Optimizing Elementary Education for English Language Learners Guler, Nilufer, 2018-01-30 Teaching English language

learners has long presented challenges for teachers tasked with bringing these students to a level of language comprehension comparable to that of native speakers. These challenges and issues can lead to difficulty comprehending core academic topics for those learning the English language. *Optimizing Elementary Education for English Language Learners* is a critical scholarly publication that explores the importance of English as a Second Language (ESL) education as well as the challenges that can arise in striving for effective and engaging learning environments for the students involved. Featuring a broad scope of topics such as effective lesson plans, teacher education and preparation, and the education achievement gap, this book is geared toward academicians, practitioners, and researchers seeking current research on effective teaching strategies for teachers of English language learners.

**Stirring the Head, Heart, and Soul** H. Lynn Erickson, 2008 This book is a potent reminder of what it means when teachers teach whole human beings: their minds, hearts, and souls. Erickson helps us recall what all great teachers know: quality teaching is about building young lives. Carol Ann Tomlinson, Professor, University of Virginia, Author, *The Parallel Curriculum* Erickson sets the standard for concept-based curriculum. Her work offers a theoretically rich and eminently practical approach for constructing curriculum around rich transferable concepts. The third edition extends this seminal work for the benefit of educators and their students. Jay McTighe, Educational Consultant, McTighe and Associates, Author, *Understanding by Design: Help students analyze and synthesize information for a deeper understanding of big ideas* This updated edition of the classic bestseller on curriculum design for quality instruction provides practical structures, planning tools, and specific classroom examples of effective teaching strategies. The author focuses on the need for curriculum and instruction that allows students to move beyond factual learning to a level of understanding where knowledge transfers readily to new situations and thinking becomes integrated. The book's wide-ranging topics include: Aligning local curriculum with state and national content standards; Using brain-based teaching methods; Developing higher-order thinking skills; Assessing and reporting student progress; Creating a lifelong love of learning in students. This invaluable resource encourages teachers to create an educational environment that challenges students' personal intellect, engages their spirits, and fosters a greater understanding of the world around them.
