Industrial Base Kalliroi L. Landry, 2010 *An Analysis of the Impacts of the International Traffic in Arms Regulations (ITAR) on U.S. National Security and Economic Interests*, 2018 The International Traffic in Arms Regulations (ITAR) is the set of regulations that limit U.S. exports in the name of national security need to be rescinded with new enabling legislation because they continue to be a threat to the United States U.S. national security and economic interests despite a well intended Executive reform initiative that has taken place over the last seven years Our analysis found that the ITAR restricts companies abilities to develop and export certain technologies with potential military application The regulations simultaneously inhibit international collaboration in relevant research and development banning industry and academic scientists from sharing technical information with foreign entities and individuals In today's interconnected globalized world that struggles with a diverse array of threats ITAR impedes domestic scientific growth and weakens the national security of the U.S. and its foreign partners In many ways our findings and conclusions reflect the same kinds of issues the NAS identified in 2009 Although the recommendations of that study indicated the best solution was Executive rather than Legislative because it was believed Executive action could act more swiftly to address the many problems that needed rapid solutions

Export Controls Bert Chapman, 2013-10-30 International trade plays an enormous role in economic growth and prosperity This activity can also be used to transfer military equipment knowledge and technology to hostile governments and transnational terrorist and criminal organizations seeking to attack and destroy their enemies The U.S. and other countries have used economic sanctions such as export controls to try to restrict and eliminate the transfer of weapons and financial assets to these governments and organizations This work examines how the U.S. has attempted to restrict the export of national security sensitive equipment finance knowledge and technology since World War II with varying degrees of success and failure It also examines how multiple U.S. Government agencies nongovernmental organizations and international government organizations seek to influence U.S. international trade foreign and security policies while concluding that some export controls are essential for promoting and defending U.S. national security interests International Traffic in Arms

Export Controls John R. Liebman, Roszel Cathcart Thomsen, James E. Bartlett, 2011-11-22 There should be no question in the mind of any exporter about the government's intention to enforce applicable legislation and regulations The penalties imposed by export laws and regulations are severe Violations often lead to heavy fines and in serious cases to debarment from contracting with the U.S. Government and possibly imprisonment Additionally the privilege of exporting can be withdrawn from firms or individuals who have violated the regulations either for specified periods or indefinitely Ample resources are devoted by the government to the detection and prosecution of violators The Departments of Defense Commerce Homeland Security Justice and the several intelligence agencies cooperate in this endeavor Knowing and willful violations

receive of course the heaviest sanctions but unintentional violations are by no means exempt from penalties Parties to an export transaction are expected to know and comply with the regulations United States Export Controls Sixth Edition provides a reference to which exporters and those who work closely with them can refer in their daily business operations in order to comply with the myriad export rules and regulations Thorough knowledge of the regulations is essential in finding practical solutions to export licensing problems related to specific transactions in formulating export marketing plans to minimize the impact of controls and in the organizing company resources to deal correctly and efficiently with both the legal requirements and the day to day operational demands of the export control regulations Export Control Reform United States.
