## **La nación y sus narrativas corporales. Fluctuaciones del cuerpo femenino en la novela sentimental uruguaya del siglo XIX (1880-1907)** Germán Pitta Bonilla, 2017-01-14

Este libro se propone un estudio de algunas novelas sentimentales uruguayas publicadas en las últimas décadas del siglo XIX y su relación con la conformación de un imaginario nacional. Aunque las novelas son tratadas como romances nacionales, estas difieren de muchos otros ejemplos latinoamericanos por el hecho de problematizar la finalidad pedagógica inmanente en este tipo de textualidades. Buena parte de estas divergencias pueden observarse en la representación corporal de los personajes femeninos en novelas que fueron publicadas durante la primera etapa de la modernización en dicho país. De acuerdo a estas formulaciones surgen las siguientes preguntas: ¿Cuál es el cuerpo de la nación que estas novelas proponen? Las novelas estudiadas pueden ser consideradas romances nacionales. En qué medida estas novelas sentimentales mantienen una relación conflictiva con el proceso de modernización? Por qué estas novelas fueron prácticamente olvidadas por el canon literario?

**El poscastrismo y otros ensayos contrarrevolucionarios** Julián B. Sorel, 2008-01-01 Los ensayos de Julián B. Sorel son un antídoto contra cualquier moralización de la historia y también contra cualquier determinismo que anule las opciones políticas en el pasado, el presente y el futuro de la isla. Era inevitable que la historia de Cuba desembocara en el totalitarismo. La pregunta puede resultar ingenua, pero su recurrencia indica que el debate sobre el sentido de la historia nacional permanece abierto.

No era inevitable. En 1958 las mejores y las peores tradiciones de la cultura política cubana, civismo y militarismo, pluralidad y exclusión, tolerancia e intransigencia, gradualismo y maximalismo, acuerdo y capricho, consenso y soberbia, estaban igualmente vivas. Rafael Rojas.

**Ensayos críticas** Pedro Henríquez Ureña, 1905

**Ensayos selectos** Virgilio Piñera, 2015-02-19

La vida de Virgilio Piñera comienza en 1912 en La Habana y parece aproximarse a la de Antonin Artaud: una lucha agónica por la subsistencia diaria, lucha contra su propia personalidad. El primer combate forja al escritor; el segundo, una subjetividad dialógica que utilizará el dinamismo de las formas literarias: poesía, teatro, cuento y novela, para expresarse en un delirio de relaciones donde sobresale la espada del pensamiento. El ensayo será en Virgilio Piñera parte de la mirada crítica de ese gigante de múltiples ojos y fiel guardián llamado Argos por ello sus ejercicios ensayísticos se encuentran enraizados en el entramado cognoscitivo que sostiene toda su obra y donde la argumentación adquiere más allá de los géneros diferentes concreciones que incluyen artículos periodísticos, páginas autobiográficas, cartas editoriales de revistas, logos solapas, reseñas, conferencias, entrevistas, reportajes, etc.

**El estado y otros ensayos** Émile Durkheim, 2016-06-01

Los textos de esta edición congregan una variedad considerable de temas a los que Durkheim prestó atención y dedicación. Se trata de un conjunto de aproximaciones a través de lecciones, discursos, reseñas y fragmentos que asisten como complemento a

las cuatro obras que publicó en vida. Es factible ensayar una lectura de conjunto de estos textos en el marco de la obra del autor planteando un abordaje que no desdeña la especificidad ni arremete en trazos gruesos tapando los matices que amerita un clásico de las dimensiones de Durkheim. Las indagaciones aquí formuladas se orientan a pensar la problemática de la autoridad. Como término recurrente pero algo huidizo a las definiciones establecidas, la noción se desplaza a lo largo de su obra de forma relativamente visible y adquiere un protagonismo algo mayor en sus últimos escritos. En pocas palabras, este concepto anuda de forma peculiar la variedad de realidades que los escritos ofrecidos en esta compilación invitan a pensar: la política, la educación, la ciencia y la religión. Entre ellos, deambula una diversidad de objetos: el Estado, la nación, la escuela, la divinidad, la familia y las corporaciones.

Suárez, 2017-11-17

Quince disciplinas deberían tener un lugar especial en un plan de estudios universitario: ut pico. Cómo cerrar el abismo que se ha abierto entre las ciencias humanas y las ciencias sociales y las llamadas ciencias duras. Cómo han evolucionado las relaciones de cooperación y conflicto entre la institución universitaria y las sociedades en las que tienen lugar sus actividades. En qué medida la independencia y autonomía de la universidad se han visto afectadas por un Estado que busca establecer los marcos legales de su funcionamiento. Estas, entre otras, son las interrogantes que intenta responder esta obra.

**La nación sin alma** Juan Guixé, 1917      **Ensayos políticos** David Hume, 1955      **La Nación**, 2006      **Falsa conciencia** Claudio Iglesias, 2014

Las largas horas dedicadas a la investigación y la redacción de formularios y aplicaciones, las horas perdidas de contactos profesionales en ámbitos cargados de gente, las sesiones de revisión de proyectos en instancias educativas, las presentaciones de imágenes, las entrevistas, el tiempo libre malgastado, los sentimientos de culpa y la incertidumbre asociados con los mercados del trabajo creativo, son de alguna manera los procesos que las imágenes satisfechas dejan en suspenso. Pocas veces se habría sido difícil imaginar que la vida de los artistas podía homologarse con una sucesión de escenas de este tipo. Los cambios que se produjeron en el ambiente artístico como esfera de trabajo y que terminaron por torcer el significado general del concepto de arte no se dieron de un día para otro. El problema al que hace frente este libro no respeta niveles de exclusividad ni siquiera le pertenece completamente al reducto del arte. Su despliegue excede de múltiples modos el campo de las artes visuales. Con lucidez y contundencia, Claudio Iglesias nos propone aquí una ruta de acceso a este particular fenómeno.
