Making Hospitals Work:

Making Hospitals Work Marc Baker, Ian Taylor, Alan Mitchell, 2009 A Lean Action Workbook from the Lean Enterprise Academy a affiliate of the Lean Global Network and the Lean Enterprise Institute For the first time Making Hospitals Work provides a practical road map for healthcare leaders seeking to create truly lean hospitals It outlines a clear framework for focusing improvement activities on the most important challenges facing each hospital It uses the same evidence based scientific method as clinicians use to diagnose and treat medical problems to analyze and redesign the core emergency and elective patient journeys from arrival to discharge It opens everyone s eyes to the big win win win opportunities to eliminate unnecessary waiting time for patients to synchronize activities so clinical staff can spend more time caring for patients and to free up capacity by reducing length of stay and cut the overtime and agency budget It also introduces the key new role of the value stream manager in gaining agreement on what needs to be done by whom in every department across the hospital Every step described in Making Hospitals Work has been tried and tested in the three years action research that led to this workbook It is the critical breakthrough to take the next steps on the lean healthcare journey Making Health Systems Work in Low and Middle Income Countries Sameen Siddiqi, Awad Mataria, 'Awad Maṭariyah, Katherine D.
