Can Literature Promote Justice? Kimberly A. Nance, 2006 As if in direct response to The New Yorker's question of The Power of the Pen Does Literature Change Anything Kimberly Nance takes up the relationship between ethics and literature With the 40th anniversary of the testimonio occurring in 2006 there has never been a better time to reconsider its role in achieving social justice The advent of the testimonio loosely a political autobiography of a Latin American activist who hopes through the telling of her life story to bring about change was met with a great deal of excitement by scholars who posited it as a radical new form of literature Those accolades were almost immediately followed by a series of critical problems In what sense were testimonios true What right did privileged scholars in the U S have to engage accounts of suffering with traditional modes of criticism Were questions of veracity or aesthetics more important Were these texts autobiography or political screeds It seemed critics didn't know quite what to make of the testimonio and so after a brief bout of engagement disregarded it Nance however argues that any form as prolific as the testimonio is well worth examining and that these questions rather than being insurmountable are exactly the questions with which scholars ought to be wrestling If as critics claim that the testimonio is one of the most pervasive contemporary Latin American cultural genres then it is high time for a comprehensive study of the genre such as Nance's
