 of sturdy agricultural machinery the John Deere Company began in the 1960s to build a line of consumer products in a
 dedicated factory in Horicon Wisconsin Starting with a lawn and garden tractor in 1963 Deere soon entered the fast growing
 snowmobile market introducing two models in 1971 The next 13 years would see a succession of models as Deere vied
 against tough competitors in a weather dependent market This detailed history written by two key participants in the
 snowmobile program describes the development of John Deere snowmobiles from start to finish the design and engineering
 decisions that shaped each important model reception of the snowmobiles by consumers the factory race teams the
 introduction of front engine and water cooled models the process of selecting engines and negotiating with suppliers
 including when problems developed and the snowmobiles impact on product engineering The text provides an inside view of

 Hsai-Yang Fang,2013-06-29 More than ten years have passed since the first edition was published During that period there
 have been a substantial number of changes in geotechnical engineering especially in the applications of foundation
 engineering As the world population increases more land is needed and many soil deposits previously deemed unsuitable for
 residential housing or other construction projects are now being used Such areas include problematic soil regions mining
 subsidence areas and sanitary landfills To overcome the problems associated with these natural or man made soil deposits
 new and improved methods of analysis design and implementation are needed in foundation construction As society develops
 and living standards rise tall buildings transportation facilities and industrial complexes are increasingly being built Because
 of the heavy design loads and the complicated environments the traditional design concepts construction materials methods
 and equipment also need improvement Further recent energy and material shortages have caused additional burdens on the
 engineering profession and brought about the need to seek alternative or cost saving methods for foundation design and
