Interpretation and Literature in Early Medieval China Alan K. L. Chan,Yuet-Keung Lo,2010-07-01 Covering a time of great intellectual ferment and great influence on what was to come this book explores the literary and hermeneutic world of early medieval China In addition to profound political changes the fall of the Han dynasty allowed new currents in aesthetics literature interpretation ethics and religion to emerge during the Wei Jin Nanbeichao period The contributors to this volume present developments in literature and interpretation during this era from a variety of methodological perspectives frequently highlighting issues hitherto unremarked in Western or even Chinese and Japanese scholarship These include the rise of new literary and artistic values as the Han declined changing patterns of patronage that helped reshape literary tastes and genres and new developments in literary criticism The religious changes of the period are revealed in the literary self presentation of spiritual seekers the influence of Daoism on motifs in poetry and Buddhist influences on both poetry and historiography Traditional Chinese literary figures such as the fox and the ghost receive fresh analysis about their particular representation during this period

Biodiversity and Biomedicine Munir Ozturk,Dilfuza Egamberdieva,Milica Pešić,2020-07-15 Biodiversity and Biomedicine Our Future provides a new outlook on Earth s animal plant and fungi species as vital sources for human health treatments While there are over 10 million various species on the planet only 2 million have been discovered and named This book identifies modern ways to incorporate Earth s species into biomedical practices and emphasizes the need for biodiversity conservation Written by leading biodiversity and biomedical experts the book begins with new insights on the benefits of biologically active compounds found in fungi and plants including a chapter on the use of wild fruits as a treatment option The book goes on to discuss the roles of animals such as amphibians and reptiles and how the threatened presence of these species must be

reversed to conserve biodiversity It also discusses marine organisms including plants animals and microbes as essential in contributing to human health Biodiversity and Biomedicine Our Future is a vital source for researchers and practitioners specializing in biodiversity and conservation studies Students in natural medicine and biological conservation will also find this useful to learn of the world s most bio rich communities and the molecular diversity of various species Presents new developments in documenting and identifying species for biodiversity conservation and ethical considerations for biodiversity research Examines biodiversity as an irreplaceable resource for biomedical breakthroughs using available species for medical research Discusses challenges and opportunities for biodiversity protection and research in biosphere reserves

The West and the Word Steffen Wöll,2020-10-12 Western expansion in North America has mainly been described as either a linear sequence energized by nineteenth century nation building processes at a moving frontier or as the practice of settler colonialism and its exploitation of resources and displacement of nonwhite peoples This book suggests that shifting the focus from this binary pattern towards spatial imaginations and spatialization processes a new theoretical framework developed at SFB 1199 provides novel insights into the placemaking dynamics of the American West It brings to light a discursive diversity that often contradicts unidirectional interpretive patterns It becomes clear that while some discourses solidified into spatial metanarratives like the character shaping clash of civilizations at the frontier or manifest destiny alternative spatial imaginations exist juxtaposed to or obfuscated by canonical interpretations Making use of a variety of sources including works of literature poetry newspapers paintings and speeches to access spatialization processes on several sociocultural scales the book presents a careful exploration of the parameters that informed the creation affirmation and subversion of spatial imagination of the American West throughout the nineteenth century from the perspective of American Studies
