African Indigenous Knowledge and the Disciplines Gloria Emeagwali, George J Sefa Dei, 2014-11-26 This text explores the multidisciplinary context of African Indigenous Knowledge Systems from scholars and scholar activists

committed to the interrogation production articulation dissemination and general development of endogenous and indigenous modes of intellectual activity and praxis The work reinforces the demand for the decolonization of the academy and makes the case for a paradigmatic shift in content subject matter and curriculum in institutions in Africa and elsewhere with a view to challenging and rejecting disinformation and intellectual servitude Indigenous intellectual discourses related to diverse disciplines take center stage in this volume with a focus on education mathematics medicine chemistry and engineering in their historical and contemporary context *Values and Valuing in Mathematics Education* Philip

Clarkson, Wee Tiong Seah, Jeong Suk Pang, 2019-04-24 This engaging open access book discusses how a values and valuing perspective can facilitate a more effective mathematics pedagogical experience and allows readers to explore multiple applications of the values perspective across different education systems It also clearly shows that teaching mathematics involves not only reasoning and feelings but also students interactions with their cultural setting and each other The book brings together the work of world leaders and new thinkers in mathematics educational research to improve the learning and teaching of mathematics Addressing themes such as discovering hidden cultural values a multicultural society and methodological issues in the investigation of values in mathematics it stimulates readers to consider these topics in cross cultural ways and offers suggestions for research and classroom practice It is a valuable resource for scholars of mathematics education from early childhood through to higher education and an inspiring read for all mathematics teachers

Junior Graphic Mavis Kitcher (Mrs), 2014-07-30 **Daily Graphic** Ransford Tetteh, 2010-07-28 Primary Mathematics Pedagogy at the Intersection of Education Reform, Policy, and Culture Sarah Murray, Princess Allotey, 2021-11-29 This volume provides an in depth comparative examination of how primary mathematics education is influenced by national education reform policy local resources and culture in three different countries By drawing on first hand observations and interviews as well as analysis of policy documents and learning resources the book considers the viability of transferring best practices in primary mathematics education across global contexts Three diverse countries Ghana the US and Singapore are explored Similarities and differences are highlighted and the influence of national and regional initiatives related to pedagogical strategies teacher education and cultural expectations are considered to offer an insightful examination of how best practices might be shared across borders This book will benefit researchers academics and postgraduate scholars with an interest in international and comparative education mathematics and educational policy Those with a specialization in primary mathematics education including pedagogy and teacher preparation will also benefit from this book **The Palgrave International Handbook of Youth Imprisonment** Alexandra Cox, Laura S. Abrams, 2021-06-21 This handbook brings together the knowledge on juvenile imprisonment to develop a global synthesized view of the impact of imprisonment on children and young people There are a growing number of scholars around the world who have conducted in depth qualitative research inside of youth prisons and about young people incarcerated in adult prisons and yet this research has

never been synthesized or compiled This book is organized around several core themes including conditions of confinement relationships in confinement gender sexuality and identity perspectives on juvenile facility staff reentry from youth prisons young people s experiences in adult prisons and new models and perspectives on juvenile imprisonment This handbook seeks to educate students scholars and policymakers about the role of incarceration in young people s lives from an empirically informed critical and global perspective

Abolishing School Fees in Africa, 2009 Progress in literacy and learning especially through universal primary education has done more to advance human conditions than perhaps any other policy Our generation has the possibility of becoming the first generation ever to offer all children access to good quality basic education But it will only happen if we have the political commitment at the country as well as at the international level to give priority to achieve this first in human history And it will only happen if also those who cannot afford to pay school fees can benefit from a complete cycle of good quality primary education Investment in good quality fee free primary education should be a cornerstone in any government s poverty reduction strategy
