The conference series includes plenary invited talks, workshops, tutorials, paper presentation tracks, and panel discussions. The Edutainment conference series was initiated in Hangzhou, China, in 2006. Following the success of the first event, the second Edutainment 2007 was held in Hong Kong, China; the third Edutainment 2008 was held in Nanjing, China; and the fourth edition, Edutainment 2009, was held in Banff, Canada. Digital Touch Carey Jewitt, Sara Price, 2024-05-29. Touch matters. It is fundamental to how we know ourselves and each other, and it is central to how we communicate. Digital touch is embedded in many technologies, from wearable devices and gaming hardware to tactile robots and future technologies. What would it be like if we could hug or touch digitally across distance? How might this shape our sense of connection? How might we establish trust or protect our privacy and safety? Digital Touch is a timely and original book that addresses such questions. Offering a rich account of digital touch, the book introduces the key issues and debates as well as the design and ethical challenges raised by digital touch. Using clear, accessible examples and creative scenarios, the book shows how touch—how we touch as well as what, whom, and when we touch—is being profoundly reshaped by our use of technologies. Above all, it highlights the importance of digital touch in our daily lives and how it will impact our relationships and way of life in the future. The first work of its kind, Digital Touch is the go-to book for anyone wanting to get to grips with this crucial emerging
