsibility or corporate responsibility Daryl Koehn examines in detail four accounts of responsibility taking care to specify what responsibility does and does not mean in each account She argues for a return to the ancient concept of Socratic dialogical responsibility a

concept that avoids many of the problems inherent in the other accounts After examining the Anglo American criminal legal system's treatment of responsibility as intentional agency she critiques Hans Jonas's concept of responsibility as ontological care and Hannah Arendt's notion of communicative responsibility She provides a careful analysis of the strengths and weaknesses of each approach to responsibility The final chapter makes the case for Socratic dialogical responsibility Dialogical responsibility has many strengths in its own right and avoids the major pitfalls of the other notions of responsibility examined in the book It serves as an eminently practical way to hold ourselves responsible for our actions and speech In addition dialogical responsibility alone qualifies as a virtue integral to the good life

Reasoning With Who We Are Mark Redhead, 2014-04-04 Public reasoning a manner of democratic deliberation that can generate meaningful conceptions of justice the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jurgen Habermas In this ambitious study Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory Alasdair MacIntyre Charles Taylor Hannah Arendt Seyla Benhabib Michel Foucault and William E Connolly He identifies an important but as of yet unappreciated version of public reasoning one that provides creative and effective responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance

Radical Intellectuals and the Subversion of Progressive Politics Michael J. Thompson, Gregory Smulewicz-Zucker, 2015-09-09 *Radical Intellectuals and the Subversion of Progressive Politics* is a challenge to contemporary radical politics and political thought This collection of essays critiques the dominant trends and figures on the left that have distorted the legacy of progressive politics arguing that they have moved politics away from issues of class and economic power toward a preoccupation with culture and identity The contributors discuss this new radicalism from the perspective of a more rational form of leftism capable of reviving interest in a more politically relevant form of politics

Thinking with Adorno Gerhard Richter, 2019-07-02 What Theodor W Adorno says cannot be separated from how he says it By the same token what he thinks cannot be isolated from how he thinks it The central aim of Richter's book is to examine how these basic yet far reaching assumptions teach us to think with Adorno both alongside him and in relation to his diverse contexts and constellations These contexts and constellations range from aesthetic theory to political critique from the problem of judgment to the difficulty of inheriting a tradition from the primacy of the object to the question of how to lead a right life within a wrong one Richter vividly shows how Adorno's highly suggestive yet often overlooked concept of the uncoercive gaze designates a specific kind of comportment in relation to an object of critical analysis It moves close to the object and tarries with it while struggling to decipher the singularities and non identities that are lodged within it whether the object is an idea a thought a concept a text a work of art an experience or a problem of political or sociological theory Thinking with Adorno's uncoercive gaze not only means following the fascinating

paths of his own work it also means extending hospitality to the ghostly voices of others As this book shows Adorno is best understood as a thinker in dialogue whether with long deceased predecessors in the German tradition such as Kant and Hegel with writers such as Kafka with contemporaries such as Benjamin and Arendt or with philosophical voices that succeeded him such as those of Derrida and Agamben

Thinking Radical Democracy Martin Breugh, Christopher Holman, Rachel Magnusson, Paul Mazzocchi, Devin Penner, 2015-02-26 Thinking Radical Democracy is an introduction to nine key political thinkers who contributed to the emergence of radical democratic thought in post war French political theory Hannah Arendt Maurice Merleau Ponty Pierre Clastres Claude Lefort Cornelius Castoriadis Guy Debord Jacques Rancie tienne Balibar and Miguel Abensour The essays in this collection connect these writers through their shared contribution to the idea that division and difference in politics can be perceived as productive creative and fundamentally democratic The questions they raise regarding equality and emancipation in a democratic society will be of interest to those studying social and political thought or democratic activist movements like the Occupy movements and Idle No More

Crimes Against Humanity Nergis Canefe, 2021-04-15 This book brings together jurisprudential debates on international criminal law international law scholarship on the limits of state sovereignty and applied political philosophy concerning responsibility and accountability in the context of mass political crimes and state criminality It offers a compelling view of legal reasoning concerning accountability regimes in the Global South No other study addresses questions of ethical dimensions of mass crimes and accountability for state criminality

