*The Magic of the Middle Ages* Viktor Rydberg, 2021-07-24 *The Magic of the Middle Ages* Viktor Rydberg *The Magic of the Middle Ages* Viktor Rydberg, August Hjalmar Edgren, 2014-05-23 *The Magic of the Middle Ages* By Viktor Rydberg *The Magic of the People and the Struggle of the Church Against It* Complete New Edition It was the belief of Europe during the Middle Ages that our globe was the centre of the universe The earth itself fixed and immovable was encompassed by ten heavens successively encircling one another and all of these except the highest in constant rotation about their centre This highest and immovable heaven enveloping all the others and constituting the boundary between created things and the void infinite space beyond is the Empyrean the heaven of fire named also by the Platonizing philosophers the world of archetypes Here in a light which no one can enter God in triune majesty is sitting on his throne while the tones of harmony from the nine revolving heavens beneath ascend to him like a hymn of glory from the universe to its Creator Next in order below the Empyrean is the heaven of crystal or the sphere of the first movable primum mobile Beneath this revolves the heaven of fixed stars which formed from the most subtle elements in the universe are devoid of weight If now an angel were imagined to descend from this heaven straight to earth the centre where the coarsest particles of creation are collected he would still sink through seven vaulted spaces which form the planetary world In the first of these remaining heavens is found the planet Saturn in the second Jupiter in the third Mars to the fourth and middle heaven belongs the Sun queen of the planets while in the remaining three are the paths of Venus Mercury and finally the moon measuring time with its waning and increasing disk Beneath this heaven of the moon is the enveloping atmosphere of the earth and earth itself with its lands and seas **The Magic of the Middle Ages** Viktor Rydberg, 2017-02-21 Viktor Rydberg was one of the more interesting academic and literary minds of his age able to bounce back and forth between fiction and nonfiction works objectivity and theory It is this work here which stands out as perhaps his best a treatment on duality the burning times and a fairly early pre modern look at cryptozoology of a fashion Speaking of vampires werewolves witches and dark spells *Magic of the Middle Ages* claims the continuation of dualism and all of its superstitious offshoots simultaneously praising Christendom for its successes and deriding it in its earlier forms for butchery and lack of intellectual power *The Magic of the Middle Ages* Viktor Rydberg, 1879-01-01 *The Magic of the Middle Ages* Viktor Rydberg, 1879 **A Study of the Magic Elements in the Romans D'aventure and the Romans Bretons ...** De La Warr Benjamin Easter, 1906 **Teutonic Mythology: The Gods and Goddesses of the Northland (Vol. 1-3)** Viktor Rydberg, 2023-12-13 In *Teutonic Mythology* The Gods and Goddesses of the Northland Volumes 1 3 Viktor Rydberg delves deeply into the rich tapestry of Norse mythology exploring the intricate narratives and profound symbolism of its deities heroes and cosmological beliefs Rydberg employs a meticulous and scholarly literary style weaving together historical analysis comparative mythology and poetic interpretation to illuminate the significance of these figures within the broader context of Germanic and Teutonic folklore Each volume serves as a

comprehensive examination of mythological themes illustrating the enduring impact of these ancient stories on cultural identity and heritage in Northern Europe Viktor Rydberg a prominent Swedish poet and scholar of the 19th century was profoundly influenced by the Romantic movement and the burgeoning interest in folklore and mythology during his era His background in linguistics and literature combined with a passionate admiration for his Scandinavian roots propelled him to investigate and document the mythological heritage of the North Rydberg s scholarly pursuits are not merely academic they reflect a deep seated desire to reclaim and celebrate the cultural narratives that shaped his nation and its identity This monumental work is highly recommended for scholars students and enthusiasts of mythology as it offers an exhaustive exploration of Teutonic traditions Rydberg s insightful analysis not only enriches our understanding of Norse mythology but also encourages contemporary readers to reconnect with the ageless themes that resonate across time and culture
