Against the Current! Wilhelm von Kardorff, Helga Zepp-LaRouche, Anton Chaitkin, Michael Carr, A currently popular philosophy is summed up in the phrase "Don't worry, just go with the flow." This book was written by a leading member of the German Reichstag parliament, Wilhelm von Kardorff, who discovered that the flow, both of his own personal assumptions and of the universally taught doctrines of German economic philosophy and government policy, were dead wrong and leading towards a waterfall of complete destruction and impoverishment of his nation. With this book, he launched a successful campaign to redirect the flow or current with the introduction of American System economic policies into Germany. This book, originally entitled *Gegen den Strom: Eine Kritik der Handelspolitik des Deutschen Reichs an der Hand Carey'schen forshungen*, was first published in Berlin in 1875. By May of 1879, von Kardorff's campaign resulted in German Chancellor Bismarck's adoption of a new economic program, which he announced in a presentation before the Reichstag. To a large degree, Bismarck based his new program on this book, and von Kardorff's
