Christianity and the West Craig Steven Titus,2009 Western culture and art were not born of unknown parents Christianity while receiving its mother tongues and its first canonical texts within Hebrew and Greco Roman civilizations has provided its own major contributions to the art and culture of the last two millennia In this volume scholars of international reputation clerics and lay Catholic and Protestant have reflected on how Christians have dialogued with diverse cultures and religions even as they forged directions unique to the Gospel The contributors of Christianity and the West scrutinize past achievements in order to face the postmodern secularization of western society and the globalization of communication trade and travel that claim a right to experimentation free from long standing values and detached from communities where the quality of culture and art makes a difference It is argued that the creative manifestations of culture express the genius of human agents authors and artists but they find their acid test in relationship with the flourishing of human persons and

society However a human social standard is assured by a divine one Culture risks becoming destructive when the aesthetic is severed from sources of faith and reason about human origins and ends In order to face this risk the present volume explores the interaction between Christianity art and culture in the West especially in fine art and architecture theatre and cinema literature and politics It demonstrates that Christianity has served as a living memory for humanity above all concerning the unity of the physical and spiritual dimensions that constitute the human person and culture

ROSARY MEDITATIONS FROM MOTHER TERESA OF CALCUTTA , 1984 **The Mystical Presence of Christ** Richard Kieckhefer, 2022-09-15 The Mystical Presence of Christ investigates the connections between exceptional experiences of Christ s presence and ordinary devotion to Christ in the late medieval West Unsettling the notion that experiences of seeing Christ s figure or hearing Christ speak are simply exceptional events that happen at singular moments Richard Kieckhefer reveals the entanglements between these experiences and those that occur through the imagery language and rituals of ordinary everyday devotional culture Kieckhefer begins his book by reconsidering the who and the how of Christ s mystical presence He argues that Christ s humanity and divinity were equally important preconditions for encounters both exceptional and ordinary which Kieckhefer proposes as existing on a spectrum of experience that moves from presupposition to intuition and finally to perception Kieckhefer then examines various contexts of Christ manifestations during prayer meditation and liturgy for example with attention to gender dynamics and the relationship between saintly individuals and their hagiographers Through penetrating discussions of a diverse set of texts and figures across the long fourteenth century Angela of Foligno the nuns of Helfta Margery Kempe Dorothea of Montau Meister Eckhart Henry Suso and Walter Hilton among others Kieckhefer shows that seemingly exceptional manifestations of Christ were also embedded in ordinary religious experience Wide ranging in scope and groundbreaking in methodology The Mystical Presence of Christ is a magisterial work that rethinks the interplay between the exceptional and the ordinary in the workings of late medieval religion **In Conversation with God** Francis Fernandez, 1988 This is a translation of *Hablar con Dios* first published by
