

# Principles for Making Environmental Policy Decisions: Some Guidelines

- Most improvements in environmental quality result from citizens putting pressure on elected officials and individuals developing innovative solutions to environmental problems.
- Each of us can play a leadership role in establishing and changing environmental policy.

# Making Environmental Policy

**Jin-Ying Zhang**

## **Making Environmental Policy:**

**Making Environmental Policy** Daniel J. Fiorino, 2023-04-28 Who speaks for the trees the water the soil and the air in American government today Which agencies confront environmental problems and how do they set priorities How are the opposing claims of interest groups evaluated Why do certain issues capture the public's attention In *Making Environmental Policy* Daniel Fiorino combines the hands-on experience of an insider with the analytic rigor of a scholar to provide the fullest most readable introduction to federal environmental policymaking yet published A committed environmental advocate he takes readers from theory to practice demonstrating how laws and institutions address environmental needs and balance them against other political pressures Drawing on the academic literature and his own familiarity with current trends and controversies Fiorino offers a lucid view of the institutional and analytic aspects of environmental policymaking A chapter on analytic methods describes policymakers' attempts to apply objective standards to complex environmental decisions The book also examines how the law the courts political tensions and international environmental agencies have shaped environmental issues Fiorino grounds his discussion with references to numerous specific cases including radon global warming lead and hazardous wastes Timely and necessary this is an invaluable handbook for students activists and anyone wanting to unravel contemporary American environmental politics Who speaks for the trees the water the soil and the air in American government today Which agencies confront environmental problems and how do they set priorities How are the opposing claims of interest groups evaluated Why do certain issues capture

*Environmental Policy Analysis for Decision Making* J. Loomis, Gloria Helfand, 2006-01-09 1 ENVIRONMENTAL POLICY ANALYSIS WHAT AND WHY Why environmental policy analysis Environmental issues are growing in visibility in local national and world arenas as a myriad of human activities leads to increased impacts on the natural world Issues such as climate change endangered species wilderness protection and energy use are regularly on the front pages of newspapers Governments at all levels are struggling with how to address these issues Environmental policy analysis is intended to present the environmental and social impacts of policies in the hope that better decisions will result when people have better information on which to base those decisions Conducting environmental policy analysis requires people who understand what it is and how to do it Interpreting it also requires those skills We hope that this book will increase the abilities both of analysts and of decision makers to understand and interpret the impacts of environmental policies Policy analysis books almost invariably begin by pointing out that policy analysis can take many forms This book is no different As you will see in Chapter 1 we consider policy analysis to be information provided for the policy process That information can take many forms from sophisticated empirical analysis to general theoretical results from summary statistics to game theoretic strategies

**Environmental Policy and Politics** Michael E. Kraft, 2001 This up-to-date and readable text is a concise yet thorough examination of environmental natural resource and energy policy and politics primarily within the United States Drawing from work within environmental science policy analysis and political

science it critically examines the key strengths and weaknesses of policy making processes today as well as the promise of new policy approaches It offers extensive coverage of the nature of environmental problems and historical developments in environmental policy The overriding theme of Environmental Policy and Politics Second Edition is that democratic approaches to policy making and policy change are likely to be the most effective over time based on strong public support In that vein the book stresses the opportunities available to citizens to shape environmental policies at all levels of government

Creating Environmental Policy in the European Union A. Zito, 1999-10-28 Investigates the EU policy making process and why this process has taken major steps to advance environmental regulation in some areas and not others The book develops a framework emphasizing decision making modes which provide a more nuanced understanding compared to traditional EU theoretical approaches of how EU actors make decisions

Environmental Politics Norman Miller, 2017-12-19 At every stage environmental policy is the result of the combat of stakeholders interested in and affected by the problem being addressed and the range of possible solutions The combatants include any or all of the following the federal government environmental advocacy groups and business the media the scientific community think tanks NGOs of every stripe trade associations and professional organizations and even state and local governments each of whom have their own interests in the resulting policy Environmental Politics Interest Groups the Media and the Making of Policy discusses political battles over the environment from ground level as they are fought in legislative chambers the daily newspaper on television and increasingly on the Internet The text explores environmental politics as a clash of interests not ideologies and environmental policy as a result of the reconciliation of those interests The author covers not only the conventional aspects of the policymaking process but more recent and less recognized elements and developments such as Proliferation of legislative riders and monument designations as major environmental strategies Evolving role of the media from science popularizer to agenda setter Growing influence on both Congress and the public of conservative and libertarian foundations and think tanks Devolution of environmental power from the Federal to state governments Metamorphosis of EPA in a business driven regulatory revolution Effect of globalization on US environmental policy Newly emerging role of the precautionary principle in marrying science and politics Increasing role of the Internet in promoting populist issues and promoting the decentralization of the environmental power structure No other book covers the politics of the environment the way this one does Written by an expert with 25 years of experience in environmental policymaking Environmental Politics Interest Groups the Media and the Making of Policy gives you an insider's view of how policies are forged By examining these issues through an interest group lens this book not only accounts for what policies have been adopted but also shows how you can influence policy and effect change

