Jianshe Service Manual:

Rural Policy Implementation in Contemporary China Anna Ahlers, 2014-01-10 At the turn of the millennium the disparities between rural and urban livelihoods underdevelopment and administrative shortcomings in the Chinese countryside were increasingly seen as posing a manifest threat to social harmony and economic and political stability At that time the term three rural problems sannong wenti was coined which defined the main issues of rural life that needed to be targeted by government action agriculture nongye villages nongcun and farmers nongmin In turn with the launch of the 11th Five Year Plan in 2006 a pledge was made to shift the focus of developmental efforts to the long neglected countryside which is still home to half of the Chinese population This book presents an analysis of adaptive local policy implementation in China in the context of the Building of a New Socialist Countryside BNSC policy framework Based on intensive field work in four counties in Fujian Jiangxi Shaanxi and Zhejiang Provinces between 2008 and 2011 it offers detailed analyses of the form and impact of county governments strategic agency at certain stages and within certain fields of the implementation process for example the design of local BNSC programs the steering of project funding implementation and evaluation the establishment of model villages and the management of public participation Further this study illustrates that BNSC is far more than the empty slogan described by many observers when it was launched in 2005 2006 Instead it has already brought about considerable shifts in terms of the process and outcomes of rural policy implementation Altogether the results of this research challenge existing paradigms by showing how against the background of contemporary approaches to rural development and recent reforms initiated by the central state local bureaucracies strategic agency can actually push forward effective albeit not necessarily optimal policy implementation to some extent which serves the interests of central authorities local implementors and rural residents By tying into the larger debates on China s state capacity and authoritarian adaptability this book enriches our understanding of the inner workings of the Chinese political system As such it will prove invaluable to students and scholars of Chinese politics public policy and development studies more generally

Double Paradox Andrew H. Wedeman,2012-03-15 According to conventional wisdom rising corruption reduces economic growth And yet between 1978 and 2010 even as officials were looting state coffers extorting bribes raking in kickbacks and scraping off rents at unprecedented rates the Chinese economy grew at an average annual rate of 9 percent In Double Paradox Andrew Wedeman seeks to explain why the Chinese economy performed so well despite widespread corruption at almost kleptocratic levels Wedeman finds that the Chinese economy was able to survive predatory corruption because corruption did not explode until after economic reforms had unleashed dynamic growth To a considerable extent corruption was also a by product of the transfer of undervalued assets from the state to the emerging private and corporate sectors and a scramble to capture the windfall profits created by their transfer Perhaps most critically an anti corruption

campaign however flawed has proved sufficient to prevent corruption from spiraling out of control Drawing on more than three decades of data from China as well as examples of the interplay between corruption and growth in South Korea Taiwan Equatorial Guinea and other nations in Africa and the Caribbean Wedeman cautions that rapid growth requires not only ongoing and improved anticorruption efforts but also consolidated and strengthened property rights

The Chinese Communist Youth League Konstantinos Tsionas, 2025-10-01 The Chinese Communist Youth League is the largest youth political organization in the world with over 80 million members Former Chinese President Hu Jintao was a firm supporter of the League and believed that it could play a bigger role in winning the hearts and minds of Chinese youth by actively engaging with their interests and demands Accordingly he provided the League with a new youth work mandate to increase its capacity for responsiveness under the slogan keep the Party assured and the youth satisfied This original investigation of the hitherto unexamined organization uses a combination of interviews surveys and ethnography to explore how the League implemented Hu's mandate at both local and national levels exposing the contradictory nature of some of its campaigns By doing so it also sheds light on the reasons for Xi Jinping's turn against the League during his first term in office The Chinese Communist Youth League Juniority and Responsiveness in a Party Youth Organization develops the original concept of juniority to capture the complex ways that generational power is institutionalized alienating young people from official political processes with significant implications for China's political development The book will be of interest to researchers and students of Chinese politics as well as to scholars of comparative youth politics and sociology
