

THE UNIVERSAL DECLARATION OF Human Rights

The Universal Declaration of Human Rights is a document that sets out the basic rights and freedoms of all people. It was adopted by the United Nations General Assembly in 1948. The declaration is a cornerstone of international human rights law and is the basis for many of the Sustainable Development Goals (SDGs).

The declaration states that all human beings are born free and equal in dignity and rights. It lists 30 articles that define the rights and freedoms of all people, including the right to life, liberty, and security of person; the right to a fair trial; the right to work; the right to education; and the right to a high standard of living.

The declaration is a universal statement of the principles of human rights. It is a call to action for all people to respect and protect the rights and freedoms of all others. It is a reminder that we are all part of a global community and that we have a responsibility to each other.

La Invencción De Los Derechos Humanos:

La invención de los derechos humanos Lynn Hunt, University of California, 2009-10 Human rights is a concept that only came to the forefront during the eighteenth century When the American Declaration of Independence declared all men are created equal and the French proclaimed the Declaration of the Rights of Man during their revolution they were bringing a new guarantee into the world But why then How did such a revelation come to pass In this extraordinary work of cultural and intellectual history Professor Lynn Hunt grounds the creation of human rights in the changes that authors brought to literature the rejection of torture as a means of finding out truth and the spread of empathy Hunt traces the amazing rise of rights their momentous eclipse in the nineteenth century and their culmination as a principle with the United Nations s proclamation in 1948 She finishes this work for our time with a diagnosis of the state of human rights today **Los derechos humanos en la historia** Nazario González, 1998 Esta obra viene a llenar un hueco en la bibliografía existente sobre los Derechos Humanos Por vez primera mediante un gran esfuerzo de reconstrucción histórica y con un aporte rico y riguroso de datos los Derechos Humanos se nos muestran como una aspiración constante de la Humanidad a lo largo de los siglos hasta nuestros días En este cincuentenario de la Declaración Universal de Naciones Unidas y cara al siglo XXI en el que los Derechos Humanos han de situarse cada vez más en el punto de convergencia de una sociedad global y culturalmente diversa el libro adquiere una particular vigencia **HISTORIA, DERECHOS HUMANOS Y DEMOCRACIA** Antoon De Baets, 2024-09-26 Historia Derechos Humanos y Democracia es una colección de artículos del historiador Antoon De Baets un gran estudioso de los derechos humanos Cada uno de ellos ofrece un penetrante análisis de los múltiples entrelazamientos que el autor descubre entre la historia y los campos de las leyes y la política Por otra parte mirado como un todo la colección revela una preocupación que evoca la idea de Aristóteles acerca del intelectual cabal alguien que articula tres tipos de conocimientos teóricos epistémicos metodológicos techne y aquellos que le permiten entrar en comunicación constructiva con su entorno social phronesis Mientras esta combinación sobresale en Historia Derechos Humanos y Democracia se muestra escasa en la historiografía contemporánea muy predispuesta por lo general a proponer perspectivas históricas teóricas y proceder a demostrarlas científicamente metodológicamente dejando de lado la relevancia del bien común responsabilidad Una de las razones de este proceder es posiblemente el temor de difundir ideologías personales Empero como De Baets lo demuestra la investigación histórica puede cumplir con su función social respetando plenamente la libertad de pensamiento de su público lector Juan Maiguashca York University Toronto Canada **Filosofía y derechos humanos** Angelo Papacchini, 2003 Naturaleza y clasificación de los derechos humanos Un intento de definición La libertad como hilo conductor para la clasificación de los derechos Nuevas clases de derechos Tradiciones políticas liberalismo socialismo y democracia Tradición liberal y derechos humanos La tradición socialista La tradición democrática Modelos de fundamentación El paradigma iusnaturalista Utilitarismo y derechos humanos El modelo kantiano El historicismo **The Roots of International Law / Les**
