Joint Commitment How We Make The Social World:

Joint Commitment Margaret Gilbert, 2015 This new essay collection by distinguished philosopher Margaret Gilbert provides a richly textured argument for the importance of joint commitment in our personal and public lives Topics covered by these diverse essays range from marital love to patriotism from promissory obligation to the unity of the European Union

Joint Commitment Margaret Gilbert, 2014 **Professional Autonomy** Ricardo A. Ayala, 2024-12-26 Aimed at supporting their emancipatory project this book explores strategies for resisting dominance and enhancing agency within the caring professions It helps bridge the gap between theoretical and practical autonomy in these fields which have long been overshadowed by other professional groups The book scrutinises the often misunderstood notion of autonomy which is frequently equated with mere independence an equation that can paradoxically undermine rather than improve care quality Additionally it critiques the prevailing lack of a specific philosophical framework for practice Existing literature typically approaches professional autonomy through a liberal philosophy lens or loosely assigns moral agency to groups leading to a view of autonomous professions as analogous to autonomous individuals By presenting a critical overview of the main schools of thought on autonomy emphasising group autonomy and the specific challenges faced by caring professions this book aims to fill a significant gap It includes case studies to ground its theoretical insights in practical examples from real world scenarios helping the caring professions identify both autonomy issues and opportunities for enhancing autonomous practice

Human Rights and America's War on Terror Satvinder S. Juss, 2018-10-25 This volume examines the success of the 9 11 attacks in undermining the cherished principles of Western democracy free speech and tolerance which were central to US values It is argued that this has led to the USA fighting disastrous wars in Afghanistan and Iraq and to sanctioning the use of torture and imprisonment without trial in Guantamo Bay extraordinary rendition surveillance and drone attacks At home it has resulted in restrictions of civil liberties and the growth of an ill affordable military and security apparatus In this collection the authors note the irony that the shocking destruction of the World Trade Center on 9 11 should become the justification for the relentless expansion of security agencies Yet this is a salutary illustration of how the security agencies in the USA have adopted faulty preconceptions which have become too embedded within the institution to be abandoned without loss of credibility and prestige The book presents a timely assessment of both the human rights costs of the war on terror and the methods used to wage and relentlessly continue that war It will be of interest to researchers academics practitioners and students in the fields of human rights law criminal justice criminology politics and international studies

Social Ontology and Collective Intentionality Gerhard Preyer, Georg Peter, 2016-12-15 This volume features a critical evaluation of the recent work of the philosopher Prof Raimo Tuomela and it also offers it offers new approaches to the collectivism versus individualism debate It specifically looks at Tuomela's book Social Ontology and its accounts of collective intentionality and related topics The book contains eight essays written by expert contributors that present different

perspectives on Tuomela's investigation into the philosophy of sociality social ontology theory of action and philosophical decision and game theory In addition Tuomela himself gives a comprehensive response to each essay and defends his theory in terms of the new arguments presented here Overall readers will gain a deeper insight into group reasoning and the we mode approach which is used to account for collective intention and action cooperation group attitudes social practices and institutions as well as group solidarity This book will be of interest to a wide range of readers and graduate students and researchers interested in contemporary philosophy of sociality sociological theory social ontology as well as the philosophy of mind decision and game theory and cognitive science Tuomela's book stands as a model of excellence in social ontology an especially intractable field of philosophical inquiry that benefits conspicuously from the devotion of Tuomela's keen philosophical mind His book is must reading in social ontology J Angelo Corlett Julia Lyons Strobel **Distributed Agency** N. Ethics of Animal Shelters Valéry Giroux, Kristin Voigt, Angie Pepper, 2023. Ethical dilemmas and decision making are a persistent feature of the everyday operations of animal shelters and animal protection organizations. These organizations frequently face difficult decisions about how to treat the animals in their care, decisions that are made all the more difficult by limited funding, material resources, and human labor. Moreover, animal protection organizations must also determine how to act within and toward the wider social and institutional environment in which non-human animals are routinely exploited. The first section of *The Ethics of Animal Shelters* contains practical recommendations developed by ethicists in response to the ethical challenges identified by employees of the Montreal Society for the Prevention of Cruelty to Animals. These challenges arise across the organization's activities, including its internal structure, shelter operations, public campaigns, and advocacy work, dealing with the public, animal agriculture, and governmental agencies, and their work with feral animals. The second section offers philosophical analyses of the ethical challenges unique to animal shelters. Issues explored include the killing of shelter animals, shelter animals' diets, medical decision-making procedures, adoption policies, and the role shelters might play in transforming social attitudes and norms. [The Genesis and Transformation of Social Consciousness](#) Yang

