Jezus Het Verhaal Van Een Levende:

Jezus Edward Schillebeeckx, 1974 **Leeswijzer bij 'Jezus, het verhaal van een Levende' van Edward Schillebeeckx** Hadewych Snijdewind, Edward Cornelis Florentius Alfons Schillebeeckx, 1994 Samenvatting van het boek van de katholieke theoloog 1914 Hope in Action Steven M. Rodenborn, 2014-08-01 This volume contends against a major lacuna in the story of eschatology in the twentieth century by offering a historical and comparative analysis of Edward Schillebeeckx's prophetic eschatology and Johann Baptist Metz's apocalyptic eschatology with the goal of identifying relative advantages and limitations of these divergent eschatological frameworks for rendering a Christian account of hope that prompts action in the public arena Rodenborn provides a fresh angle on eschatologies of hope **Edward Schillebeeckx and Contemporary Theology** Lieven Boeve, Frederiek Depoortere, Stephan van Erp, 2010-10-07 What are contemporary theology's challenges What are its fruitful approaches Who are its promising contributors The contributions to this collection of essays try to find answers to these questions by making references to the Dutch Dominican scholar Edward Schillebeeckx using his theology as a starting point for an up to date investigation and discussion The theological work of Edward Schillebeeckx marks the transition from a pre modern to a modern approach to Christian faith Church and theology Already more than two generations of theologians have been trained in dialogue with his thought Contemporary theology testifies often implicitly to the enduring relevance of many of Schillebeeckx's insights while in other instances it pushes his thinking to its limits in order to deal with the current challenges for faith and society Twentieth-Century Theologians Philip Kennedy, 2010-01-30 One needs to be a lunatic to become a Christian the 19th century Danish philosopher Søren Kierkegaard once observed Had he lived in the 20th century he might have discerned even more of an obstacle to faith For during the last century the human condition changed more rapidly than during any previous era taking that condition far away from the historical circumstances in which Christianity was born In his new book Philip Kennedy explores the ways Christian theologians of the 20th century tried to live a productive religious life in a world overtaken by massive upheaval and innovation The book is distinctive in a number of respects First it differs from other surveys of theology by adopting a biographical method examining the lives of its subjects in historical context Second it is more progressive than its competitors covering many theologians other than white male professors especially women who have worked outside the academy or on the margins of the churches Third it is international focusing on theologians in all the continents of the world rather than just Europe or North America Fourth it makes no assumptions that its readers are religious or that theology is uniquely credible There is a need for a sensitive new textbook reassessing the subject in the light of modern concerns and scepticism about religion This book meets that need **The Seven Sacraments of the Catholic Church** Archibald L.H.M. van Wieringen, 2022-06-08 The strong relationship between the Bible and the sacraments of the Catholic Church is generally accepted in theology This monograph approaches this relationship from a synchronic perspective This fresh perspective

opens up new windows providing insight into similarities found in the various rites in and outside the Catholic Church For example the basic biblical pattern of the celebration of the Eucharist Last Supper appears to be standard It also poses critical questions regarding sacramental theology in general especially to the problematic equation of the proper name Jesus and the title Christ *The Philosophy of Christology* Hue Woodson,2022-01-31 Given the perpetual problem of the historical Jesus there remains an ongoing posing of the question to and a continuous seeking of the meaningfulness of Christology From the earliest reckoning with the relationship between Jesus of Nazareth and the Christ of faith what it means to do Christology today remains at the methodological center of the task and scope of every systematic theology Whether giving an account of Albert Schweitzer s bringing an end to the quest for the historical Jesus in 1906 or attending to Rudolf Bultmann s period of no quest culminating with his demythologization project in the 1940s how we still think of Christology as a matter of questions and concerns with meaning speaks to an unavoidable philosophizing of Christology In this way *The Philosophy of Christology* offers both a particular history of Christology in conjunction with a particular philosophy of Christology which assesses the theological contributions by a group of Bultmannians following Bultmann in the 1950s and 1960s up to what can be reimagined by repurposing Jacques Derrida s philosophical question into the meaning of love in 2002 *The Metaphysics of Historical Jesus Research* Jonathan Rowlands,2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research *The Metaphysics of Historical Jesus Research* is of interest to students and scholars working on New Testament studies and historical Jesus research *T&T Clark Handbook of Edward Schillebeeckx* Stephan van Erp,Daniel Minch,2019-09-05 Written by leading experts on both the thought of Edward Schillebeeckx and modern theology this handbook offers the first comprehensive study of the historical philosophical political and theological aspects of Schillebeeckx s work As one of the most influential Catholic theologians of the twentieth century he played a key role in the preparations for the theological revolution of the Second Vatican Council and the debates of the post conciliar era His engagement with critical theory hermeneutics and biblical scholarship culminated in his groundbreaking Christological trilogy which marked Schillebeeckx as one of the most significant and innovative thinkers of his time By building an overview of recent research into Schillebeeckx s writing the contributors shed

