Digital Media and Democratic Futures Michael X. Delli Carpini, 2019-02-14 The revolution in digital communications has altered the relationship between citizens and political elites with important implications for democracy As new information ecosystems have evolved as unforeseen examples of their positive and negative consequences have emerged and as theorizing data and research methods have expanded and improved the central question has shifted from if the digital information environment is good or bad for democratic politics to how and in what contexts particular attributes of this environment are having an influence It is only through the careful analysis of specific cases that we can begin to build a more comprehensive and nuanced understanding of the role of digital media in democratic theory and practice The essays in *Digital Media and Democratic Futures* focus on a variety of information and communication technologies politically relevant actors substantive issues and digital political practices doing so from distinct theoretical perspectives and methodological approaches Individually each of these case studies provides deep insights into the complex and context dependent relationship between media and democracy Collectively they show that there is no single outcome for democracy in the digital age only a range of possible futures Contributors Rena Bivens Michael X Delli Carpini Jennifer Earl Thomas Elliott Deen Freelon Kelly Gates Philip N Howard Daniel Kreiss Ting Luo Helen Nissenbaum Beth Simone Noveck Jennifer Pan Lisa Poggiali Daniela Stockmann

On Making a Shift in the Study of Religion and Other Essays Russell T. McCutcheon, 2021-06-08 Although many would today argue that the onetime dominance of the phenomenology of religion has receded and with it the traditional approach to studying religion as a unique and deeply felt experience that defies explanation the essays collected here take quite the opposite stand that this approach has merely been re branded and continues to characterize much work being done in the field today Offering a different way forward one that is based on experiences gained by the members of the Department of Religious Studies at the University of Alabama a program that has successfully reinvented itself over the past 20 years the book includes a variety of practical suggestions for how members of Religious Studies departments can revise their approach to studying and teaching about religion Seeing religion instead as mundane but always exemplary of basic

social elements found all across cultures the volume argues that the way forward for this field lies not in the specialness of its object of study but instead the fact that thinking and acting as if something is special is itself an ordinary aspect of history and culture Making just this shift helps the scholar of religion to contribute to wide interdisciplinary conversations all across the Humanities and Social Sciences demonstrating the practical relevance of their work Deleuze, Guattari and the Schizoanalysis of Post-Neoliberalism Ananya Roy Pratihara, Saswat Samay Das, Emine Gorgul, 2024-06-27 Deleuzo Guattarian philosophy provides crucial insights for assessing the post neoliberal era in this cutting edge volume of anti capitalist scholarship It maps the critical new assemblages emerging out of decades of neoliberalism to diagnose contemporary and future discontent Working alongside other forms of inquiry into the post neoliberal era the volume proposes a novel combination of ethics and Deleuzo Guattarian philosophy to understand the post neoliberal era Contributors argue that current critiques of neoliberalism ignore the determining role of colonialism and the accelerated threat of climate breakdown They highlight the precariousness of our planetary existence and propose new forms of inquiry into Deleuzo Guattarian becoming Deleuze Guattari and the Schizoanalysis of Post Neoliberalism considers new modes of capitalism societies built on exhaustion digital power education agroforestry as well as literary texts that characterise the post neoliberal era Alongside these critical positions the volume uses an ethical framework to challenge dialectical divisions in neoliberal critique In the process the essays remap the antagonisms discontents and tensions of current post neoliberal becoming **Translingual Practices** Sender Dovchin, Rhonda Oliver, Li Wei, 2024-05-09 Based on range of global case studies this book expands current work on translingual playfulness through an exploration of precariousness *Imagined Israel(s): Representations of the Jewish State in the Arts* Rocco Giansante, Luna Goldberg, 2023-02-27 The return of Jews to their ancestral land can be seen as an act of imagination A new country citizenship language and institutions needed to be imagined in order to be created The arts too have contributed to this act of envisioning and shaping the Jewish state By examining artistic representations of Israel Imagined Israel s Representations of the Jewish State in the Arts explores the ways in which the Israel imagined abroad and the one conjured within the country intersect offering a space for the co existence of sociopolitical cultural and ideological differences and tensions **Values That Pay** Kendra Salois, 2025-04-22 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more Today Morocco s hip hop artists are vital to their country s reputation as diverse creative and modern But in the 1990s and 2000s teenage amateurs shaped their craft and ideals together as the profound socioeconomic changes of neoliberalization swept through their neighborhoods Values That Pay traces Moroccan hip hop s trajectory from sidewalk cyphers and bedroom studios to royal commendations and international festivals Kendra Salois draws from more than ten years of research into her interlocutors music and moral reasoning to explore the constitutive tensions of institutionalization hip hop aesthetics and neoliberal life Entrepreneurial artists respond to their unavoidable complicity with an extractive state

through aesthetic and interpersonal sincerity educating their fans on the risks and responsibilities of contemporary citizenship Salois argues that over the past forty years Moroccan hip hop practitioners have transformed not only themselves but also what it means to be an ethical citizen in a deeply unequal nation
