El laberinto de Dios Manuel Casanova,2016-01-30 Este ensayo comienza exponiendo lo que no sabemos es decir las preguntas fundamentales que se hace el ser humano con respecto a su propia existencia y la del Universo Durante milenios las diferentes religiones han intentado explicar estos enigmas mediante mitos y dogmas no demostrados Todas las religiones han atribuido a uno o m s dioses la creaci n de todo cuanto existe Estas explicaciones religiosas solo mantenidas por la fe se enfrentan en la actualidad a las hip

tesis y hallazgos científicos que contradicen casi por completo los dictámenes religiosos aunque tampoco todas sus respuestas se hayan verificado. En todas estas cuestiones aparece la figura de Dios un Dios laberíntico y cambiante que el hombre ha contemplado de diferentes maneras a través de la Historia. Pero podemos saber quién o qué no es Dios. En la primera parte de 'El laberinto de Dios' se analizan los diferentes modelos de Dios. Se explora después el Universo y el origen de la vida para finalizar con una reflexión acerca de nuestra conciencia y nuestro cerebro. No se pueden ofrecer respuestas pero sí una reflexión sobre las alternativas que se han propuesto tanto científicas como religiosas.

Lógica, ciencia y creatividad Blanco Pérez, Carlos Alberto, 2014-08-11

En 'Lógica, Ciencia y Creatividad' Carlos Blanco conjuga datos de la teoría de la evolución y de la neurociencia contemporánea para articular una reflexión filosófica sobre el concepto de creatividad. El problema de cómo encontrar una noción satisfactoria de creatividad le lleva también a plantearse preguntas sobre la naturaleza de la inteligencia, el proceso inventivo de grandes genios como Descartes y Leibniz, la posibilidad de ampliar nuestra lógica y el alcance de algunos descubrimientos científicos que han revolucionado categorías aparentemente inexorables de la mente humana.

Carlos Blanco Madrid 1986 es doctor en filosofía, doctor en teología y licenciado en química. Entre 2009 y 2011 fue Visiting Fellow en el Comité para el Estudio de la Religión de Harvard becado por la Fundación Caja Madrid. Ha publicado diversos libros como 'Filosofía Teológica y el Sentido de la Historia' Madrid 2011; 'Philosophy and Salvation' 2012; 'Conciencia y Mismidad' 2013 y 'El Pensamiento de la Apocalíptica Judía' 2013. Actualmente es profesor de filosofía en la Universidad Pontificia Comillas Madrid.

Otro fin del mundo es posible Pablo Servigne, Raphaël Stevens, Gauthier Chapelle, 2022-10-05

Es posible recuperarse de un diluvio de noticias catastrofistas. De qué manera podemos pasar del derrotismo a la esperanza. Cómo podemos gestionar el colapso con inteligencia en el plano material político, psicológico e incluso espiritual. Ya nadie duda de la situación crítica en la que se encuentra nuestro planeta abocado a un desbordamiento global. Los colapsos están en marcha y con ellos sus manifestaciones morales y políticas. Una situación en la que enfrenta a nuestra generación a un dilema o esperamos toda la fuerza y las consecuencias de futuros cataclismos o para evitar algunos de ellos damos un giro tan brusco que desencadene una nueva revolución mundial.

Carlos Alberto Blanco Pérez, 2017-01-10 La cultura lo que el hombre aade a la naturaleza puede definirse desde una teoría de la información Su desarrollo gravita en torno a dos factores fundamentales la tecnología y las ideas El libro propone una reconciliación de estas dos dimensiones básicas para integrar el estudio de la cultura con la teoría del conocimiento y en ltimo término con el análisis neurocientífico de la mente La religión se concibe como expresión simbólica de la básica medida de sentido que emprende toda cultura Esta indagación puede adoptar diversas manifestaciones pero en su nivel más profundo remite a una religión universal cuya esencia no se agota en las religiones históricas Sin embargo semejante proceso ya no es necesario en las sociedades modernas donde cabe canalizar los ideales tradicionalmente asociados a la trascendencia religiosa por otras vías Nuestros conceptos de cultura y religión dependen inevitablemente de nuestra noción de lo humano Por ello en la ltima sección el libro discute los retos del humanismo pluralista y del transhumanismo así como el carácter provisional de toda determinación cultural y religiosa subsidiaria siempre de la creatividad y de la superación incesante de lo dado que es capaz de acometer la mente humana Carlos Blanco Madrid 1986 es profesor de filosofía en la Universidad Pontificia Comillas Doctor en filosofía doctor en teología y licenciado en química ha publicado quince libros y ha pronunciado conferencias en países como Rusia Estados Unidos y México Entre 2009 y 2011 fue Visiting Fellow en la Universidad de Harvard becado por la Fundación Caja Madrid Es miembro de la World Academy of Art and Science y de la Academia Europea de las Ciencias y las Artes con sede en Salzburgo *Desired Language* Francesc Feliu, 2023-01-15 National linguistic ideology has been at the base of most historical processes that whether they are complete or not have brought us to the current reality a world of languages that represent with greater or lesser exactitude the diversity and convergences of human groups Various of today's thinkers have predicted the decline or even the end of national ideologies In the area of language postmodernism would make the linguistic affiliation of the community individuals irrelevant deideologise language use and extend plurilingualism and language alternation in association with a new distribution of physical or functional spaces of linguistic practice But is this true everywhere Are languages now nowhere the core of collective identity Or are we witnessing a distinction between languages that because of their magnitude status strategic position etc can continue to exercise the function of national languages and languages that have to renounce this function Has national linguistic ideology really ceased to make sense What other strategies should the historic language of a given geographic area employ if it wants to continue forming part of the life of the community that is set up there What kinds of
