The Social Aesthetics of Human Environments Arnold Berleant,2023-08-24 Across these essays Arnold Berleant demonstrates how aesthetic values and theory can be used to reappraise our social practices He tackles issues within the built environment everyday life and politics breaking down the dichotomy between the natural and the human His work represents a fresh approach to traditional philosophical questions in not only ethics but in metaphysics truth meaning psychology phenomenology and social and moral philosophy Topics covered include the cultural aesthetics of environment

ecological aesthetics the aesthetics of terrorism and the subversion of beauty The corruption of taste by the forces of commercial interests as well as how aesthetics can advance our understanding of violence are also considered Berleant's exploration is supported by his analysis of 19th century art to the present day starting with impressionism through to postmodernism and contemporary artistic interventions By critically examining the field in this way and casting new light on social understanding and practice this collection makes a substantive contribution in identifying and clarifying central human issues guided by an understanding of aesthetic engagement as a powerful tool for social critique

The Love Poems of John Donne John Donne, 1905 **John Donne in the Nineteenth Century** Dayton Haskin, 2007-06-21 In 1906 having been assigned Izaak Walton's Life of Donne to read for his English class a Harvard freshman heard a lecture on the long disparaged metaphysical poets Years later when an appreciation of these poets was considered a consummate mark of a modernist sensibility T S Eliot was routinely credited with having discovered Donne himself John Donne in the Nineteenth Century tracks the myriad ways in which Donne was lodged in literary culture in the Romantic and Victorian periods The early chapters document a first revival of interest when Walton's Life was said to be in the hands of every reader they explore what Wordsworth and Coleridge contributed to the conditions for the 1839 publication of the only edition ever called The Works which reprinted the sermons of Dr Donne Later chapters trace a second revival when admirers of the biography turning to the prose letters and the poems to supplement Walton discovered that his hero's writings entail the sorts of controversial issues that are raised by Browning by the fleshly school of poets and by self consciously decadent writers of the fin de siècle The final chapters treat the spread of the academic study of Donne from Harvard where already in the 1880s he was the anchor of the seventeenth century course to other institutions and beyond the academy showing that Donne's status as a writer eclipsed his importance as the subject of Walton's narrative which Leslie Stephen facetiously called the masterpiece of English biography

The Love Poems of John Donne John Donne, 1905 John Donne: The Critical Heritage A.J. Smith, 2002-09-11 This presents a record of how from the nineteenth century onwards critics viewed Donne and how he became part of the literary canon Contains writings on Donne from 1873 to 1923 including Kipling Yeats Pound Eliot and Hardy
