

GO DIRECTLY TO JAIL

Edited by Gene Healy

The Criminalization
of Almost Everything

Go Directly To Jail The Criminalization Of Almost Everything

Paul Finkelman

Go Directly To Jail The Criminalization Of Almost Everything:

Go Directly to Jail Gene Healy, 2004 The American criminal justice system is becoming ever more centralized and punitive owing to rampant federalization and mandatory minimum sentencing guidelines Go Directly to Jail examines these alarming trends and proposes reforms that could rein in a criminal justice apparatus at war with fairness and common sense

Encyclopedia of American Civil Liberties Paul Finkelman, 2021-02-25 Originally published in 2006 the Encyclopedia of American Civil Liberties is a comprehensive 3 volume set covering a broad range of topics in the subject of American Civil Liberties The book covers the topic from numerous different areas including freedom of speech press religion assembly and petition The Encyclopedia also addresses areas such as the Constitution the Bill of Rights slavery censorship crime and war The book's multidisciplinary approach will make it an ideal library reference resource for lawyers scholars and students

By the People Charles Murray, 2016-08-02 The American way of life built on individual liberty and limited government is on life support American freedom is being gutted Whether we are trying to run a business practice a vocation raise our families cooperate with our neighbors or follow our religious beliefs we run afoul of the government not because we are doing anything wrong but because the government has decided it knows better When we object that government can and does tell us Try to fight this and we'll ruin you In this provocative book acclaimed social scientist and bestselling author Charles Murray shows us why we can no longer hope to roll back the power of the federal government through the normal political process The Constitution is broken in ways that cannot be fixed even by a sympathetic Supreme Court Our legal system is increasingly lawless unmoored from traditional ideas of the rule of law The legislative process has become systemically corrupt no matter which party is in control But there's good news beyond the Beltway Technology is siphoning power from sclerotic government agencies and putting it in the hands of individuals and communities The rediversification of American culture is making local freedom attractive to liberals as well as conservatives People across the political spectrum are increasingly alienated from a regulatory state that nakedly serves its own interests rather than those of ordinary Americans The even better news is that federal government has a fatal weakness It can get away with its thousands of laws and regulations only if the overwhelming majority of Americans voluntarily comply with them Murray describes how civil disobedience backstopped by legal defense funds can make large portions of the 180 000 page Federal Code of Regulations unenforceable through a targeted program that identifies regulations that arbitrarily and capriciously tell us what to do Americans have it within their power to make the federal government an insurable hazard like hurricanes and floods leaving us once again free to live our lives as we see fit By the People's hopeful message is that rebuilding our traditional freedoms does not require electing a right thinking Congress or president nor does it require five right thinking justices on the Supreme Court It can be done by we the people using America's unique civil society to put government back in its proper box

Cato Handbook on Policy Cato Institute, 2005 Details how legislators can return the federal government to the size and

scope envisioned by the Founding Fathers The Transformation of the American Democratic Republic Stephen M. Krason, 2017-09-08 In this stimulating volume Stephen M Krason considers whether the Founding Fathers vision of the American democratic republic has been transformed and if so in what ways He looks to the basic principles of the Founding Fathers then discusses the changes that resulted from evolving contemporary expectations about government Referencing philosophical principles and the work of great Western thinkers Krason then explores a variety of proposals that could forge a foundation for restoration Acknowledging that any attempt to revive the Founders views on a democratic republic must start in the public sphere Krason focuses on concerned citizens who are aware of the extent to which our current political structures deviate from the Founders vision and want to take action Ultimately a democratic republic can exist be sustained and flourish only when there is a deep commitment to it in the minds and norms of its people Written by a foremost authority in the field of US Constitutional law this book will appeal to those interested in American history society and politics

Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman, 2017-03-20 In Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman critically examines the sentencing policies of Bangladesh and demonstrates that the country's sentencing policies are not only yet to be developed in a coherent manner and shaped with an appropriate and contextual balance but also remain part of the problem rather than part of the solution The author forcefully argues that the conception of sentencing policies cannot and should not always be confined exclusively to institutional understandings The typical realities of post colonial societies call for rethinking the traditional judiciary centred understanding of what is meant by criminal sentences This book thus raises the question for theoretical sentencing scholarship whether the prevailing judiciary centred understanding of sentencing should be rethought **By the People** Charles A. Murray, 2015 In this provocative book acclaimed social scientist and bestselling author Charles Murray shows us why we can no longer hope to roll back the power of the federal government through the normal political process Murray describes how civil disobedience backstopped by legal defense funds can make large portions of the 180 000 page Federal Code of Regulations unenforceable through a targeted program that identifies regulations that arbitrarily and capriciously tell us what to do *The Man Who Emptied Death Row* James L. Merriner, 2008-09-08 George H Ryan Illinois governor from 1999 to 2003 became nationally known for two significant and very different reasons The first governor in the United States to clear out his state's death row and put a moratorium on the death penalty he was also convicted and sent to prison on corruption charges The Man Who Emptied Death Row Governor George Ryan and the Politics of Crime details the career of a man who both enhanced and tarnished the image of the highest office in Illinois and examines the political history and culture that shaped him Author James L Merriner explores the two very different stories of George Ryan the brave crusader against the death penalty and the petty crook An extensive analysis of the official record exclusive interviews and previously undisclosed incidents in Ryan's career expose why the governor pardoned or commuted the sentences of all 171 prisoners on Illinois's death row before leaving office and

