Ancient Jewish Prayers and Emotions Stefan C. Reif, Renate Egger-Wenzel, 2015-11-13 Given the recent interest in the emotions presupposed in early religious literature it has been thought useful to examine in this volume how the Jews and early Christians expressed their feelings within the prayers recorded in some of their literature Specialists in their fields from academic institutions around the world have analysed important texts relating to this overall theme and to what is revealed with regard to such diverse topics as relations with God exegesis education prophecy linguistic expression feminism happiness grief cult suicide non Jews Hellenism Qumran and Jerusalem The texts discussed are in Greek Hebrew and Aramaic and are important for a scientific understanding of how Rabbinic Judaism and Early Christianity developed their approaches to worship to the construction of their theology and to the feelings that lay behind their religious ideas and practices The articles contribute significantly to an historical understanding of how Jews maintained their earlier traditions but also came to terms with the ideology of the dominant Hellenistic culture that surrounded them

The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supranatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage

The Jewish People David J. Goldberg, John D.
