

The background of the book cover is a historical painting depicting a harbor scene. In the foreground, a large, dark-hulled ship with multiple masts is docked at a wooden pier. Several figures are visible on the pier and the ship. In the background, a city with several tall, pointed church spires is visible across the water. The sky is filled with soft, white clouds. The overall style is that of an 18th-century landscape painting.

Jeffersons America 1760 1815 Paperback 2009 3rd Edition:

Jefferson's America, 1760-1815 Norman K. Risjord, 2009-10-16 A captivating and lucid narrative of America's revolutionary generation Jefferson's America takes the reader from the earliest rumblings of colonial dissent through the crises of revolution and nation making to the heroic drama of the War of 1812 Risjord deftly weaves together strands of biography and social history with military and political history to depict the rich fabric of the young republic While most writers on this period conclude with the end of the Revolution the ratification of the Constitution or the election of Jefferson Risjord contends that there is a fundamental continuity in the history of the Early Republic The basic problems involved in creating a stable representative government were not resolved until the second war of independence a symbolic end for the Revolutionary generation which produced a sense of national unity and determined the viability of the new nation Risjord incorporates new social and economic perspectives and he deals suggestively with the struggle over who shall rule at home Yet he still presents the pivotal events of the War for Independence the framing of the Constitution the Revolution of 1800 and the War of 1812 in an interesting and understandable way This is no watered down version of the national myth but a subtle and well told story The third edition reflects new research on a number of topics including the role of women in the resistance to British measures the impact of the Revolution on blacks both slave and free and the lot of the common soldier during the same period

Progress Johan Norberg, 2017-04-06 A Book of the Year for The Economist and the Observer Our world seems to be collapsing The daily news cycle reports the deterioration divisive politics across the Western world racism poverty war inequality hunger While politicians journalists and activists from all sides talk about the damage done Johan Norberg offers an illuminating and heartening analysis of just how far we have come in tackling the greatest problems facing humanity In the face of fear mongering darkness and division the facts are unequivocal the golden age is now The Hollow Core of Constitutional Theory

Donald L. Drakeman, 2021-04-08 The first major scholarly defense of the centrality of the Framers intentions in constitutional interpretation to appear in years

Jefferson's America, 1760-1815 Norman K. Risjord, 1991 Risjord weaves together strands of biography social and cultural history and military and political history to depict the rich fabric of the young republic This is no watered down version of the national myth but a subtle and well told story
