How to create actionable metrics to measure your success The point of the book is that if you had a choice to spend 1000 a month on technology that you didn't fully understand or didn't have time for versus 1000 a month making your core product better the decision to invest in your product is always a better bet But if you have to implement a new technology I want you as a business owner to define a goal and a metric The book provides guides on finding technology help defining tangible goals and measuring your success Talk to any expert in SEO social media paid search or app development and they will all agree it is nearly a full time job to stay on top of new technology every day As a small business owner your core job is to create amazing products and services Not to know every new technology that comes out If you do find a technology that is relevant to your business and your customers are asking for it Old School Simple gives you guidance to find technology and creative help Old School Simple is not a book to learn about Facebook Twitter or the latest social network It is a book about finding connections between your revenue model and these new technologies The chapters are rich with examples diagrams sample guides and quick summaries Hopefully it becomes a book you love to share with and recommend to other small business owners I would love to ask you my customer for feedback on how I can make this book better and what other formats you would like to see it in Please let me know how you implemented or tested these techniques within your own business Email me at krish.absolutevariety.com Most people are too afraid to ask for feedback but I have to stay true to my book Things can always improve I just need to know what my customer wants Does the book come up short in any areas Do the examples need more or less fleshing out Would you like to submit your small business experience as an example Any and all feedback is much appreciated I see this as a living project that will continue to evolve over time though the basic principles will stay the same Technology must support the core revenue stream not just take up time Thanks for purchasing and recommending my book
