Homo Hierarchicus:

Homo Hierarchicus Louis Dumont,1970-01-01 **Homo Hierarchicus** Louis Dumont,1970-01-01 **Homo Hierarchicus** Louis Dumont,1870 *To Take Place* Jonathan Z. Smith,1987 In this broad ranging inquiry into ritual and its relation to place Jonathan Z Smith prepares the way for a new approach to the comparative study of religion Smith stresses the importance of place in particular constructed ritual environments to a proper understanding of the ways in which empty actions become rituals He structures his argument around the territories of the Tjilpa aborigines in Australia and two sites in Jerusalem the temple envisioned by Ezekiel and the Church of the Holy Sepulchre The first of these locales the focus of one of the more important contemporary theories of religious ritual allows Smith to raise questions concerning the enterprise of comparison His close examination of Eliade s influential interpretation of the Tjilpa tradition leads to a powerful critique of the approach to religion myth and ritual that begins with cosmology and the category of The Sacred In substance and in method *To Take Place* represents a significant advance toward a theory of ritual It is of great value not only to historians of religion and students of ritual but to all whether social scientists or humanists who are concerned with the nature of place This book is extraordinarily stimulating in prompting one to think about the ways in which space or place is perceived marked and utilized religiously A provocative example of the application of humanistic geography to our understanding of what takes place in religion Dale Goldsmith Interpretation Homo Hierarchicus Dumont,1981 The Art of Contextual Theology Victor I. Ezigbo,2021-05-28 Christianity has an inherent capability to assume as its novel mode of expression the local idioms customs and thought forms of a new cultural frontier that it encounters As a result Christianity has become multicultural and multilingual What is the role of theology in the imagination and articulation of Christianity s inherent multiculturalism and multi vernacularity Victor Ezigbo examines this question by exploring the nature and practice of contextual theology To accomplish this task this book engages the main genres of contextual theology explores echoes of contextual theological thinking in some of Jesus s sayings and discusses insights into contextual theology that can be discerned in the discourses on theology and caste relations Dalit theology theology and primal cultures African theology and theology and poverty Latin American liberation theology **The Oxford Handbook of Caste** Surinder S. Jodhka,Jules Naudet,2023 The Oxford Handbook of Caste brings together a wide range of essays encompassing various academic disciplines to lay the foundations for a new understanding of caste capturing emerging research trends imaginations and the lived realities of caste Way of Life T. N. Madan,1988-01-01 *Homo hierarchicus* ,1966 **Dalit Theology and Dalit Liberation** Peniel Rajkumar,2016-05-13 In fulfilling the long awaited need for a constructive and critical rethinking of Dalit theology this book offers and explores the synoptic healing stories as a relevant biblical paradigm for Dalit theology in order to help redress the lacuna between Dalit theology and the social practice of the Indian Church Peniel Rajkumar s starting point is that the growing influence of Dalit theology in academic circles is incompatible with the praxis of the Indian Church

which continues to be passive in its attitude towards the oppression of the Dalits both within and outside the Church The theological reasons for this lacuna between Dalit theology and the Church's praxis Rajkumar suggests lie in the content of Dalit theology especially the biblical paradigms explored which do not offer adequate scope for engagement in praxis

Marcel Mauss Wendy James, N. J. Allen, 1998-12-01 Marcel Mauss successor of Emile Durkheim and one time teacher of Claude Levi Strauss continues to inspire social scientists across various disciplines Only selected texts of Mauss's work have been translated into English but of these some as for instance his *Essay on the Gift* have proved of key significance for the development of anthropology internationally Recently and starting in France the interest in Mauss's work has increased noticeably as witnessed by several reassessments of its relevance to current social theory This collection of original essays is the first to introduce the English language reader to the current re-evaluation of his ideas in continental Europe Themes include the post-structuralist appraisal of exchange the anthropology of the body practical techniques gesture systems the notions of substance materiality and the social person There are fresh insights into comparative politics and history modern forms of charity and new readings of some political and historical aspects of Mauss's work that bear on the analysis of regions such as Africa and the Middle East relatively neglected by the Durkheimian school and by structuralism This volume is a timely tribute to mark the centenary of Mauss early work and confirms the continuing relevance of his ideas **Essays**

on the Caste System by Célestin Bouglé Célestin Charles Alfred Bouglé, 1971-08-31 *The Coming Authoritarian Ecology* Fabrice Flipo, 2018-05-24 The book examines ecological issues such as climate change and biodiversity articulating local and global scales and short and long term perspectives questioning what development and progress are The goal is to show how diverging points of view are conflictingly articulated to one another in a political ideology perspective This perspective which is close to the main actor's point of view allows displacement of the usual analysis and offers a new synthesis *Asian Perspectives On Human Rights* Claude Welch, 2021-11-28 Analyzes Asian perspectives on human rights in terms of cultural traditions grassroots and regional organizations and economic constraints on the expression of rights The book asks are human rights western in their inception are they universal or do they differ by region and culture Peasants and Monks in British India William R. Pinch, 1996-06-18 In this compelling social history William R Pinch tackles one of the most important but most neglected fields of the colonial history of India the relation between monasticism and caste The highly original inquiry yields rich insights into the central structure and dynamics of Hindu society insights that are not only of scholarly but also of great political significance Perhaps no two images are more associated with rural India than the peasant who labors in an oppressive inflexible social structure and the ascetic monk who denounces worldly concerns Pinch argues that contrary to these stereotypes North India's monks and peasants have not been passive observers of history they have often been engaged with questions of identity status and hierarchy particularly during the British period Pinch's work is especially concerned with the ways each group manipulated the rhetoric of religious devotion and caste to further its own

