Quality Assurance G Welty, 2013-06-30 Quality assurance is necessary to maintain quality and services in the pharmaceutical and life science industries Quality assurance demonstrates that the logic and practice of problem solving can integrate both program efficacy and regulatory compliance This title is divided into three parts the first part discusses the process by which a problem in regulated industry is identified for example a manufacturing deviation that leads to an adulterated drug product

and reviews the decision making steps involved in remedying the problem The second part delves into the staff training requirements of procedures that are thereby revised The third part expands on this discussion by considering piloting the proposed training module preparing assessments of trainee proficiency evaluating the training module including integrating rigorous evaluative designs with formative program improvement and documenting the entire effort Presents a comprehensive view of the field of quality assurance An approach grounded in direct experience Uses diagrams and figures to clarify analytical points Auditing in the Food Industry M Dillon,C Griffith,2001-07-12 The food industry faces an unprecedented level of scrutiny Consumers are not only concerned with the safety and quality of food products but also the way in which they are produced At the same time the food industry has developed new ways of assuring appropriate standards for its products and their methods of production developing systems such as TQM and HACCP to identify and manage key steps in production These new methods require new skills in auditing Auditing in the food industry provides an authoritative guide to the range of standards and the auditing skills they demand Part one sets the scene with an introductory chapter reviewing developments in standards affecting the food industry There then follows chapters on how retailers audit their suppliers and how governments have moved from a traditional inspection role to one of regulatory verification with its emphasis on auditing the robustness of a business s own systems for managing safety and quality Part two examines the key aspects of safety and quality A first chapter reviews the ways retailers assess supplier HACCP systems There is then a chapter reviewing TQM systems that provides a context for a discussion of auditing techniques for HACCP based quality systems A final chapter looks at standards governing the analytical methods used in safety and quality control Part three considers newer standards that are becoming increasingly important in the food industry There are chapters on benchmarking an organisation against others as a way of improving performance auditing the impact of food processing operations on the environment and auditing organic food processing Auditing in the food industry is a valuable guide to the range of standards facing the food industry and the ways it can audit and thus improve the quality of its performance

Cleaning Validation Manual Syed Imtiaz Haider,2010-05-24 During the past decades enormous progress and enhancement of pharmaceutical manufacturing equipment and its use have been made And while there are support documents books articles and online resources available on the principles of cleaning and associated processing techniques none of them provides a single database with convenient ready to use training tools Until now Cleaning Validation Manual A Comprehensive Guide for the Pharmaceutical and Biotechnology Industries elucidates how to train the man power involved in development manufacturing auditing and validation of bio pharmaceuticals on a pilot scale leading to scale up production With over 20 easy to use template protocols for cleaning validation of extensively used equipments this book provides technical solutions to assist in fulfilling the training needs of finished pharmaceutical manufacturers Drawing on the authors more than two decades of experience in the pharmaceutical and biotech industries the text offers hands on training based on

current approaches and techniques The book does not merely provide guidelines or thought processes rather it gives ready to use formulas to develop Master Plan SOPs and validation protocols It includes cleaning procedures for the most commonly used equipment in various manufacturing areas and their sampling points using a pharmaceutical manufacturing site with both sterile and non sterile operations as the case facility It also provides the training guidelines on downloadable resources to enable users to amend or adopt them as necessary Grounded in practicality the book s applicability and accessibility set it apart It can be used as a guide for implementing a cleaning validation program on site without the help of external consultants making it a resource that will not be found collecting dust on a shelf but rather referred to again and again

Guide to Quality Management Systems for the Food Industry Ralph Early,2012-12-06 Whenever I step into an aeroplane I cannot avoid considering the risks associated with flying Thoughts of mechanical failure pilot error and terrorist action fill my mind I try to reassure myself with statistics which tell me there is greater chance of injury crossing the road The moment the plane takes off I am resigned to my fate placing faith in pilots who are highly qualified and superbly trained for the task of delivering me safely to my destination To be a passenger in an aeroplane is to express faith in the systems used by the airline It is to express a faith in the quality of the airline s organisation and the people who work within it The same is true of surgery Thoughts of mortality are difficult to avoid when facing the surgeon s knife However faith in the surgeon s training and skill faith in the anaesthetist and theatre technicians faith in the efficient resources and quality of the hospital all help to convince that there is little need to worry Apart from flying and surgery there are many facets of life which entail risk but knowing the risks we willingly place our confidence in others to deliver us safely In the consumption of food however few of us consider the risks Everyday if we are fortunate we eat food Food sustains and gives us pleasure Food supports our social interactions
