A Law of Blood-ties - The 'Right' to Access Genetic Ancestry

Alice Diver,2013-08-28 This text collates and examines the jurisprudence that currently exists in respect of blood tied genetic connection arguing that the right to identity often rests upon the ability to identify biological ancestors which in turn requires an absence of adult centric veto norms It looks firstly to the nature and purpose of the blood tie as a unique item of birthright heritage whose socio cultural value perhaps lies mainly in preventing or perhaps engendering a feared or revered sense of otherness It then traces the evolution of the various policies on telling and accessing truth tying these to the diverse body of psychological theories on the need for unbroken attachments and the harms of being origin deprived The law of the blood tie comprises of several overlapping and sometimes conflicting strands the international law provisions and UNCRC Country Reports on the child s right to identity recent Strasbourg case law and domestic case law from a number of jurisdictions on issues such as legal parentage vetoes on post adoption contact court delegated decision making overturned placements and the best interests of the relinquished child The text also suggests a means of preventing the discriminatory effects of denied ancestry calling upon domestic jurists legislators policy makers and parents to be mindful of the long term effects of genetic kinlessness upon origin deprived persons especially where they have been tasked with protecting this vulnerable section of the population
