John Law Magicien Bertrand Martinot:

The Revolutionary Self Lynn Hunt, 2025-02-18 An illuminating exploration of the tensions between self and society in the age of revolutions Since the eighteenth century one of the defining concerns of modern life has been the tension between the self and society we believe in a person's autonomy but we also acknowledge that people are shaped by social and cultural forces The Revolutionary Self delves into this paradox turning to the eighteenth century as an era when new ideas about the self society and equality gained traction and new ways of living emerged Lynn Hunt the eminent historian of the French Revolution traces the rise of individualism and how it transformed attitudes In this thoughtful and surprising history she examines women's expanding societal roles such as using tea to facilitate conversation between the sexes and women pushing boundaries by becoming artists Class also comes under stress with the French lower classes laughing at printmakers' ribald portrayals of the elite to soldiers rising in the French army for skill and not pedigree The invention of financial instruments at this time like life insurance and the national debt is related to the changing idea of national identity Wide ranging and thought provoking The Revolutionary Self is a fascinating exploration of the conflict between individualism and the group ties that continue to shape our lives today
