Mule Trader William R. Ferris, 2010-12-01 Readers captivated by this book will be happy that Bill Ferris found Ray Lum and that he thought to turn on a tape recorder Lum 1891 1977 was a mule skinner a livestock trader an auctioneer and an American original This delightful book first published in 1992 as *You Live and Learn Then You Die and Forget It All* preserves Lum s colorful folk dialect and captures the essence of this one of a kind figure who seems to have stepped full blooded from the pages of Mark Twain This riveting tale spinner was tall heavy set and full of body rhythm as he talked In his special world he was famous for trading for tale telling and for common sense lessons that had made him a savvy bargainer and a shrewd businessman His home and his auction barn were in Vicksburg Mississippi where mules were his main interest but in trading he fanned out over twenty

states and even into Mexico A west Texas newspaper reported his fame this way He is known all over cow country for his honest fair dealing and gentlemanly attitude A letter addressed to him anywhere in Texas probably would be delivered Over several years Ferris recorded Lum s many long conversations that detail livestock auctioneering cheery memories of rustic Deep South culture and a philosophy of life that is grounded in good horse sense Even among the most spellbinding talkers Lum is a standout both for what he has to say and for the way he says it Ferris s lucky protracted encounters with him turn out to be the best of good fortune for everybody

Liberty Bell 7 Colin Burgess,2014-03-19 NASA s Mercury astronauts were seven highly skilled professional test pilots Each of them seemed to possess the strength of character and commitment necessary to overcome apparently insurmountable obstacles as the United States entered into a Cold War space race with the Soviet Union This was never more evident than on the epic suborbital MR 4 flight of Liberty Bell 7 with astronaut Virgil Gus Grissom piloting the spacecraft to a successful splashdown followed by the premature blowing of the craft s explosive hatch After a hurried exit and struggling to stay afloat he could only watch helplessly as the recovery helicopter pilot valiantly fought a losing battle to save the sinking capsule That day NASA not only lost a spacecraft but came perilously close

to losing one of its Mercury astronauts a decorated Korean fighter pilot from Indiana who might one day have soared to the highest goal of them all as the first person to set foot on the Moon For the first time many of those closest to the flight of Liberty Bell 7 and astronaut Gus Grissom offer their stories and opinions on the dramatic events of July 21 1961 and his later pioneering Gemini mission They also tell of an often controversial life cut tragically and horrifically short in a launch pad fire that shocked the nation

Home Learning Environments for Young Children Cathy Nutbrown, Peter Clough, Kay Davies, Peter Hannon, 2022-04-07 By bringing together research evidence on effectively supporting parents to engage with their children's early learning and the role of education professionals in developing partnerships with families this book focuses on partnerships between professionals and parents to enhance family learning for young children in literacy and other aspects of early learning The move towards setting home based and online learning has accelerated and it is important for both students and practitioners to value parents' roles in their young children's learning to consider how parents can support young children's learning in these scenarios and how to apply this in practice with children aged birth to five Through a wealth of case studies from real experience the authors showcase an inspiring range of inclusive projects and approaches with families including marginalised groups such as bilingual learners fostering families and families identified as vulnerable including imprisoned fathers and children with specific learning needs

Breaking Away Maurice E. Stucke, 2022 *Breaking Away* sounds a warning call alerting readers that their privacy and autonomy concerns are indeed warranted and the remedies deserve far greater attention than they have received from our leading policymakers and experts to date Through the various prisms of economic theory market data policy and law the book offers a clear and accessible insight into how a few powerful firms Google Apple Facebook Meta and Amazon have used the same anticompetitive playbook and manipulated the current legal regime for their gain at our collective expense While much has been written about these four companies' power far less has been said about addressing their risks In looking at the proposals to date however policymakers and scholars have not fully addressed three fundamental issues First will more competition necessarily promote our privacy and well being Second who owns the personal data and is that even the right question Third what are the policy implications if personal data is non rivalrous *Breaking Away* not only articulates the limitations of the current enforcement and regulatory approach but offers concrete proposals to promote competition without having to sacrifice our privacy This book explores how these platforms accumulated their power why the risks they pose are far greater than previously believed and why the tools need to be far more robust than what is being proposed Policymakers scholars and business owners managers and entrepreneurs seeking to compete and innovate in the digital platform economy will find the book an invaluable source of information
