

MAK

ENGINES IN SERVICE

Facts and Information on Diesel Engine Operation

Dear Reader,

This is the first issue of our new Service Magazine.

It is nothing unusual for the Customer Service Dept. of an engine builder to share technical information, but with this Magazine

MAK ENGINES IN SERVICE

we want to tread new paths.

We want to use this means of communication to intensify the exchange of information with you, our customers. We would also like to go beyond a mere technical dialogue and report on issues which contain more background information in defining our customer support.

As in the past, we will continue to send you our "Customer Service Information" as required, because this is a proven way to provide you with important information directly and quickly. **ENGINES IN SERVICE** is intended as a supplement to this and shall be published quarterly.

In this Magazine you will find general information on innovations, modifications and improvements, on service work, spare parts and exchange service, as well as organizational changes.

ENGINES IN SERVICE is not intended to be one way communication. We

Welcome to

are interested in your experience gained from the operation of MAK engines, and any suggestions you may have which can be shared with others.

Surveyors, chief engineers, and masters on the one hand and the MAK employees in Development, Production and Customer Service on the other hand are the people who will set and keep the course of this Magazine.

The address for contacting us is given on the last page.

We hope you will enjoy this first issue of

MAK
ENGINES IN SERVICE