Chen, 2024-03-22. This book focuses on the formation of human social consciousness and develops a naturalist approach to social normativity. Beginning from Marx's uncompleted concept of social consciousness, the book retrospects the studies about collective intentionality in the area of philosophy of mind and social ontology. Specifically, a reinterpretation of social consciousness with respect to collective intentionality can offer us a new naturalistic approach to the social formation and normativity. According to the naturalistic approach, we can discern the inner structure of social consciousness as a systematic pattern of intentionality. Social consciousness involves three levels of development: subjective, objective, and absolute. With this new pattern of social consciousness, the naturalism of the young Karl Marx can be revived. And by grasping the most essential ability of human intentionality as the source of social formation, it also makes an interdisciplinary study of social

philosophy and philosophy of mind possible Essential Issues in Symbolic Interaction Shing-Ling S. Chen, 2024-10-30

Seeking a concise and substantial vision of symbolic interactionism this volume manifests the crucial research endeavors and key elements that contribute to the vitality of the interactionist theoretical framework Narratives of Qualitative Research Josh Tenenbergh, 2024-05-21

Narratives of Qualitative Research uses a novel form of writing about how to do qualitative research called a praxis narrative. Each narrative is told from the author's perspective in carrying out one of his past research studies in the social sciences. Told chronologically and in a first person voice the narratives position the reader alongside the narrator so as to vicariously experience how research happens in its situated particulars. Rather than a set of idealizations and universalized pronouncements the author reveals what really goes on when one is in the thick of complex and challenging research studies: the points of trouble along with the successes. This will be relevant to researchers who have already undertaken one or more empirical research studies though not necessarily using qualitative approaches and now find themselves facing something new: a new analytic method, a new theoretical lens, a new form of data collection, a new domain of research questions, a new rhetorical approach. This requires letting go of the secure handholds of prescribed methods and responding to the contingencies that arise in the midst of the research. The reader is invited to follow along as the author makes visible his praxis of qualitative research. Unlike more conventional texts in this unique alternative the reader can follow the author's journey through his research studies as a way to reorient their conception of qualitative research and their own praxis of it. This is fascinating reading for qualitative researchers and students taking qualitative research courses across the social sciences, education and behavioural sciences.

The Routledge Handbook of Collective Responsibility Saba Bazargan-Forward, Deborah Tollefsen, 2020-04-19

The Routledge Handbook of Collective Responsibility comprehensively addresses questions about who is responsible and how blame or praise should be attributed when human agents act together. Such questions include: Do individuals share responsibility for the outcome or are individuals responsible only for their contribution to the act? Are individuals responsible for actions done by their group even when they don't contribute to the outcome? Can a corporation or institution be held morally responsible apart from the responsibility of its members? The Handbook's 35 chapters, all appearing here for the first time and written by an international team of experts, are organized into four parts: Part I Foundations of Collective Responsibility; Part II Theoretical Issues in Collective Responsibility; Part III Domains of Collective Responsibility; Part IV Applied Issues in Collective Responsibility. Each part begins with a short introduction that provides an overview of issues and debates within that area and a brief summary of its chapters. In addition, a comprehensive index allows readers to better navigate the entirety of the volume's contents. The result is the first major work in the field that serves as an instructional aid for those in advanced undergraduate courses and graduate seminars as well as a reference for scholars interested in learning more about collective responsibility.

