Regulation of Medical Implants in the EU and UK

Great Britain: Parliament: House of Commons: Science and Technology Committee,2012-11 EU regulations on the safety of medical implants such as metal on metal hip replacements must be urgently tightened in response to evidence that manufacturers are seeking approval for devices in Member States with the least stringent regulatory regimes Much greater transparency is needed about the approval process so patients and doctors can have full confidence in the implants they are using Manufacturers and regulators must also publish more rigorous clinical data on the safety of new implants and be subject to greater scrutiny The clinical data requirements for high risk medical devices to be sold on the European Market are much less stringent than for new medicines There appears to be reliance on equivalence similarity to an existing implant rather than clinical investigations of the implant being approved The Committee calls for all clinical data used in the approval of a medical implant to be published without identifying patients or clinical trial participants For products currently on the market such data should be published immediately There should also be a public record of every approach from a manufacturer to any notified body in the EU so that forum shopping can be identified UK regulatory body the Medicines and Healthcare products Regulatory Agency MHRA is criticised for its slow reaction to reports of problems with metal on metal hip replacements in Australia The withdrawal of PIP breast implants also highlights the need for frequent and unannounced spot checks of medical implant manufacturers to identify and prevent similar problems The Committee is supportive of the proposed legislative changes from the European Commission to improve transparency

Ageless Nation Michael G. Zey,2017-07-05 In this intriguing volume futurist and author Michael G Zey imagines a time in which technology has stretched human life spans to four hundred years or more Genetic engineering cloning and stem cell technology will eradicate diseases and allow for nanoscopic repair and maintenance of the body Smart drugs and caloric restriction programs will largely stop aging and ensure healthy bodies and sharp minds indefinitely Grounding his speculation in contemporary scientific research Zey s optimistic vision sees retirement replaced by hiatuses between careers and leisure time spent in multi generational homes Key players in the debate include supporters like Cambridge University scientist Aubrey de Grey who envisions five thousand year life spans and the radical futurist author Ray Kurzweil who foresees the merging of humans and computers Organizations such as the Coalition to Extend Life lobby the government for immortality research funding and find opposition in the President s Council on Bioethics and deep ecologists advocating zero population

growth Criticizing current environmental trends as anti progress and anti human Zey s own solutions include controversial measures like human control of weather colonization of outer space and genetically modifying food He concludes that the eventuality of a modern Fountain of Youth is closer than we think Zey s predictions about the future are thoughtful and fascinating

Small-Business Outlook - Hang Tough , Gonna Do Great Things Gary Fishgall,2010-06-15 A major reappraisal of the life of legendary entertainer Sammy Davis Jr Gonna Do Great Things is at once an intimate portrait and an exuberant celebration of a wholly American icon Through his multifaceted talent and personality Sammy became one of the most magnetic and contentious figures in modern entertainment history His outstanding talents as a dancer singer actor

impressionist and comedian combined with his close association with megastars and his interracial marriage made him a celebrity in the truest sense Born in Harlem in 1925 Sammy debuted onstage with Will Mastin s vaudeville troupe when he was only three years old He was an instant hit and his talent propelled him into one of the most luminous entertainment careers of his generation No one could please a crowd like Sammy whose overwhelming energy and infectious humor exhilarated audiences for sixty years However Sammy s life was not without hardship and his high spirited attitude often masked a fragile ego From an impoverished broken home he lacked even a single day of formal education and the rigors of his blossoming show business career denied him the traditional pleasures of childhood Racism constantly affected his life particularly when he joined the army in 1943 Because he refused to acknowledge any race related restrictions his very existence became a political statement An active member of the Civil Rights movement and America s first African American superstar Sammy paved the way for other black entertainers As a charter member of the Rat Pack Sammy spent the 1950s and 1960s basking in an image of cool and endearing himself to the public But by the 1970s he was relying on cocaine and alcohol flirting with Satanism indulging in scandalous sexual behavior and becoming the punchline of jokes on Saturday Night Live Though his fans still adored him his performances suffered A four pack a day smoker Sammy succumbed to cancer when he was sixty four shortly after celebrating six decades in the spotlight Renowned biographer of Hollywood giants Jimmy Stewart Burt Lancaster and Gregory Peck Gary Fishgall brings an actor s and director s understanding of the entertainment industry to Sammy s complicated existence Meticulously researched and filled with insights gathered from interviews with those who knew Sammy best Gonna Do Great Things reveals the fascinating and controversial life of this beloved entertainer
