influential surrealist artist and iconoclast whose inspiration can be seen in everyone from Jasper Johns to Beyoncé by the celebrated biographer of Cézanne and Braque. In this thought-provoking life of René Magritte 1898–1967, Alex Danchev makes a compelling case for Magritte as the single most significant purveyor of images to the modern world. Magritte's surreal sensibility, deadpan melodrama, and fine-tuned outrageousness have become an inescapable part of our visual landscape through such legendary works as *The Treachery of Images* (*Ceci n'est pas une pipe*) and his celebrated iterations of *Man in a Bowler Hat*. Danchev explores the path of this highly unconventional artist from his middle-class Belgian beginnings to the years during which he led a small brilliant band of surrealists and famously clashed with André Breton to his first major retrospective which traveled to the United States in 1965 and gave rise to his international reputation. Using 50 color images and more than 160 black and white illustrations, Danchev delves deeply into Magritte's artistic development and the profound questions he raised in his work about the very nature of authenticity. This is a vital biography for our time that plumbs the mystery of an iconoclast whose influence can be seen in everyone from Jasper Johns to Beyoncé.

René Magritte Catherine Defeyt, Francisca Vandepitte, 2023-08-15 The first book-length material study of the works of Belgian Surrealist René Magritte 1898–1967 is the most famous Belgian artist of the twentieth century and a celebrated representative of the Surrealist movement. Much has been written about his practices, artistic community, and significance within the history of modernism, but little has been documented regarding his process. This volume examines fifty oil paintings made by Magritte between 1921 and 1967, now held at the Royal Museums of Fine Arts of Belgium. This technical study of his works using noninvasive scientific imaging and chemical analysis reveals the artist's painting materials, his habit of overpainting previous compositions, and the origins and mechanisms of surface and pigment degradation. Of interest to conservators, scientists, curators, and enthusiasts of twentieth-century art, this book expands our understanding of Magritte the artist and provides new and useful findings that will inform strategies for the future care of his works.

René Magritte and the Art of Thinking Lisa Lipinski, 2019-04-04 For René Magritte, painting was a form of thinking. Through paintings of ordinary objects rendered with illusionism, Magritte probed the limits of our perception: what we see and cannot see, the nature of representation as a philosophical system for presenting ideas, and explored perspective as a method of visual argumentation. This book makes the claim that Magritte's painting is about vision and the act of viewing of perception itself and the process of how we see and experience things in the world, including paintings as things.

Venus in Exile Wendy Steiner, 2002-11-15 In Venus in Exile renowned cultural critic Wendy Steiner explores the twentieth century's troubled relationship with beauty Disdained by avant garde artists feminists and activists beauty and its major symbols of art the female subject and ornament became modernist taboos To this day it is hard to champion beauty in art without sounding aesthetically or politically retrograde Steiner argues instead that the experience of beauty is a form of communication a subject object interchange in which finding someone or something beautiful is at the same time recognizing beauty in oneself This idea has led artists and writers such as Marlene Dumas Christopher Bram and Cindy Sherman to focus on the long ignored figure of the model who function in art as both a subject and an object Steiner concludes Venus in Exile on a decidedly optimistic note demonstrating that beauty has created a new and intensely pleasurable direction for contemporary artistic practice