Politics without Vision Tracy B. Strong, 2020-03-04 Magisterial a frequently surprising treatment of major political thinkers Perspectives on Politics From Plato through the nineteenth century the West could draw on comprehensive political visions to guide government and society Now for the first time in more than two thousand years Tracy B Strong contends we have lost our foundational supports In the words of Hannah Arendt the state of political thought in the twentieth and twenty first centuries has left us effectively thinking without a banister Politics without Vision takes up the thought of seven influential thinkers each of whom attempted to construct a political solution to this problem Nietzsche Weber Freud Lenin Schmitt Heidegger and Arendt None of these theorists were liberals nor excepting possibly Arendt were they democrats and some might even be said to have served as handmaidens to totalitarianism And all to a greater or lesser extent shared the common conviction that the institutions and practices of liberalism are inadequate to the demands and stresses of the present times In examining their thought Strong acknowledges the political evil that some of their ideas served to foster but argues that these were not necessarily the only paths their explorations could have taken By uncovering the turning points in their thought and the paths not taken Strong strives to develop a political theory that can avoid and perhaps help explain the mistakes of the past while furthering the democratic impulse Confronting the widespread belief that political thought is on the decline Strong puts forth a brilliant and provocative counterargument that in fact it has endured without the benefit of outside support A compelling rendering of

contemporary political theory Politics without Vision is sure to provoke discussion among scholars in many fields

Hannah Arendt and the Meaning of Politics Craig J. Calhoun, John McGowan, 1997 Is politics really nothing more than power relations competing interests and claims for recognition conflicting assertions of simple truths No thinker has argued more passionately against this narrow view than Hannah Arendt and no one has more to say to those who bring questions of meaning identity value and transcendence to our impoverished public life This volume brings leading figures in philosophy political theory intellectual history and literary theory into a dialogue about Arendt's work and its significance for today's fractious identity politics public ethics and civic life For each essay on the fate of politics in a postmodern post Marxist era on the connection of nonfoundationalist ethics and epistemology to democracy on the conditions conducive to a vital public sphere on the recalcitrant problems of violence and evil the volume includes extended responses and a concluding essay by Martin Jay responding to all the others Ranging from feminism to aesthetics to the discourse of democracy the essays explore how an encounter with Arendt reconfigures disrupts and revitalizes what passes for public debate in our day Together they forcefully demonstrate the power of Arendt's work as a splendid provocation and a living resource

Evil in Joint Action Hans Bernhard Schmid, 2020-07-19 Joining insights from social science and philosophy this book offers a nuanced view on the discourse of evil which has been on the rise in the West in recent years Exploring the famous Pear Theft episode in St Augustine's Confessions it looks beyond the theological implications of the event to focus instead on the secular insights that it offers when the event is placed in the context of social thought With attention to Augustine's lengthy reflections on a seemingly marginal episode the author contends that it is possible to discern the elements of a convincing account of intentional evil action the Pear Theft representing a case of joint radical improvisation that lacks collective deliberation As such a new perspective emerges on familiar and more intuitive forms of evil in joint action that involve group identification and institutional action Evil in Joint Action will appeal to scholars of sociology social theory and philosophy with interests in ethics collective action and concepts of evil

[The Eichmann Trial](#) Deborah E. Lipstadt, 2011-03-15 NATIONAL JEWISH BOOK AWARD FINALIST 2012 Part of the Jewish Encounter series The capture of SS Lieutenant Colonel Adolf Eichmann by Israeli agents in Argentina in May of 1960 and his subsequent trial in Jerusalem by an Israeli court electrified the world The public debate it sparked on where how and by whom Nazi war criminals should be brought to justice and the international media coverage of the trial itself was a watershed moment in how the civilized world in general and Holocaust survivors in particular found the means to deal with the legacy of genocide on a scale that had never been seen before Award winning historian Deborah E Lipstadt gives us an overview of the trial and analyzes the dramatic effect that the survivors courtroom testimony which was itself not without controversy had on a world that had until then regularly commemorated the Holocaust but never fully understood what the millions who died and the hundreds of thousands who managed to survive had actually experienced As the world continues to confront the ongoing reality of