agenda for social reform Although their aims may have been quite different Ramanandi monastics worked for social equity while peasants agitated for higher social status the strategies employed by these two communities shaped the popular political culture of Gangetic north India during and after the struggle for independence from the British

Experiments in Holism Ton Otto, Nils Bubandt, 2011-08-02 Experiments in Holism Experiments in Holism Theory and Practice in Contemporary Anthropology presents a series of essays that critically examine the ongoing relevance of holism and its theoretical and methodological potential in today's world Contributions from a diverse collection of leading anthropologists reveal how recent critiques of the holistic approach have not led to its wholesale rejection but rather to a panoply of experiments that critically reassess and reemploy holism The essays focus on aspects of holism including its utilization in current ethnographic research holistic considerations in cultural anthropology the French structuralist tradition the predominantly English tradition of social anthropology and many others Collectively the essays show how holism is simultaneously central to and problematically a part of the theory and practice of anthropology Experiments in Holism reveals how contemporary attempts to rescale and retool anthropology entail new ways of coming to terms with anthropology's heritage of holism seeking to obviate its current excesses while recapturing its critical potential to meet the challenges of our contemporary world

Perfect Order J. Stephen Lansing, 2012-09-16 Along rivers in Bali small groups of farmers meet regularly in water temples to manage their irrigation systems They have done so for a thousand years Over the centuries water temple networks have expanded to manage the ecology of rice terraces at the scale of whole watersheds Although each group focuses on its own problems a global solution nonetheless emerges that optimizes irrigation flows for everyone Did someone have to design Bali's water temple networks or could they have emerged from a self-organizing process Perfect Order a groundbreaking work at the nexus of conservation complexity theory and anthropology describes a series of fieldwork projects triggered by this question ranging from the archaeology of the water temples to their ecological functions and their place in Balinese cosmology Stephen Lansing shows that the temple networks are fragile vulnerable to the cross currents produced by competition among male descent groups But the feminine rites of water temples mirror the farmers awareness that when they act in unison small miracles of order occur regularly as the jewel-like perfection of the rice terraces produces general prosperity Much of this is barely visible from within the horizons of Western social theory The fruit of a decade of multidisciplinary research this absorbing book shows that even as researchers probe the foundations of cooperation in the water temple networks the very existence of the traditional farming techniques they represent is threatened by large scale development projects

Persisting Patriarchy Kochurani Abraham, 2019-08-08 This book examines the operational dynamics of patriarchy that is deeply woven into the Indian cultural fabric and its persistence in spite of women advancing in Human Development Indices In studying the situation of women of the Catholic Syrian Christian community of Kerala South India as a case of analysis Kochurani Abraham identifies caste consciousness and religious

prescriptions of this community as the main factors that intersect with gendered identity construction and succeed in keeping women within its patriarchal confines While women do engage in negotiating patriarchy through what can be termed simulative tactical and agentic bargains this remains a politics of survival as it does not challenge the established gender order In this context making a shift from politics of survival to a politics of subversion is imperative for challenging persisting patriarchies

Categories of Self André Cattel, 2004-12-01 Drawing on anthropological socio psychological religious and philosophical material this book engages in a discussion of what it means to be an individual in relation to notions of selfhood personality and social role This theme is explored with reference to the investigations of Louis Dumont into Hindu and other Indian ideologies and with regard to the dominant threads of Western individualism Clarifying and at times building upon his analyses the author follows Dumont in a consideration of Indian ideology Hindu non individualism the individual social personhood French ideology sociopolitical individualism German ideology subjective individualism and Western ideology the Christian beginnings of individualism political and economic individualism the philosophical categorisation of self While most commentators have tended to focus primarily on one aspect of Dumont's work either his views on Indian hierarchy or writings on modern individualism the author reveals considerable continuity throughout Dumont's entire oeuvre based around the notion of categories and the concept of the individual Dumont's intellectual background is explored with reference to the Durkheimian tradition with Marcel Mauss being highlighted as the principal architect in his thinking In particular Dumont's interest in the category of the individual is shown to be an extension of Mauss's concern with the category of the person The distinctiveness of Dumont's structuralist approach is thrown into full relief through comparison with that of others acknowledging an intellectual debt to Mauss namely Claude Lévi Strauss and Fernand Braudel The book covers an assessment of general approaches to the study of individualism with the relevant perspectives of other thinkers discussed and related to Dumont's approach as appropriate