new light on his influence and ongoing relevance in contemporary theology Beginning with the roots of Schillebeeckx's views on metaphysics spirituality and faith the essays then move to his work during and after the Second Vatican Council and then to his engagement with new directions in philosophy and his renewal of classical topics such as creation theological and soteriological anthropology and eschatology Culminating with an analysis of theology and culture this handbook thoroughly explores the implications of Schillebeeckx's theology for a contemporary readership [A Modern Introduction to Theology](#) Philip Kennedy, 2009-09-22 Philip Kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the Christian religion its history and its key thinkers its successes and its failures Most existing undergraduate textbooks of theology begin from essentially traditional positions on the Bible doctrine authority interpretation and God What makes Philip Kennedy's book both singularly important and uniquely different is that it has a completely new starting point The author contends that traditional Christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and intellectual revolutions Offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies [A Modern Introduction to Theology](#) moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject [Key Theological Thinkers](#) Svein Rise, 2016-04-22 The 20th and 21st Centuries have been characterized by theologians and philosophers rethinking theology and revitalizing the tradition This unique anthology presents contributions from leading contemporary theologians including Rowan Williams Fergus Kerr Aidan Nichols G R Evans and Tracey Rowland who offer portraits of over fifty key theological thinkers in the modern and postmodern era Distinguished by its broad ecumenical perspective this anthology spans arguably one of the most creative periods in the history of Christian theology and includes thinkers from all three Christian traditions Protestant Catholic and Orthodox Each individual portrait in this anthology includes a biographical introduction an overview of theological or philosophical writing presentation of key thoughts and contextual placing of the thinker within 20th Century religious discourse Overview articles explore postmodern theology radical orthodoxy ecumenical theology feminist theology and liberation theology A final section includes portraits of important thinkers who have influenced Christian thought from other fields not least from Continental philosophy and literature [Metaphysics of Mystery](#) Marijn de Jong, 2020-02-06 How can we theologically reflect on universality in a world that increasingly focuses on particularities and differences Marijn de Jong argues that the question of universality calls for a reconceptualized form of metaphysical theology which he finds in the work of Karl Rahner and Edward Schillebeeckx Casting a new light on these theologians de Jong demonstrates that their methods contain a dialectical interrelation of hermeneutics and metaphysics an interrelation which seemingly has been lost in more recent hermeneutical theology Rahner and Schillebeeckx carefully balance particularity and universality without falling prey to relativist or absolutist ways of reasoning

By analyzing fundamental themes such as experience and interpretation nature and grace faith and reason and intelligibility and mystery de Jong reveals the modest theological metaphysics that lies at the heart of their methods This critical retrieval demonstrates the enduring relevance of these thinkers and opens up new avenues of thought for theologians that do not want to shy away from the difficult question of the universality of God The Dialectics of Creation Martin G.

Poulsom,2014-03-13 This book investigates the philosophical components of Christian faith in creation by analyzing the distinction and the relation between creation and its Creator The writings of Edward Schillebeeckx and David Burrell supply a terminology of distinction and relation that shapes the discourse following in the footsteps of Aquinas Poulsom elucidates the relational dialectic in the thought of Schillebeeckx as a way of thinking about the Creation and offers a helpful comparison with the thought of David Burrell Relational dialectic is an organizing principle not only of Schillebeeckx s account of creation but of his philosophical theology more generally It can operate as a hermeneutic for his material on praxis and humanism in a way that resolves some problems noted by other Schillebeeckx scholars Poulsom s interpretation of Schillebeeckx enriches current approaches to this thinker and offers a significant contribution to thinking on the doctrine of Creation and issues surrounding the ontological distinction which is of major concern in philosophical theology today