genocide and ponder the fate of those who survive it this trial of the century which has become a touchstone for judicial proceedings throughout the world offers a legal moral and political framework for coming to terms with unfathomable evil Lipstadt infuses a gripping narrative with historical perspective and contemporary urgency Antisemitism on the Rise Ari Kohen, 2021-10 We live in uncertain and unsettling times Tragically today s global culture is rife with violent bigotry nationalism and antisemitism The rhetoric is not new it is grounded in attitudes and values from the 1930s and the 1940s in Europe and the United States Antisemitism on the Rise is a collection of essays by some of the world s leading experts including Joseph Bendersky Jean Cahan R Amy Elman Leonard Greenspoon and J rgen Matth us regarding two key moments in antisemitic history the interwar period and today Ari Kohen and Gerald J Steinacher have collected important examples on this crucial topic to illustrate new research findings and learning techniques that have become increasingly vital with the recent rise of white supremacist movements many of which have a firm root in antisemitism Part 1 focuses on the antisemitic beliefs and ideas that were predominant during the 1930s and 1940s while part 2 draws comparisons between this period and today including examples of ways to teach others about contemporary antisemitism The volume seeks to inform readers about the historical progression of antisemitism and in doing so asks readers to think about what is at stake and how to bridge the gap between research and teaching Law, Memory, Violence Stewart Motha, Honni van Rijswijk, 2016-02-22 The demand for recognition responsibility and reparations is regularly invoked in the wake of colonialism genocide and mass violence there can be no victims without recognition no perpetrators without responsibility and no justice without reparations Or so it seems from law s limited repertoire for assembling the archive after the disaster Archival and memorial practices are central to contexts where transitional justice addressing historical wrongs or reparations are at stake The archive serves as a repository or storehouse of what needs to be gathered and recognised so that it can be left behind in order to inaugurate the future The archive manifests law s authority and its troubled conscience It is an indispensable part of the liberal legal response to biopolitical violence This collection challenges established approaches to transitional justice by opening up new dialogues about the problem of assembling law s archive The volume presents research drawn from multiple jurisdictions that address the following questions What resists being archived What spaces and practices of memory conscious and unconscious undo legal and sovereign alibis and confessions And what narrative forms expose the limits of responsibility recognition and reparations By treating the law as an archive this book traces the failure of universalised categories such as perpetrator victim responsibility and innocence posited by the liberal legal state It thereby uncovers law s counter archive as a challenge to established forms of representing and responding to violence Postmodernism and the Holocaust , 2021-10-25 This book is the first sustained inquiry into the ways in which postmodern thinkers have grappled with the historical bases implications and methodological problems of the Holocaust The book examines the thinking of Arendt Levinas Foucault Lyotard and Derrida all of whom have recognized the centrality of the Nazi genocide to the epoch in which

we live The essays written for this volume constitute a wide ranging study of the efforts of postmodernism to articulate the Holocaust

This book delves into Hannah Arendt Volume 1 Hannah Arendt Volume 1. Hannah Arendt Volume 1 Hannah Arendt Volume 1 is an essential topic that needs to be grasped by everyone, ranging from students and scholars to the general public. This book will furnish comprehensive and in-depth insights into Hannah Arendt Volume 1 Hannah Arendt Volume 1, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:
 - Chapter 1: Introduction to Hannah Arendt Volume 1 Hannah Arendt Volume 1
 - Chapter 2: Essential Elements of Hannah Arendt Volume 1 Hannah Arendt Volume 1
 - Chapter 3: Hannah Arendt Volume 1 Hannah Arendt Volume 1 in Everyday Life
 - Chapter 4: Hannah Arendt Volume 1 Hannah Arendt Volume 1 in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, the author will provide an overview of Hannah Arendt Volume 1 Hannah Arendt Volume 1. The first chapter will explore what Hannah Arendt Volume 1 Hannah Arendt Volume 1 is, why Hannah Arendt Volume 1 Hannah Arendt Volume 1 is vital, and how to effectively learn about Hannah Arendt Volume 1 Hannah Arendt Volume 1.
 3. In chapter 2, this book will delve into the foundational concepts of Hannah Arendt Volume 1 Hannah Arendt Volume 1. This chapter will elucidate the essential principles that need to be understood to grasp Hannah Arendt Volume 1 Hannah Arendt Volume 1 in its entirety.
 4. In chapter 3, the author will examine the practical applications of Hannah Arendt Volume 1 Hannah Arendt Volume 1 in daily life. The third chapter will showcase real-world examples of how Hannah Arendt Volume 1 Hannah Arendt Volume 1 can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of Hannah Arendt Volume 1 Hannah Arendt Volume 1 in specific contexts. The fourth chapter will explore how Hannah Arendt Volume 1 Hannah Arendt Volume 1 is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, this book will draw a conclusion about Hannah Arendt Volume 1 Hannah Arendt Volume 1. This chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Hannah Arendt Volume 1 Hannah Arendt Volume 1.
