Making Feminist Sense Of The Global Justice Movement:

Making Feminist Sense of the Global Justice Movement Catherine Eschle, 2011 *Making Feminist Sense of the Global Justice Movement* Catherine Eschle, Bice Maiguashca, 2010-01-16 In recent years the global justice movement has grabbed headlines and reshaped political imaginations worldwide. Surprisingly, however, feminism is largely absent from accounts of the movement despite the fact that feminists are extensively involved on the ground. Addressing this significant gap in the literature, Eschle and Maiguashca shine a powerful light on what they term feminist antiglobalization activism. Drawing on their fieldwork at the World Social Forum and European Social Forum 2003-2005, they begin by outlining the vital role of feminist antiglobalization activism in Forum processes and events while also emphasizing its diversity. The authors then trace the origins of this activism, the critiques and aspirations of those involved, their political practices beyond the Forum, and their efforts to forge a sense of solidarity among themselves and with others. Taking feminism seriously, Eschle and Maiguashca conclude, points us toward a richer and more theoretically nuanced understanding of the global justice movement and its struggle to create other possible worlds. Their book thus offers vital insights not only for feminists but also for all those interested in contemporary social movements and in global governance and resistance. [The Oxford Handbook of Gender and Politics](#) Georgina Waylen, 2013-04-04 The Oxford Handbook of Gender and Politics brings to political science an accessible and comprehensive overview of the key contributions of gender scholars to the study of politics and it shows how these contributions produce a richer understanding of politics and societies. *The New Global Politics* Harry Vanden, Peter Funke, Gary Prevost, 2017-03-16 Over the past decade there has been an unprecedented mobilization of street protests worldwide, from the demonstrations that helped bring progressive governments to power in Latin America to the Arab Spring to Occupy movements in the United States and Europe to democracy protests in China. This edited volume investigates the current status, nature, and dynamics of the new politics that characterizes social movements from around the world that are part of this revolutionary wave. Spanning case studies from Latin America, North and South Africa, the Middle East, Asia, Europe, and North America, this volume examines the varied manifestations of the current cycle of protest which emerged from the Global South and spread to the North and highlights their interconnections, the globalized nature of these social movements. Analytically converging around Sidney Tarrow's emphasis on protest cycles, political opportunity structures, and identity, the individual chapters investigate processes such as global framing, internationalization, diffusion, scale shifts, externalizations, and transnational coalition building to provide an analytic cartography of the current state of social movements as they are simultaneously globalizing while still being embedded in their respective localities. Looking at new ways of thinking and new forms of challenging power, this comprehensive volume will be of great interest to graduates and scholars in the fields of globalization, social movements, and international politics. **Subaltern Movements in India** Manisha Desai, 2015-09-16 Social struggles in India target both the state and private corporations. Three subaltern struggles

against development in Gujarat India succeeded to varying degrees due to legalism from below and translocal solidarity but that success has been compromised by its gendered geographies Based on extensive field research this book examines the reasons for the three social movements success It analyses the contradictory reality of the deepening of democracy along with coercive state measures in the era of neoliberal development the importance of the legal changes in the state the nature of the local fields of protest and the translocal field of protest in contemporary subaltern protests Addressing gender inequalities within and outside the struggle the author shows that despite subaltern women having symbolic visibility in the public spaces of the struggles such as rallies protests and meetings with government officials they are absent from the private spaces of decision making and collective dialogues This book offers a new approach on the politics of social movements in contemporary India by discussing the nuanced relationship between development and democracy social justice and gender justice It will be of interest to academics in the field of Development and Gender studies Studies of social movements and South Asian Studies *Translating International Women's Rights* Susanne Zwingel, 2016-08-13 This book looks at the centerpiece of the international women's rights discourse the Convention on the Elimination of all Forms of Discrimination against Women CEDAW and asks to what extent it affects the lives of women worldwide Rather than assuming a trickle down effect the author discusses specific methods which have made CEDAW resonate These methods include attempts to influence the international level by clarifying the meaning of women's rights and strengthening the Convention's monitoring procedure and building connections between international and domestic contexts that enable diverse actors to engage with CEDAW This analysis shows that while the Convention has worldwide impact this impact is fundamentally dependent on context specific values and agency Hence rather than thinking of women's rights exclusively as normative content Zwingel suggests to see them as in process This book will especially appeal to students and scholars interested in transnational feminism and gender and global governance **Global Civil Society and Transversal Hegemony** Karen Buckley, 2013-05-29 There has been clear recognition of tendencies towards uncritically celebrating resistance and the need for critical appraisal within the literature on globalization and contestation This book provides a conceptual history of global civil society and a critical examination of the politics of resistance in the global political economy It uses a dialectical method of analysis to illustrate the conceptual stasis of mainstream approaches to questions of globalization and contestation while demonstrating the potential of a Gramscian approach to reconstitute hegemony as a key analytical and explanatory tool Buckley offers insight to the movements of transversal hegemony and existent and anticipated modes of social relation through the case studies of the World Social Forum and the World People's Conference on Climate Change Offering a more comprehensive understanding of change in the global political economy this book will be of interest to students and scholars of international political economy globalization global civil society sociology and the politics resistance Rethinking Gender Equality in Global Governance Lars Engberg-Pedersen, Adam Fejerskov, Signe Marie Cold-Ravnkilde, 2019-04-26 A