Education for Reflective Ministry J. A. van der Ven,1998 The picture that pastors have of themselves and of their experiences in the ministry is ambivalent On the one hand they find the pastoral work which they perform meaningful important and relevant On the other hand pastors suffer from chronic stress of some sort caused by different factors on the micro meso and macro level of religion church and society Many pastors experience the modernization and subsequently the secularization process as a very serious problem which negatively influences religious life within the parish Pastors are bowed down by uncertainty over how their work contributes to the parish mission in today s society and even more so by doubts over what that mission is in particular the diaconal mission Which direction can shall should the pastor take if neither the church nor the theological institutions are able to provide him or her with a clear frame of reference an attractive perspective a convincing policy a plausible course of action and a meaningful set of aims goals and objectives There is no alternative but to risk taking responsibility for oneself and choosing one s own course of action To take this risk is not reckless or foolhardy as long as the choices are always informed by a religious self reflection that is open to tradition as well as to the future This allows the pastor to be his own guide to transgress useless customs and habits and cross the boundaries into as yet unknown territory The task of education must be to provide the foundation that enables the pastor to make those choices and take those risks in a well considered prudent and truly religious manner This study represents not only an interpretative description of some of the education for ministry in today s societal cultural and ecclesiastical context in the western world but also a proposal for a new model the reflective ministry model *From Mother of the Redemption to Mother of All Believers* Antoni Nadbrzeżny,2024-12-09 Antoni Nadbrzeżny exposes the personalistic character of

Schillebeeckx's Mariology In his book the author presents Mary as a human being whose holiness is great and mysterious According to the Flemish theologian Mary becomes the guarantor of the full and true humanity of Jesus It is a Mariology that finds its foundation in the history of salvation The book does not follow the path of abstract metaphysics but pays more attention to the real and existential elements of Mary's life This reinterpretation finds its source in the application of phenomenological thought In his theological picture of Mary Schillebeeckx rejects all Gnostic idyllic and dualistic thoughts The Mother of God appears as someone who seeks God who shares the tragic fate of the world and recognizes her place and mission in salvation history She participates in human suffering and the trial of faith **T&T Clark Reader in Edward**

Schillebeeckx Stephan van Erp, Daniel Minch, 2023-02-23 This reader shows why Edward Schillebeeckx remains one of the most influential Catholic theologians of the 20th century Spanning more than half a century and including several texts that appear in English for the first time it enables students to understand how Edward Schillebeeckx's thought resonates with current debates in theology for instance on ecology and secularization T T Clark Reader in Edward Schillebeeckx includes selections from both pre and post Conciliar texts that illustrate the evolution in Schillebeeckx's thought while also pointing towards the deep underlying continuity which comes from his essential commitment to his faith His Christological Trilogy which was a touchstone for doctrinal controversy and methodological progress is represented here as well as important works on ministry the sacraments hermeneutics secularization and the environment These complex theological topics are broken down in every chapter with the help of explanatory notes discussion questions and further reading suggestions This reader is an essential resource which will enable students to contextualize and unpack the rich layers within Schillebeeckx's theology Edward Schillebeeckx and Interreligious Dialogue Edmund Kee-Fook Chia, 2012-01-23 If Schillebeeckx had been Asian how would he have responded to the phenomenon of religious pluralism This book attempts to answer that question beginning with a dialogue with the Vatican Declaration Dominus Iesus and discerning how Schillebeeckx's methodology has been applied in Asian theology Employing the hermeneutical critical method Schillebeeckx asserts that the Word of God did not come down to us as it were vertically in a purely divine statement it must be interpreted In today's context of so many religions so many cultures and so many poor God's Word invites the church to be a sacrament of dialogue Through dialogue the church will be challenged by other religions and challenge them in return Christianity will then be put in its place as well as given the place which is its due Liturgy and Life Timothy M. Brunk, 2007 Original Scholarly Monograph *Suffering and Salvation* Aloysius Rego, 2006 Suffering especially that of the innocent and those unjustly treated is a universal experience which has perplexed and agonised humanity This reality is especially a challenge to believers in an all powerful good and loving God Within the Christian tradition in particular because of the centrality of the cross and the crucified and risen One there has been a tradition which has hallowed suffering In this perspective suffering per se whatever its origin is mystified as a necessary prelude to salvation Is suffering salvific Are all experiences of suffering saving What is God's

attitude and involvement with suffering In this work these questions are explored through the lens of Edward Schillebeeckx's later theology which is primarily concerned with the development of a contemporary soteriology Eschatological Hermeneutics Daniel Minch, 2018-09-20 Eschatology is the foundation for exploring Edward Schillebeeckx's work Daniel Minch provides an in depth analysis of his hermeneutical theology informed by access to original texts previously unavailable in English He examines the historical and doctrinal origins of his methodology hermeneutics as human experience and the continuing relevance of the approach for today's socio economic context Today economics drives our predictions for the future But Minch shows that Schillebeeckx's work reminds us of a new image of humanity as well as a new image of God part of the Catholic shift to a future oriented theology of hope that took place after the Second Vatican Council These resist both economic logic and fundamentalist views of God and history that have become pervasive in popular notions of Christianity
