has been achieved with the addition of Dr Michael Windelspecht's facility for the development of digital learning assets. For over ten years Michael served as the Introductory Biology Coordinator at Appalachian State University, a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw Hill's Connect media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.

*Lab Manual for Essentials of Biology* Sylvia Mader, 2011-01-21. *Essentials of Biology* is an introductory biology text for non-major students that combines Dr. Sylvia Mader's superb and accessible writing style with clear visuals, a comprehensive learning system, and abundant applications and relevancy. *Essentials of Biology* explains the principles of biology clearly and illustrates them in a captivating, easy-to-understand manner. It emphasizes the relevance of biology to students' lives within a framework of biodiversity and is organized around the major concepts of biology: cells, theory, gene theory, evolution, the theory of homeostasis, and ecosystems. The integration of text and the digital world are now complete with the addition of Dr. Michael's Windelspecht's expertise in the development of digital learning assets. Dr. Windelspecht has acted as the leading architect in the design of the Mader media content for McGraw Hill's ConnectPlus and LearnSmart ConnectPlus suite of learning tools. These assets will allow you to easily design interactive tutorial materials, enhance presentations in both the online and traditional environments, and assess the learning objectives and outcomes of your course. **Lab Manual to accompany Essentials of Biology** Sylvia Mader, 2006-05-22. The Laboratory Manual to accompany Sylvia Mader's *Essentials of Biology* reflects all of the exceptional features of the *Essentials of Biology* text. Instructors appreciate the refined exercises that are so numerous you won't need to look anywhere else for student activities. Author Sylvia Mader's writing in the laboratory manual just as in the text emphasizes clarity with carefully worded study questions that are direct in their intent and purpose. The lab manual's accessible writing accompanies unparalleled illustrations to provide students with clear exercises and questions. The visuals have been updated to be even easier for students, both majors and non-majors, to comprehend. The dramatic illustrations and photographs not only help students understand concepts and process but also give them an appreciation for the beauty of organisms and biological structure. McGraw Hill's Biology Digitized Video Clips on the accompanying DVD will capture students' interest while illustrating key biological concepts and processes. **Lab Manual for Essentials of Biology** Sylvia S. Mader, Dr., 2020-01-03. The 25 laboratory sessions in this manual have been designed to introduce beginning students to the major concepts of biology while keeping in mind minimal preparation for sequential laboratory use. The laboratories are coordinated with *Essentials of Biology*, a general biology text that covers all fields of biology. In addition, this Laboratory Manual can be adapted to a variety of course orientations and designs. There are a sufficient number of laboratories and exercises within each lab to tailor the laboratory experience as desired. Then too many exercises may be performed as demonstrations rather than as student activities, thereby shortening the time required.