Re-Creating Anthropology David N. Gellner, Dolores P. Martinez, 2022-04-26

This book makes a notable contribution to discussions of what anthropology

is and should be in the twenty first century through a reconsideration from diverse sub disciplinary and interdisciplinary perspectives of the interactions between sociality matter and the imagination It explores the imagination in its social contexts how it is put to work and how in its embodied and material forms it works in practice The chapters provide detailed case studies including film making in Egypt spirit possession exorcism in Italy Theosophy and the production of knowledge about UFOs the role of mistakes or glitches in public performances humans varying relationships to the environment post coloniality time and crisis in anthropology and artistic creativity *Prisoners of Reason* S. M. Amadae,2016-01-14 Using the theory of Prisoner s Dilemma *Prisoners of Reason* explores how neoliberalism departs from classic liberalism and how it rests on game theory **Becoming Human** Michael Tomasello,2019-01-14 Winner of the William James Book Award Winner of the Eleanor Maccoby Book Award A landmark in our understanding of human development Paul Harris author of *Trusting What You re Told* Magisterial Makes an impressive argument that most distinctly human traits are established early in childhood and that the general chronology in which these traits appear can be identified Wall Street Journal Virtually all theories of how humans have become such a distinctive species focus on evolution *Becoming Human* looks instead to development and reveals how those things that make us unique are constructed during the first seven years of a child s life In this groundbreaking work Michael Tomasello draws from three decades of experimental research with chimpanzees bonobos and children to propose a new framework for psychological growth between birth and seven years of age He identifies eight pathways that differentiate humans from their primate relatives social cognition communication cultural learning cooperative thinking collaboration prosociality social norms and moral identity In each of these great apes possess rudimentary abilities but the maturation of humans evolved capacities for shared intentionality transform these abilities into uniquely human cognition and sociality How does human psychological growth run in the first seven years in particular how does it instill culture in us Most of all how does the capacity for shared intentionality and self regulation evolve in people This is a very thoughtful and also important book Tyler Cowen *Marginal Revolution* Theoretically daring and experimentally ingenious *Becoming Human* squarely tackles the abiding question of what makes us human Susan Gelman *Destined to become a classic* Anyone who is interested in cognitive science child development human evolution or comparative psychology should read this book Andrew Meltzoff **Shooting to Kill** Seumas Miller,2016 In this book philosopher Seumas Miller analyzes the various moral justifications and moral responsibilities involved in the use of lethal force by police and military relying on a distinctive normative teleological account of institutional roles Miller covers a variety of urgent and morally complex topics including police shootings of armed offenders police shooting of suicide bombers targeted killing autonomous weapons humanitarian armed intervention and civilian immunity **Conversations Online** P. J. Connolly,Sanford C. Goldberg,Jennifer M. Saul,2025-04-30 The growth of communication technologies has profoundly and inescapably impacted politics society and how we coordinate our lives One of the central components of this change has been the transformation in our communicative

possibilities Amongst other things the internet has given rise to new linguistic phenomena novel ways of doing things with words and new types of communicative behaviour It has created communicative possibilities that we might think are broadly positive and yet it has also been instrumental in and the locus for the spread of malevolent types of speech Conversations Online collects eighteen original contributions from twenty six philosophers of language These thinkers are well placed to provide insights that can help us sift through and understand linguistic phenomena in online settings considering them in terms of existing theories and providing analyses that will be helpful for anybody who is interested in online communication Together they show that great possibilities are available to us when we look at conversations online and develop a broader understanding of how language develops in digital settings This diverse volume will not only advance the topic of online communication within philosophy of language it will also equip readers with a better understanding of the utility of the field and the many ways in which technological developments are changing how we interact Chapter 2 of this work is available under the terms of a CC BY NC ND 4 0 International open access licence This part of the work is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations

From Individual to Plural Agency Kirk Ludwig, 2016-10-06 Kirk Ludwig develops a novel reductive account of plural discourse about collective action and shared intention Part I develops the event analysis of action sentences provides an account of the content of individual intentions and on that basis an analysis of individual intentional action Part II shows how to extend the account to collective action intentional and unintentional and shared intention expressed in sentences with plural subjects On the account developed collective action is a matter of there being multiple agents of an event and it requires no group agents per se Shared intention is a matter of agents in a group each intending that they bring about some end in accordance with a shared plan Thus their participatory intentions their intentions differ from individual intentions not in their mode but in their content Joint intentional action then is a matter of a group of individuals successfully executing a shared intention The account does not reduce shared intention to aggregates of individual intentions However it argues that the content of our intentions can be analyzed wholly in terms of concepts already at play in our understanding of individual intentional action The account thus vindicates methodological individualism for plural agency The account is contrasted with other major positions on shared intention and joint action and defended against objections This forms the foundation for a reductive account of the agency of mobs and institutions expressed in grammatically singular action sentences about groups and their intentions in a second volume
