***Entertaining Children* G. Arrighi, V. Emeljanow, 2014-05-07** Children have been exploited as performers and wooed energetically as consumers throughout history These essays offer scholarly investigations into the employment and participation of children in the entertainment industry with examples drawn from

historical and contemporary contexts *Teaching English Language Learners* Ann Morgan, 2019-01-09 *Teaching English Language Learners* is a handbook for elementary staff who work with English Language Learners but who don't have specialized training in English language acquisition. The book is a handy reference that describes all stages of learning English and how home language and culture affect English Language Learners in school. It provides a thorough picture of English Language Learners by describing English language levels, adjustment behaviors, family interactions, and expectations, non-academic areas of need, and how to discern whether or not student difficulties are language-based. It also offers practical strategies for teaching writing and describes general Project Based Learning activities appropriate for both large and small groups. The book supports classroom teachers, para-educators, volunteers, teachers in training, specialists, and other adults working with elementary English Language Learners. *Children Today*, 1990 **Being Fair with Kids** Jim Dueck, 2013-07-01 Parents agonize over when to begin their child's formal education but lack data for making informed decisions. Educators understand the issue intuitively but decision makers lack data for justifying reform. These informational needs are now available in *Being Fair with Kids*. *Why Kids Can't Spell* Roberta Heembrock, 2008-08-29 *Why Kids Can't Spell* is a resource/reference book for parents and educators who have an interest in and a concern for children's spelling ability. The purpose of this book is to encourage and foster good spelling practices in the home and at school, to reflect modern teaching methods. The design of this book uses a scope and sequence format with each chapter building on the previous one. Every chapter includes a discussion on spelling background knowledge. In this section, one finds an analysis of children's writing samples in accordance with J. Richard Gentry and Jean Wallace Gillet's Model of Spelling Development. This is followed by numerous inquiry-based, project-based, and generative ideas and activities. The activities in this book are practical and easy to prepare, use readily available materials, and are meant to facilitate readers' understanding. All chapters are related, and therefore the reader is encouraged to browse and borrow from any chapter. The activities may be modified in order to appropriately challenge and meet individual needs. **Are Those Kids Yours?** Cheri Register, 2010-06-15 The question "Are those kids yours?" has a familiar ring to parents who have adopted children from South Korea, India, Colombia, the Philippines, and other countries. As natural and normal as it feels to them to be together, such families are often asked to explain their obvious difference. In rich personal stories drawn from her own experience as the mother of two Korean-born daughters and from interviews with other parents and with adopted children from six to thirty, Cheri Register both affirms the normality of internationally adoptive families and highlights the special challenges they do indeed face. The book addresses many central questions about international adoption: why children are in need of adoption outside the country of their birth, why parents choose to adopt from other countries, and how parents and children of very different origins become a real family. International adoption is a controversial matter in countries from which children are coming to the United States, but adoptive families have had little voice as yet in the debate. With honest, thoughtful analysis honed by personal experience,

Register addresses the ethical issues inevitably raised by adoption across lines of culture race and social class Are parents in the wealthier nations entitled to raise children left homeless in other parts of the world by poverty or social stigma Is placement in another country an appropriate solution for children whose parents cannot raise them Insightful comprehensive and eloquent Are Those Kids Yours is a unique resource for parents raising internationally adopted children and for those who are contemplating intercountry adoption as well as for the children as they grow up their extended families and friends and adoption and mental health professionals
