According to Donald Dulchinos the real action on the Internet isn't in the realm of commerce It is plain and simple in the realm of religion But not exactly that old time religion This book is about the spiritual impact of our increasing ability to communicate quickly and with enhanced evolution It's about our search for meaning our hunger for a glimpse at humanity's future development in which frighteningly or excitingly the trend is clearly toward increasing integration of telecommunications and information technology with the body itself Electronic prosthetics direct neural implants and the brain's control of electronic and mechanical limbs move the boundary that used to exist between human and machine to some undefined frontier inside our bodies our brains and perhaps our minds And if the electronics inside my brain connect directly with the electronics inside your brain how is it meaningful to speak as though we are not part of one larger entity Dulchinos writes Another way of saying this might be that everything that rises must converge Or we are all part of God Or we are all moving toward living in the field sharing Group Mind Dulchinos traces ideas of evolution anthropology biology and theology all of which point toward a betterment a unity and argues cogently that these ideas find their embodiment in the technology of the World Wide Web Neurosphere or God or Group Mind call it what you will is about technology and the mechanics of unity Although other books on new technology and new consciousness touch on many of the ideas in Neurosphere none do so in quite such a straightforward logical way Dulchinos has a way of telling personal stories that make the technical accessible to the dreamer the spiritual comprehensible to the skeptic and the future of body technology less fear inducing to everyone *Subtitling* Jorge Díaz Cintas, Aline Remael, 2020-12-29
