The Fabric of Religious Life in Medieval Ashkenaz (1000-1300) Jeffrey R. Woolf, 2015-07-14 In *The Fabric of Religious Life in Medieval Ashkenaz* Jeffrey R Woolf presents the first integrated presentation of the ideals and beliefs that comprised the self image and worldview of Ashkenazic Jews in the Central and High Middle Ages 900 1300 Through careful examination of a wide range of sources legal customal liturgical artistic Woolf shows how religious practice played a dual role in creating and sustaining Jewish life in a hostile environment They instilled these values and recast religious traditions to reflect them The author demonstrates how hitherto underappreciated ideals such as Purity Sanctity and a palpable sense of Divine Indwelling played a central role in Ashkenazic religiosity and merged to form the texture or the Sacred Canopy of their lives

Jews in East Norse Literature Jonathan Adams, 2022-12-05 What did Danes and Swedes in the Middle Ages imagine and write about Jews and Judaism This book draws on over 100 medieval Danish and Swedish manuscripts and incunabula as well as runic inscriptions and religious art c 1200 1515 to answer this question There were no resident Jews in

Scandinavia before the modern period yet as this book shows ideas and fantasies about them appear to have been widespread and an integral part of life and culture in the medieval North Volume 1 investigates the possibility of encounters between Scandinavians and Jews the terminology used to write about Jews Judaism and Hebrew and how Christian writers imagined the Jewish body The mis use of Jews in different texts especially miracle tales exempla sermons and Passion treaties is examined to show how writers employed the figure of the Jew to address doubts concerning doctrine and heresy fears of violence and mass death and questions of emotions and sexuality Volume 2 contains diplomatic editions of 54 texts in Old Danish and Swedish together with translations into English that make these sources available to an international audience for the first time and demonstrate how the image of the Jew was created in medieval Scandinavia *Jewish Mysticism and Magic* Maureen Bloom, 2007-08-07 Providing a unique anthropological perspective on Jewish mysticism and magic this book is a study of Jewish rites and rituals and how the analysis of early literature provides the roots for understanding religious practices It includes analysis on the importance of sacrifice amulets and names and their underlying cultural constructs and the persistence of their symbolic significance **Early Jewish Prayers in Greek** Pieter W. van der Horst, Judith. H. Newman, 2008-12-10 During the past few decades a great amount of scholarly work has been done on the various prayer cultures of antiquity both Graeco Roman and Jewish and Christian In Jewish studies this burgeoning research on ancient prayer has been stimulated particularly by the many new prayer texts found at Qumran which have shed new light on several long standing problems The present volume intends to make a new contribution to the ongoing scholarly debate on ancient Jewish prayer texts by focusing on a limited set of prayer texts scil a small number of those that have been preserved only in Greek Jewish prayers in Greek tend to be undervalued which is regrettable because these prayers shed light on sometimes striking aspects of early Jewish spirituality in the centuries around the turn of the era In this volume twelve such prayers have been collected translated and provided with an extensive historical and philological commentary They have been preserved on papyrus on stone and as part of Christian church orders into which some of them have been incorporated in a christianized form For that reason these prayers are of great interest to scholars of both early Judaism and ancient Christianity **Angels in Islam** Stephen Burge, 2015-12-22 Angels are a basic tenet of belief in Islam appearing in various types and genres of text from eschatology to law and theology to devotional material This book presents the first comprehensive study of angels in Islam through an analysis of a collection of traditions had th compiled by the 15th century polymath Jal l al D n al Suy t d 911 1505 With a focus on the principal angels in Islam the author provides an analysis and critical translation of hadith included in al Suyuti s al Haba ik fi akhbar al mala ik The Arrangement of the Traditions about Angels many of which are translated into English for the first time The book discusses the issues that the had th raise exploring why angels are named in particular ways how angels are described and portrayed in the had th the ways in which angels interact with humans and the theological controversies which feature angels From this it is possible to place al Suy t s

