Ferreira,2020-06-22 Gabriel Ferreira presents a comprehensive analysis of drug trafficking in Mexico and the United States by examining the roots development consolidation and cultural ramifications of this phenomenon in the past century as well as its negative consequences in contemporary Mexico Ferreira discusses the most devastating effects correlated to drug trafficking such as high murder rates gruesome violence disappearances and mass graves to emphasize how Mexican society bears the brunt of this phenomenon while the United States insists on the futility of drug prohibition Unlike other

publications this book provides an interdisciplinary social science approach where drug trafficking is conceptualized as a multifaceted social political economic and cultural problem rather than just a criminal justice issue Drug Trafficking in Mexico and the United States also revisits the war on drugs and provides an argument how drug control is the primary force behind drug trafficking In that respect there is an analysis on how the DEA has reinforced the war on drugs model and why it became a reactionary agency that opposes any comprehensive alternative to the American drug problem besides drug control The author concludes with recommendations to implement forward thinking measures such as decriminalization reclassification and legalization of drugs to effectively address the illicit drug trade **Sucede siempre en Navidad.**

Examines Spain s contribution to international interest in Gothic culture film and literature With the success of novels such as The Shadow of the Wind and films like The Others contemporary Spanish culture has contributed a great deal to the imagery and experience of the Gothic although such contributions are not always recognised as being specifically Spanish in origin Contemporary Spanish Gothic is the first book to study how the Gothic mode intersects with cultural production in Spain today considering some of the ways in which such production feeds off and simultaneously feeds into Gothic production more widely Examining the works of writers and filmmakers like Carlos Ruiz ZafAn Arturo PA c rez Reverte Pedro AlmodAvar and Alejandro AmenA bar as well as the further reaches of Spanish Gothic influence in the Twilight film series the book considers images and themes like the mad surgeon and the vulnerable body the role of the haunted house and the heritage biopics of Francisco de Goya **The Publishers Weekly** ,1912 *Bajo lluvia de plomo* Francisco Javier Pagola,2021-11-30 Es esta

obra un viaje al pasado porque describe hechos y situaciones que se dieron en los duros años del terrorismo de ETA tal y como el autor los recogió entonces en diarios apuntes y anotaciones. Todo comienza en verano de 1979 frente a un edificio habitado por mandos militares que cada día han de transitar por el corredor de la muerte ese corto trayecto que discurre entre el portal y el vehículo oficial. El libro pretende transmitir en presente y en primera persona el horror y el dolor después de un atentado. En segundos un espacio de paz se transforma en un escenario de guerra la emoción que inspira una madre que se refugia en un momento eterno para suplir el vacío que deja su hijo ausente el miedo de muchos que prefirieron cerrar las puertas y ventanas de sus casas para no ver el cuerpo del vecino tendido en medio de un charco de sangre mejor enterarse después por televisión así el suceso parece algo más lejano la soledad de no pocos que soportaron la lluvia de plomo mientras muchos permanecieron con los brazos cruzados a la espera de que amainara la colaboración activa con el terrorismo de una legión de vascos ETA más metralletas ETA pum pum pum y la complicidad pasiva de demasiados. Solo en ese contexto de miedos y complicidades puede ocurrir que unos pistoleros fusilen a un joven guardia civil y a su novia en la Noche de Reyes y que los vascos amanezcan gozosos recogiendo sus regalos.
