Profiting Ann Liu,2008-12-16 This money making how to guide walks you through all the necessary steps for a successful internet business Ms Liu presents her material in a simple direct easy to understand format **Create your online store with Django 5** Andres Cruz,2025-10-04 This training is aimed at those who want to learn how to create an online store with Django or Python web in general as well as with Flask and Fast API To do this we will use Django which when using Python gives us the entire ecosystem it offers along with the advantages of highly modular and scalable apps Additionally we ll be porting the same project without the admin module to other frameworks like Tailwind and Fast API To be done This resource is special when compared to other resources on my platform Key points Before you purchase this resource please read the following points in which I explain the differences between this resource and the rest of my beginner courses Intermediate professional level It is assumed that the reader has at least basic knowledge of Django including the development tools used with VSC More specifically This book focuses on creating an online store type application using our Django knowledge Therefore it won t have the same focus as my other courses books where coding depends on the topic being presented This makes the development process shorter and more concise Here the focus is solely on creating the online store therefore the store is the topic and what we code depends on the store s goal It s not step by step It s important to emphasize the previous point for this training we DO NOT offer a step by step guide for EVERYTHING Please note that there are processes such as dashboards that we often DO NOT implement from scratch Instead we show the implementation based on a presentation course in Spanish That s why we mention it s for a mid to professional level We avoid wasting time on already familiar processes such as those mentioned above This way we want you to invest your time in what s most important learning unique processes and logic Source code per section As always the source code will be available at the end of each section but it will NOT be public NOR will it be available on GitHub Topic This book has a total of eight chapters We recommend that you read them in the order in which they are arranged as we explain and develop the components that make up our application Then jump straight into practice replicating testing and modifying the codes we show in this book The book is currently under development Chapter 1 We will create the project we will implement in the course Chapter 2 We will create the main migrations and models we will use in the application Chapter 3 In this chapter we will create the CRUD for the blog including posts categories tags and more Chapter 4 We will create the blog for the end user a paginated list with filters and details Chapter 5 We will create the store with payment gateways for PayPal and Stripe for the end user with paginated lists with filters and details Chapter 6 We will create an online store for products instead of a book store to make it more generic Chapter 7 In this section we will apply several changes to the online store application such as setting the language dark mode improving the design adding a module to view payments and user authentication to be done Chapter 8 Translating to Flask and Fast API to be done Objetivo The objective of the book art two Creating an online store with basic payment options through Stripe and PayPal easily scalable for other payment methods Explaining and putting into practice crucial concepts so

you can implement the why of things and adapt the online store to your needs concepts such as Logic for managing payments in a centralized and scalable manner using a global entity called Payment Why create a layered system for the payment gateway for scalability and maintenance Using a generic product type entity or a specific one Customizing listings and details by product These are just some of the points we cover in this training which in short is more than just application coding Advantages of developing in Django and taking this book Python is the programming language of the moment and in this training you ll have the complete package the same project in various technologies that internally use Python with Django and its corresponding translations to Flask and Fast API Python is highly modular and has tremendous scope for all types of development Of course programming these types of projects is exquisite With this you ll learn the benefits not only of Python and its corresponding highly modular translations but also extend it to Django that dream framework that includes everything you need and more to carry out these projects You ll learn to develop a modular and scalable application which will allow you to improve your software development skills Demo of the app Demo Developing an Online Curriculum Lynnette R. Porter,2004-01-01 Developing an Online Educational Curriculum Techniques and Technologies acts as a guidebook for teachers and administrators as they look for support with their online education programs It offers teaching suggestions for everything from course development to time management and community building The book is designed to provide information to help teachers work more effectively with online tools develop course materials for existing online courses work with the internet as a medium of education and complete daily activities such as evaluating assignments lecturing and communicating with students more easily Administrators are also given support in their efforts to recruit train and retain online teachers allocate resources for online education and evaluate online materials for promotion and tenure

Blended Learning and Online Tutoring Dr Janet MacDonald,2012-10-01 Blended learning provides the flexibility to accommodate the varied requirements of pedagogies disciplines and levels of course together with the needs of a wide variety of learners However anyone concerned with the integration of online tutoring to support students appropriately may need to reassess current practice This book adopts a pragmatic and common sense approach to blended learning by situating the use of online media within a well grounded teaching and learning strategy It provides practical ideas for the successful implementation of blended strategies including good practice in both asynchronous and synchronous tutoring appropriate assessment design for developing successful blended learners and innovative approaches to professional development for distance tutors It is illustrated with a wide variety of examples and comments from students and practitioners in both distance and campus based environments in 13 different countries Since the first edition was published in 2006 there has been great interest in Web 2 0 technologies and their potential for use in an educational environment This second edition has therefore incorporated many new examples of good practice making use of a combination of tried and tested tools as well as blogs and wikis for supporting students There has also been a recent rise in the use of activity based learning and interest in

its potential for supporting students in distance and online environments The new edition incorporates many new exemplars of learning activity design in Part Three to illustrate approaches to the development of critical independent learners

Libraries Supporting Online Learning Christina D. Mune, 2020-10-07 Using practical examples from librarians in the field this book lays out current issues in online learning and teaches librarians how to adapt a variety of library services including instruction reference and collection development to online education Recent studies highlighting the challenges faced by online learners show that skills librarians are uniquely qualified to teach such as information and digital literacy and source evaluation can improve academic performance in online courses and enhance the online learning experience Just as embedded librarianship was developed to answer the needs of online courses when they emerged in the early 2000s online learning librarian Christina Mune now teaches online librarianship as a set of realistic strategies for serving a variety of online education models Each chapter of *Libraries Supporting Online Learning* addresses a different strategy for supporting online students and or faculty with all strategies derived from real world practices Librarians will find information on best practices for creating digital literacy tutorials and dynamic content providing patrons with open access and open educational resources helping patrons to avoid copyright issues promoting peer to peer learning and resource sharing posting to social media and developing scalable reference services The tools and practical examples in this book will be useful for all educators interested in increasing the efficacy of online learning

Online Personal Brand Ryan M. Frischmann, 2014-07-19 Online personal branding is a requirement for all professionals The common argument of the experts is you have a digital footprint in social media and on the internet so people are already making impressions of you Take control of their perceptions More importantly you have an opportunity to proactively project your personal brand onto networks Two other advantages of personal branding are that it forces you to be visionary of your career goals and helps you land favorable employment This book shares a functional angle to personal branding that is refreshingly simpler than the traditional marketing angle The definition of an online personal brand is the combination of a skill set an aura and an identity and there is discussion where the concepts overlap

The European Union in the Asia-Pacific

Weiying Song, Jianwei Wang, 2019-02-20 Since the mid 1990s the European Union has defined the Asia Pacific as one of its key strategic targets on its ambitious road towards a global power Over the past decades big changes have taken place on both sides and the wider world It's high time to evaluate the EU's performance in its Asian policy In fact the EU is at crossroads with its Asia Pacific policy On several aspects the EU is compelled to redefine its interests and roles and rethink its strategies and policies towards the dynamic and ever important Asia Pacific region This volume addresses this theme by elaborating the general context major issues and countries in the EU's Asia Pacific policy It covers issue areas of traditional security economy and trade public diplomacy and human security and focuses on the EU's relations with China Japan the ASEAN countries and Australasia
