Religion Jim Slagle, 2025-07-14 Science and religion is one of those subjects where everyone knows a lot of things that just ain't so. This is because of the numerous urban legends about how the two fields have interacted historically and how they do so today. These false beliefs are ubiquitous in Western civilization especially in academia prompting many people to oversimplify the issues. This book corrects many of these urban legends and confusions involving premodern cosmology the alleged persecution or even martyrdom of scientists for discoveries that challenged the religious status quo the history and nature of biological evolution the potential discovery of rational extraterrestrial life and whether miracles would somehow conflict with the laws that science has discovered. As one might expect reality turns out to be much more complex than the stories suggest.

Just Vibrations William Cheng, 2016-08-11 Modern academic criticism bursts with what Eve Kosofsky Sedgwick once termed paranoid readings interpretative feats that aim to prove a point persuade an audience and subtly denigrate anyone who disagrees. Driven by strategies of negation and suspicion such rhetoric tends to drown out softer spoken reparative efforts which forego forceful argument in favor of ruminations on pleasure love sentiment reform care and accessibility. *Just Vibrations: The Purpose of Sounding Good* calls for a time out in our serious games of critical exchange. Charting the divergent paths of paranoid and reparative affects through illness narratives academic work queer life noise pollution sonic torture and other touchy subjects William Cheng exposes a host of stubborn norms in our daily orientations toward scholarship self and sound. How we choose to think about the perpetration and tolerance of critical and acoustic offenses may ultimately lead us down avenues of ethical ruin or if we choose repair. With recourse to experimental rhetoric interdisciplinary discretion and the playful wisdoms of childhood Cheng contends that reparative attitudes toward music and musicology can serve as barometers of better worlds.

The Revenge of the Baby-Sat Bill Watterson, 1991 A collection of Calvin and Hobbes cartoons in which Calvin crashes his parents' car goes on a family camping trip and shares adventures with his stuffed tiger Hobbes.

Atheism and the Problem of Evil Paul Draper, 2025-09-17 Atheism and the Problem of Evil motivates constructs and defends two arguments from evil against core theism Core theism is the thesis that an omnipotent omniscient and loving agent created the cosmos Core atheism is the denial of that thesis Each argument involves comparing core theism to an alternative hypothesis and showing that the alternative is much more probable than core theism which implies that core theism is very probably false In the case of the first decisive evidence argument a form of deism is shown to fit the relevant data much better than theism does despite being no less plausible than theism In the case of the second decisive priors argument a naturalistic hypothesis called anaxiarchism is shown to fit the relevant data at least as well as theism does despite being much more plausible than theism Since these arguments conclude that core atheism is very probable all things considered their defense cannot ignore alleged evidence for core theism including ontological arguments cosmological arguments fine tuning arguments and arguments based on religious experience The book includes rigorous and original critiques of such arguments making it more comprehensive than other volumes on the problem of evil which typically focus only on evidence against theism In addition the book includes a chapter critiquing the strongest forms of skeptical theism which is the view that human ignorance makes us unqualified to judge how well core theism fits the relevant data including data about the well or ill being of conscious living things Another

chapter examines attempts to expand or version theism by adding various auxiliary hypotheses to it whether in the form of Christian doctrines or sceptical claims or speculations about God's reasons for allowing suffering These attempts are shown to be of no help to the core theist Finally in a concluding chapter the justificatory gap between the belief that core atheism is very probably true and the belief that it is true is bridged by arguing that the high probability of core atheism is stable