how he later was convicted of eighteen counts of official corruption This biography traces Ryan s family history and the Illinois political climate that influenced his development as a politician Although Ryan championed good government initiatives organ donations tougher drunken driving and lobbyist disclosure laws he never overcame a reputation as a wheeler dealer notes Merriner Merriner goes beyond Ryan s life and career to explore the politics of crime highlighting the successes and failures of the criminal justice system and suggesting how both white collar fraud and violent crime shape politics A fascinating story that reveals much about the way Illinois politics works The Man Who Emptied Death Row will help determine how history will judge Illinois governor George Ryan *Survival of the Slickest* Gene Louis,2006 **The Public**

Order and the Sacred Order: Contemporary Issues, Catholic Social Thought, and the Western and American Traditions Stephen M. Krason,2009-05-20 The Public Order and the Sacred Order evaluates a range of contemporary social and political questions in light of Catholic social teaching philosophy great political thinkers and America s founding tradition It treats a wide range of topics including economics education free speech abortion church state relations American legal trends international politics Through discussions of these and other issues confronting contemporary American society author Stephen M Krason offers a scholarly social commentary suggests means for a reconstruction of sound social and political thought and calls for a renewal of American institutions politics and culture The book is structured in three parts Part I sets out foundational principles guided by Catholic social teaching philosophical reasoning Western political thought and the American founding Part II examines and evaluates the numerous issues in light of the principles set out in Part I and Part III provides approaches to the issues both general and specific policy ideas consonant with the foundational principles set out in Part I There is also a volume of important Catholic Church documents Supreme Court cases and excerpts of important writings in the history of Western and American political thought that let the reader examine directly many documents discussed in the text of the book Along with being a strong and focused defense of traditional Catholic approaches to the questions of our time the vast array of material covered makes this book an invaluable reference for anyone interested in contemporary politics **Decriminalizing Domestic Violence** Leigh Goodmark,2018-10-01 Decriminalizing Domestic

Violence asks the crucial yet often overlooked question of why and how the criminal legal system became the primary response to intimate partner violence in the United States It introduces readers both new and well versed in the subject to the ways in which the criminal legal system harms rather than helps those who are subjected to abuse and violence in their homes and communities and shares how it drives rather than deters intimate partner violence The book examines how social legal and financial resources are diverted into a criminal legal apparatus that is often unable to deliver justice or safety to victims or to prevent intimate partner violence in the first place Envisioned for both courses and research topics in domestic violence family violence gender and law and sociology of law the book challenges readers to understand intimate partner violence not solely or even primarily as a criminal law concern but as an economic public health community and human

rights problem It also argues that only by viewing intimate partner violence through these lenses can we develop a balanced policy agenda for addressing it At a moment when we are examining our national addiction to punishment Decriminalizing Domestic Violence offers a thoughtful pragmatic roadmap to real reform

The Cult of the Presidency Gene

Healy,2009-05-01 The Bush years have given rise to fears of a resurgent Imperial Presidency Those fears are justified but the problem cannot be solved simply by bringing a new administration to power In his provocative new book The Cult of the Presidency Gene Healy argues that the fault lies not in our leaders but in ourselves When our scholars lionize presidents who break free from constitutional restraints when our columnists and talking heads repeatedly call upon the commander in chief to dream great dreams and seek the power to achieve them when voters look to the president for salvation from all problems great and small should we really be surprised that the presidency has burst its constitutional bonds and grown powerful enough to threaten American liberty Interweaving historical scholarship legal analysis and trenchant cultural commentary The Cult of the Presidency traces America s decades long drift from the Framers vision for the presidency a constitutionally constrained chief magistrate charged with faithful execution of the laws Restoring that vision will require a Congress and a Court willing to check executive power but Healy emphasizes that there is no simple legislative or judicial fix to the problems of the presidency Unless Americans change what we ask of the office no longer demanding what we should not want and cannot have we ll get what in a sense we deserve