**Policy Hits the Ground** Aaron Eduardo Zazueta, 1995 Starting with the premise that the participation of local individuals is crucial to achieving environmentally sustainable development this report provides operational concepts methodological guidelines and real world examples for promoting stakeholder participation in

environmental policy making     Environmental Policy in Transition Ken Sexton, Barbara Scott Murdock, 1996     *The Oxford Handbook of U.S. Environmental Policy* Sheldon Kamieniecki, Michael Kraft, 2012-10-10 The Oxford Handbook of U S Environmental Policy is a state of the art work on all aspects of environmental policy in America This is a topic that will only grow in importance in the coming years and this handbook serves as an authoritative guide to any scholar interested in the issue     *Environmental Policy in the EU* Andrew Jordan, 2012-04-27 This second and fully revised edition brings together some of the most influential work on the theory and practice of contemporary EU environmental policy Comprising five comprehensive parts it includes in depth case studies of contemporary policy issues such as climate change genetically modified organisms and trans Atlantic relations as well as an assessment of how well the EU is responding to new challenges such as enlargement environmental policy integration and sustainability The book s aim is to look forward and ask whether the EU is prepared or even able to respond to the new governance challenges posed by the perceived need to use new policy instruments and processes to mainstream environmental thinking in all EU policy sectors     Making Environmental Law Nancy E. Marion, 2011-08-10 From Eisenhower to Obama this book provides a comprehensive analysis of the policies Congress and the president have proposed and passed to protect the environment over time The U S federal government first began to consider legislation to protect the environment and natural resources in 1940s Since that time Congress and the president have considered and passed numerous environmental policies laws that serve to protect the quality of the air we breathe the water we drink the natural beauty of the land and the animals that live both on land and in the water In *Making Environmental Law The Politics of Protecting the Earth* experienced and accomplished environmental law researcher Nancy E Marion shows what policies Congress have proposed and passed to protect the environment over time Each chapter focuses on the members of Congress s response to a different environmental concern such as ocean dumping pesticides and solid waste With green awareness now affecting every aspect of our modern world this text serves as an invaluable reference for students and researchers who need a deeper historical background on the political aspects of these issues

**Environmental Ethics and Policy-Making** Mikael Stenmark, 2017-03-02 Environmental issues raise crucial questions What should we value What is our place in nature What kind of life should we live How should we interact with other living things Environmental management and policy making is ultimately based on answers to these and similar questions but do we need a new ethics to be able overcome the environmental crisis we face This book addresses these important questions and explores the values that decision makers often presuppose in their environmental policy making Examining the content of the ethics of sustainable development that the UN and the world s governments want us to embrace this book examines alternatives to this kind of ethics and the differences in basic values that these make in practice Offering a detailed analysis of the ethics that lie behind current policy making as it is expressed in documents such as Agenda 21 and the Rio Declaration this unique contribution to the field of environmental studies shows how different environmental ethical theories support

different goals of environmental management and generate different policies when it comes to population growth agriculture and preservation and management of wilderness areas and endangered species Mikael Stenmark concludes that policy makers must take more seriously the value assumptions and conflicts connected to environmental issues and state explicitly on what values their own proposals and decisions are based and why these should be accepted Those studying environmental issues or environmental philosophy will find this accessible text invaluable in presenting a clear understanding of environmental ethics and contemporary applications and policies

The implementation of environmental policy in Ireland Bernadette Connaughton, 2019-05-22 This book explores the response of Ireland's political administrative system to the implementation of environmental directives in the cases of waste management water reform and biodiversity Ireland represents the implementation challenges of a small EU member state with a weak background in environmental governance and has struggled to adapt to the complexities of enforcing environmental rules Using a theoretical framework inspired by traditional implementation analysis and insights from the Europeanisation literature the book traces the implementation process in three directives The main conclusion of this study is that Ireland's implementation performance in waste management water and nature conservation is influenced by the low issue salience of environmental policy and the need to overcome structural problems in the public administration system to give effect to EU legislation

*The Environmental Policy Paradox (1-download)* Zachary A. Smith, 2015-09-25 This book examines environmental policy in the United States in air water land use agriculture energy waste disposal and other areas It discusses the legal processes that come into play when citizens pursue environmental policy goals in the courts

*Controversies in Environmental Policy* Sheldon Kamieniecki, Robert O'Brien, Michael Clarke, 1986-01-01 *Controversies in Environmental Policy* presents comprehensive analyses of the politics surrounding decision making on such environmental issues as land use toxic waste management new federalism and economic incentive It recognizes that environmental policy making is a blend of politics technology and economics and provides a sophisticated understanding of the interrelationship of the three The contributors to this volume examine the underlying value systems of the proponents of government dominated solutions and private enterprise dominated solutions to the questions of environmental policy This book is unique in that it exposes the biases inherent in both sides of the debate analyzing the differing views on the effectiveness of such policy evaluation strategies as cost benefit analysis and regulatory agency control It provides conservative and liberal opinions on the social and economic impact of the Reagan administration's effort to shape environmental policy *Controversies in Environmental Policy* recognizes the fundamental differences in values strategies and desired outcomes among those involved in the debates on environmental policy Disguised by a fragile consensus throughout the 1970s these divisions emerged with the election of the Reagan administration The basic divisions are not new and are consistent with the differences in other policy areas

