perioada convieuirii membrilor familiei sub același acoperiș și prin influența amintirilor și a lucrurilor zidite în familie pentru
 toată viața ulterioară și chiar pentru vecinicie. Această carte tratează esența a ceea ce face fericirea unei familii: slujirea reciprocă în
 dragoste, tratându-ne unii pe alții cu același sau chiar cu mai mare respect decât la acordăm celor din afara familiei. Încurajându-
 ne unii pe alții fiind conștienți de unii altora, crescând împreună. Hristos J. R. Miller discută despre rolurile fundamentale ale
 membrilor familiei în zidirea căminului creștin plecând chiar de la considerații care trebuie luate în seamă încă dinaintea căsătoriei
 lucruri care vor modela pe termen lung tonul și spiritul familiei atingând inclusiv aspecte precum rolul religiei și al nchinării în
 familie ca și al amintirilor care vor modela viitorul tuturor membrilor ei. În toată dulceața dragostei și a încurajării într-o cultură în

 Miller's Teachers, Parents and Classroom Behaviour is the most useful, insightful, and coherent account of understanding and
 managing behaviour in schools that I have read. It is also superbly written, making it a pleasure to read. If you buy only one
 book this year, then it should be this one. Educational Psychology in Practice. This elegantly crafted book contains thought-
 provoking implications for all branches of applied psychology as well as educationists and policy makers. With an increasing
 focus in education on evidence-based practice, this book will be a valuable resource for practicing and trainee teachers and
 educational psychologists. It offers an extremely timely contribution to current developments in education. The Psychologist I
 found the book fascinating and it has led me to think differently in a variety of situations. It has also impacted my views on the
 school ethos and teacher relationships. I will be recommending this book to members of the senior management team and
 staff who work with pupils with behavioural problems. Young Minds Magazine 68 2004. The behaviour of students in schools is
 a matter of great concern. Legislation, media coverage, and test cases are flooding into the public consciousness at an
 increasing pace. The relative responsibility of teachers and parents is a particularly prominent and contentious issue. This
 book examines the reasons why strong statements of mutual recrimination and blame often occur in this area before looking

at policies and practices which are co operative preventive and proactive in nature But this is not solely another book of tips and techniques In addition to describing strategies with a proven evidence base it also demonstrates within a coherent framework how and why these approaches achieve their aims This book provides an in depth understanding of key psychological factors for those in schools struggling in this vexed and pressing area and for that widening group of professionals charged with working in partnership to bring about demonstrable change