collection in its religious and historical milieu building on the study of angels in Judaism and Christianity to explore aspects of comparative religious beliefs about angels as well as relating Muslim beliefs about angels to wider debates in Islamic Studies Broadening the study of Islamic angelology and providing a significant amount of newly translated primary source material this book will be of great interest to scholars of Islam divinity and comparative religion *Encyclopedia of Jewish Folklore and Traditions* Raphael Patai, 2015-03-26 This multicultural reference work on Jewish folklore legends customs and other elements of folklife is the first of its kind *A Touch of Doubt* Rachel Aumiller, 2021-02-22 What can we know about ourselves and the world through the sense of touch and what are the epistemic limits of touch Scepticism claims that there is always something that slips through the epistemologist's grasp *A Touch of Doubt* explores the significance of touch for the history of philosophical scepticism as well as for scepticism as an embodied form of subversive political religious and artistic practice Drawing on the tradition of scepticism within nineteenth and twentieth century continental philosophy and psychoanalysis this volume discusses how the sense of touch uncovers contradictions within our knowledge of ourselves and the world It questions 1 what we can know through touch 2 what we can know about touch itself and 3 how our experience of touching the other and ourselves throws us into a state of doubt This volume is intended for students and scholars who wish to reconsider the experience of touching in intersections of philosophy religion art and social and political practice

Power, Ethics, and Ecology in Jewish Late Antiquity Julia Watts Belser, 2015-08-06 Rabbinic tales of drought disaster and charismatic holy men illuminate critical questions about power ethics and ecology in Jewish late antiquity Through a sustained reading of the Babylonian Talmud's tractate on fasts in response to drought this book shows how Bavli Ta'anit challenges Deuteronomy's claim that virtue can assure abundance and that misfortune is an unambiguous sign of divine rebuke Employing a new method for analyzing lengthy talmudic narratives Julia Watts Belser traces complex strands of aggadic dialectic to show how Bavli Ta'anit's redactors articulate a strikingly self-critical theological and ethical discourse Bavli Ta'anit castigates rabbis for misuse of power exposing the limits of their perception and critiquing prevailing obsessions with social status But it also celebrates the possibilities of performative perception the power of an adroit interpreter to transform events in the world and interpret crisis in a way that draws forth blessing **Magic in the Biblical World** Todd Klutz, 2004-03-01 The category magic long used to signify an allegedly substantive type of activity distinguishable from religion has nearly been dismantled by recent historical and social scientific approaches to religious studies While recognising and at times reinforcing this stance the essays in this collection show that there is still much to be learned about the cultural context of early Judaism and Christianity by analysing ancient texts which either use magic as a category for purposes of deviance labelling or promote behaviour of a broadly magico-religious variety Through sustained engagement with texts ranging from Exod 7-9 and Acts 8 to the Testament of Solomon and the Late Antique alchemical treatise known as the Cyranides this volume focuses chiefly on materials that challenge the familiar boundaries between

miracle and magic and medicine yet it also heightens awareness of the way unsuspecting use of a sick sign e g magic can impede critical understanding of texts and their respective contexts of production and reception Journal for the Study of the New Testament Supplement Series Volume 245 **Imagining the Supernatural North** Eleanor Rosamund

Barracough, Danielle Marie Cudmore, Stefan Donecker, 2017-01-03 Turning to face north face the north we enter our own unconscious Always in retrospect the journey north has the quality of dream Margaret Atwood True North In this interdisciplinary collection sixteen scholars from twelve countries explore the notion of the North as a realm of the supernatural This region has long been associated with sorcerous inhabitants mythical tribes metaphysical forces of good and evil and a range of supernatural qualities It was both the sacred abode of the gods and a feared source of menacing invaders and otherworldly beings Whether from the perspective of traditional Jewish lore or of contemporary black metal music few motifs in European cultural history show such longevity and broad appeal Contributors Eleanor Rosamund Barracough Angela Byrne Danielle Marie Cudmore Stefan Donecker Brenda S Gardenour Walter Silvijs Habulinac Erica Hill Jay Johnston Maria Kasyanova Jan Leichsenring Shane McCorristine Jennifer E Michaels Ya acov Sarig Rudolf Simek Athanasios Votsis Brian Walter **Communication, Translation, and Community in the Middle Ages and Early**