*Decision Making for the Environment* National Research Council, Division of Behavioral and Social Sciences and Education, Center for

Economic, Governance, and International Studies, Committee on the Human Dimensions of Global Change, Panel on Social and Behavioral Science Research Priorities for Environmental Decision Making, 2005-07-01 With the growing number complexity and importance of environmental problems come demands to include a full range of intellectual disciplines and scholarly traditions to help define and eventually manage such problems more effectively Decision Making for the Environment Social and Behavioral Science Research Priorities is the result of a 2 year effort by 12 social and behavioral scientists scholars and practitioners The report sets research priorities for the social and behavioral sciences as they relate to several different kinds of environmental problems

EU Environmental Policy Nigel Haigh, 2015-12-14 At a time when Europeans across the continent are focused on the EU's future direction this book provides an important contribution to the current debate Created for reasons quite unconnected with the environment the EU has been given a compelling new justification by the success of its environmental policy A number of factors including a number of threats that came to prominence in the 1980s and the new concept of sustainable development are responsible for pushing environmental policy to the forefront of its agenda Nigel Haigh a leading authority on the development and implementation of EU environmental policy traces its evolution from obscurity to centrality Drawing on a range of articles and lectures he demonstrates how the EU has not only adapted itself to take on entirely new subject matter but also has contributed to solving problems which individual Member States could not have dealt with on their own The book goes on to contextualise the issues throughout its history and offers insight into the future role of the EU in environmental matters This book is a valuable resource for academics and scholars as well as professionals and policy makers in the areas of environment and sustainability politics international relations and European affairs

**EU Environmental Law, Governance and Decision-Making** Maria Lee, 2014-01-12 A vast and diverse body of EU law addresses an enormous range of environmental matters This book examines a number of areas of substantive EU environmental law focusing on the striking preoccupation of EU environmental law with the structure of decision making It highlights the observation that environmental protection and environmental decision making depend intimately on both detailed specialised information about the physical state of the world and on political judgments about values and priorities It also explores the elaborate mechanisms that attempt to bring these distinctive decision making resources into EU environmental law in areas including industrial pollution chemicals regulation environmental assessment and climate change

**Energy Abstracts for Policy Analysis**, 1984-07 *Nature and the City* Gene Desfor, Roger Keil, 2022-09-20 Pollution of air soil and waterways has become a primary concern of urban environmental policy making and over the past two decades there has emerged a new era of urban policy that links development with ecological issues based on the notion that both nature and the economy can be enhanced through technological changes to production and consumption systems This book takes a new look at this application of ecological modernization to contemporary urban political ecological struggles Considering policy processes around land use in urban

watersheds and pollution of air and soil in two disparate North American global cities it criticizes the dominant belief in the power of markets and experts to regulate environments to everyone's benefit arguing instead that civil political action by local constituencies can influence the establishment of beneficial policies The book emphasizes subaltern environmental justice concerns as instrumental in shaping the policy process Looking back to the 1990s when ecological modernization began to emerge as a dominant approach to environmental policy and theory Desfor and Keil examine four case studies restoration of the Don River in Toronto cleanup of contaminated soil in Toronto regeneration of the Los Angeles River and air pollution reduction in Los Angeles In each case they show that local constituencies can develop political strategies that create alternatives to ecological modernization When environmental policies appear to have been produced through solely technical exercises they warn one must be suspicious about the removal of contention from the process In the face of economic and environmental processes that have been increasingly influenced by neo liberalism and globalization Desfor and Keil's analysis posits that continuing modernization of industrial capitalist societies entails a measure of deliberate change to societal relationships with nature in cities Their book shows that environmental policies are about much more than green capitalism or the technical mastery of problems they are about how future urban generations live their lives with sustainability and justice

**Promise and Performance** Alfred Marcus, 1980-05-21 The enhanced CD ROM contains all of the piano accompaniments plus an exclusive version of Home Concert™ which will show the music on your computer screen follow along with it and turn the pages for you Also included on the CD are the listening tracks from the David Nadien Koji Toyoda recordings Titles Chorus from Judas Maccabaeus G F Handel Musette J S Bach Hunters Chorus C M v Weber Long Long Ago T H Bayly Waltz J Brahms Bourrée G F Handel The Two Grenadiers R Schumann Theme from Witches Dance N Paganini Gavotte from Mignon A Thomas Gavotte J B Lully Minuet in G L van Beethoven Minuet L Boccherini
