Management Foundation Practice Questions Tony Gannon, Steve Mann, Nigel Mear, 2009-10-15 The most authoritative guide to preparing for the ITIL R V3 Foundation Certificate in IT Service Management It includes an extensive range of practice questions complete with explanations and key learning points The book utilises the experience of three members of the ISEB examination panel An ITIL R Licensed Product *Metrics for IT Service Management* David Brooks, Jan van Bon, Tienneke Verheijen, 2006-04-26 Note This book is available in several languages Russian Chinese English The ability to organise and measure performance is a key part of the implementation of IT Service Management processes This publication contains practical information on the provision of useful and meaningful metrics as well as how best to use them within an organisation including generic principles such as SMART and KISS specific examples and templates for the use of each metric All metrics discussed are directly related to process objectives in order to help create a service focused management system This publication complements the ITIL CobiT and ISO20000 service management principles If you need to develop metrics for an IT environment buy this book or hire a consultant who has read it G Kieliszek Healthcare CIO Amazon This is more than a book it's a practical useable A to Z of IT Service Management Metrics Peter Brooks Author has given us all a crystal clear view of a neglected blurred piece of the IT Service Management puzzle As a Principal ITSM Consultant working for Foster Melliard in South Africa I am continuously disappointed by the many ITSM books produced that generally regurgitate what is already known by many in the industry Metrics for IT Service Organisations provides a vast array of

possible audiences something that many ITSM volumes do not and this is a Practical useable view of How to plan for design manage and improve the critical measures IT Service organisations require from both a strategic tactical and operational perspective I don't carry many books around with me this one I most certainly will Ian Clark Principal ITSM Consultant Foster Melliar With all the focus on IT Governance and IT Business process management It is easy to see why metrics are becoming hugely important for the management of organisations In reality however getting the right set of metrics in place is by no means a simple exercise Metrics for IT service organisations can be a great help Using ITIL as the basis the book lists many useful examples of metrics But what is more important is that it gives us insight into to creation of good metrics and the dangers of bad metrics Emma Speakman IT BPM consultant SA NL UK Looking for a comprehensive in depth exploration and explanation of what metrics to use in your ITSM journey Then Metrics for IT Service Organizations by Peter Brooks may be exactly what you're looking for This new book not only covers what metrics need to be seriously considered but explains the why and how behind selecting and defining them pointing out along the way many of the dangers and pitfalls of selecting the wrong ones or too many If you tend to agree that what gets measured gets done then applying the ideas in Peter's book will assist you in getting the right things done Ken Wendle FISM previous President of the itSMF USA works as a Senior Solution Architect for Hewlett Packard's OpenView Software division Given that itSMF is the source readers of this book will naturally expect a best practices view on metrics and a highly practical reference text More particularly though the special merit of the text is its carefulness in stressing that metrics must be both useful and meaningful and that the meaning comes from the business perspective on IT management processes a perspective always represented by a stated business objective By encouraging readers to seriously commit to defining clear business objectives the text aims the reader at measurement that avoids excess or irrelevance Malcolm Ryder CA Architect **IT Service Management** Ernest Brewster,2010