Modern Period Albrecht Classen, 2022-08-22 Literature serves many purposes and one of them certainly proves to be to convey messages wisdom and instruction and this across languages religions and cultures Beyond that as the contributors to this volume underscore people have always endeavored to reach out to their community members that is to build community to learn from each other and to teach Hence this volume explores the meaning of communication translation and community building based on the medium of language While all these aspects have already been discussed in many different venues the contributors endeavor to explore a host of heretofore less considered historical religious literary political and linguistic sources While the dominant focus tends to rest on conflicts hostility and animosity in the pre modern age here the emphasis rests on communication with its myriad of challenges and potentials for establishing a community As the various studies illustrate a close reading of communicative issues opens profound perspectives regarding human relationships and hence the social context This understanding invites intensive collaboration between medical historians literary scholars translation experts and specialists on religious conflicts and discourses We also learn how much language carries tremendous cultural and social meaning and determines in a most sensitive manner the interactions among people in a communicative and community based fashion *The Jewish Body* Robert Jütte, 2020-11-27 An encyclopedic survey of the Jewish body as it has

existed and as it has been imagined from biblical times to the present That the human body can be the object not only of biological study but also of historical consideration and cultural criticism is now widely accepted But why Robert J tte asks should a historian bother with the Jewish body in particular And is the Jewish body as much a concept constructed over the course of centuries by Jews and non Jews alike as it is a physical reality To comprehend the notion and existence of a Jewish

body he contends one needs to look both at the images and traits that have been ascribed to Jews by themselves and others and to the specific bodily practices that have played an important role in creating the identity of a religious and cultural community. J. T. has written an encyclopedic survey of the Jewish body as it has existed and as it has been imagined from biblical times to the present often for anti Jewish purposes. He examines the techniques for caring for the body that Jews acquire in childhood from parents and authority figures and how these have changed over the course of a more than 2000 year history most of it spent in exile. From consideration of traditional body stereotypes such as the so called Jewish nose to matters of gender and sexuality sickness and health and the inevitable end of the body in death *The Jewish Body* explores the historical foundations of the human physis in all its aspects. *Yiddish Folktales* Beatrice Weinreich, 2012-10-31 Filled with princesses and witches dybbuks and wonder working rebbes the two hundred marvelous tales that make up this delightful compendium were gathered during the 1920s and 1930s by ethnographers in the small towns and villages of Eastern Europe. Collected from people of all walks of life they include parable and allegories about life luck and wisdom tales of magic and wonder stories about rebbes and their disciples and tales whose only purpose is to entertain. Long after the culture that produced them has disappeared these enchanting Yiddish folktales continue to work their magic today. *Jewish Literacy in Roman Palestine* Catherine Hezser, 2001 Since Judaism has always been seen as the quintessential religion of the book a high literacy rate amongst ancient Jews has usually been taken for granted. Catherine Hezser presents the first critical analysis of the various aspects of ancient Jewish literacy on the basis of all of the literary epigraphic and papyrological material published so far. Thereby she takes into consideration the analogies in Graeco Roman culture and models and theories developed in the social sciences. Rather than trying to determine the exact literacy rate amongst ancient Jews she examines the various types social contexts and functions of writing and the relationship between writing and oral forms of discourse. Following recent social anthropological approaches to literacy the guiding question is who used what type of writing for which purpose. First Catherine Hezser examines the conditions which would enable or prevent the spread of literacy such as education and schools the availability and costs of writing materials religious interest in writing and books the existence of archives and libraries and the question of multilingualism. Afterwards she looks at the different types of writing such as letters documents miscellaneous notes inscriptions and graffiti and literary and magical texts until she finally draws conclusions about the ways in which the various sectors of the populace were able to participate in a literate society.