The Public Order and the Sacred Order Stephen M. Krason,2009-05-20

The Public Order and the Sacred Order evaluates a range of contemporary social and political questions in light of Catholic social teaching philosophy great political thinkers and America s founding tradition It treats a wide range of topics including economics education free speech abortion church state relations American legal trends international politics Through discussions of these and other issues confronting contemporary American society author Stephen M Krason offers a scholarly social commentary suggests means for a reconstruction of sound social and political thought and calls for a renewal of American institutions politics and culture The book is structured in three parts Part I sets out foundational principles guided by Catholic social teaching philosophical reasoning Western political thought and the American founding Part II examines and evaluates the numerous issues in light of the principles set out in Part I and Part III provides approaches to the issues both general and specific policy ideas consonant with the foundational principles set out in Part I There is also a volume of important Catholic Church documents Supreme Court cases and excerpts of important writings in the history of Western and American political thought that let the reader examine directly many documents discussed in the text of the book Along with being a strong and focused defense of traditional Catholic approaches to the questions of our time the vast array of material covered makes this book an invaluable reference for anyone interested in contemporary politics

Creating Criminals

Vivien Stern,2013-07-18 Market society is producing more crime around the world More acts are being defined as crimes Ever increasing numbers of people are classified as criminals and more are being locked up in prison With globalization the

crime and punishment problem is no longer insulated from pressures beyond national borders The rich may retreat behind their expensive security into gated communities but the poor are more and more at the mercy of criminals and corrupt policing Yet Vivien Stern argues the trends towards more criminalization and more imprisonment are not making for more effective crime control or safer communities This important book demonstrates that the prospects for the future are serious unless NGOs and reformers join in a new movement for reform that gives more control of justice policy back to communities and neighbourhoods **Total Collapse: The Case Against Responsibility and Morality** Stephen Kershnar, 2018-03-29 This book argues that there is no morality and that people are not morally responsible for what they do In particular it argues that what people do is neither right nor wrong and that they are neither praiseworthy nor blameworthy for doing it Morality and moral responsibility lie at the heart of how we view the world In our daily life we feel that people act rightly or wrongly make the world better or worse and are virtuous or vicious These policies are central to our justifying how we see the world and treat others In this book the author argues that our views on these matters are false He presents a series of arguments that threaten to undermine our theoretical and practical worldviews The philosophical costs of denying moral responsibility and morality are enormous It does violence to philosophical positions that many people took a lifetime to develop Worse it does violence to our everyday view of people A host of concepts that we rely on daily praiseworthy blameworthy desert virtue right wrong good bad etc fail to refer to any property in the world and are thus deeply mistaken This book is of interest to philosophers lawyers and humanities professors as well as people interested in morality law religion and public policy

Routledge Revivals: Encyclopedia of American Civil Liberties (2006) Paul Finkelman, 2018-02-05 Originally published in 2006 the Encyclopedia of American Civil Liberties is a comprehensive 3 volume set covering a broad range of topics in the subject of American Civil Liberties The book covers the topic from numerous different areas including freedom of speech press religion assembly and petition The Encyclopedia also addresses areas such as the Constitution the Bill of Rights slavery censorship crime and war The book's multidisciplinary approach will make it an ideal library reference resource for lawyers scholars and students ***Overcriminalization*** Douglas Husak, 2008-01-08 Husak's primary goal is to defend a set of

constraints to limit the authority of states to enact and enforce criminal offenses In addition Husak situates this endeavor in criminal theory as traditionally construed This book urges the importance of this topic in the real world while most Anglo American legal philosophers have neglected it **Debating the Presidency** Richard J. Ellis, Michael Nelson, 2019-12-20 The study of the presidency the power of the office the evolution of the executive as an institution the men who have served has generated a great body of research and scholarship What better way to get students to grapple with the ideas of the literature than through conflicting perspectives on some of the most pivotal issues facing the modern presidency Richard Ellis and Michael Nelson have once again assembled a cadre of top scholars to offer a series of pro con essays that will inspire spirited debate beyond the pages of the book Each essay written in the form of a debate resolution offers a

compelling yet concise view on the American executive **Lying, Cheating, and Stealing** Stuart P. Green, 2006 In the first in depth study of its kind Stuart Green exposes the ambiguities and uncertainties that pervade the white collar crimes and offers an approach to their solution Drawing on recent cases involving such figures as Martha Stewart Bill Clinton Tom DeLay Scooter Libby Jeffrey Archer Enron s Andrew Fastow and Kenneth Lay HealthSouth s Richard Scrushy Yukos Oil s Mikhail Khodorkovsky and the Arthur Andersen accounting firm Green weaves together what at first appear to be disparate threads in the criminal code revealing a complex and fascinating web of moral insights about the nature of guilt and innocence and what fundamentally constitutes conduct worthy of punishment by criminal sanction BOOK JACKET The Freeman ,2005

Unveiling the Power of Verbal Art: An Mental Sojourn through **Go Directly To Jail The Criminalization Of Almost Everything**

In some sort of inundated with screens and the cacophony of quick connection, the profound energy and emotional resonance of verbal beauty often disappear in to obscurity, eclipsed by the continuous barrage of sound and distractions.
