Stonehenge Aubrey Burl, 2006 Authoritatively researched new insights into Stonehenge's past Britain's leading expert on stone circles turns his attention to the greatest example of them all Stonehenge Drawing on forty years of research and fieldwork archaeologist Aubrey Burl offers a seminal new view of the changing cults and evolving architecture of Stonehenge Every aspect of Stonehenge is re-considered in this groundbreaking volume Burl explains for the first time how the outlying Heel Stone long predates Stonehenge itself serving as a trackway marker in the prehistoric Harroway He uncovers new evidence that the Welsh bluestones were brought to Stonehenge by glaciation rather than by man And he reveals just how far the design of Stonehenge was influenced by Breton styles and by Breton cults of the dead Meticulously researched the book sets the record straight on the matter of Stonehenge's astronomical alignments Although the existence of a sightline to the midsummer sunrise is well known the alignment and the viewing position are critically different from popular belief And until now the existence of an earlier alignment to the moon

and a later one to the midwinter sunset has been little appreciated One almost unexplained puzzle remains The site of Stonehenge lies at the heart of a vast six mile wide graveyard All around it are groups of earthen long barrows the burial places of Neolithic people many of whom died more than a thousand years before Stonehenge The mystery is that before Stonehenge there was a vacuum two miles across inside that cemetery Nothing was inside Why Burl points to an answer

Imagining the Pagan Past Marion Gibson, 2013 *Imagining the Pagan Past* explores stories of Britain's pagan history. These tales have been characterised by gods and fairies, folklore and magic. They have had an uncomfortable relationship with the scholarly world, often being seen as historically dubious, self-indulgent romance and worse, encouraging tribal and nationalistic feelings or challenging church and state. This book shows how important these stories are to the history of British culture, taking the reader on a lively tour from prehistory to the present. From the Middle Ages to the twenty-first century, Marion Gibson explores the ways in which British pagan gods and goddesses have been represented in poetry, novels, plays, chronicles, scientific and scholarly writing. From Geoffrey of Monmouth to Edmund Spenser, William Shakespeare to Seamus Heaney and H. G. Wells to Naomi Mitchison, it explores Romano-British, Celtic and Anglo-Saxon deities and fictions. The result is a comprehensive picture of the ways in which writers have peopled the British pagan pantheons throughout history. *Imagining the Pagan Past* will be essential reading for all those interested in the history of paganism.

Druidism exhumed in two parts, part i. proving that the stone circles of Britain were Druidical temples: an analysis and refutation of the treatises on 'stone circles' in the late Spalding Club's 'Sculptured stones of Scotland' [by J. Stuart] part ii. containing other important collateral archaeological matter James Rust, 1871

Visions of British Culture from the Reformation to Romanticism Celestina Savonius-Wroth, 2022-01-17 This book is a major new contribution to the study of cultural identities in Britain and Ireland from the Reformation to Romanticism. It provides a fresh perspective on the rise of interest in British vernacular or folk cultures, which has often been elided with the emergence of British Romanticism and its Continental precursors. Here the Romantics' discovery of and admiration for vernacular traditions is placed in a longer historical timeline, reaching back to the controversies sparked by the Protestant Reformation. The book charts the emergence of a nuanced discourse about vernacular cultures developing in response to the Reformers' devastating attack on customary practices and beliefs relating to the natural world, seasonal festivities and rites of passage. It became a discourse grounded in humanist, Biblical and antiquarian scholarship, informed by the theological and pastoral problems of the long period of religious instability after the Reformation and over the course of the eighteenth century, colored by new ideas about culture drawn from Enlightenment historicism and empiricism. This study shows that Romantic literary primitivism and Romantic social thought, both radical and conservative, grew out of this rich context. It will be welcomed by historians of early modern and eighteenth-century Britain and those interested in the study of religious and vernacular cultures.

Love And Happiness In The Empires Of The Past, The Present, And The Future Martin Avery, 2014-12-06 Love affairs in England, America and China, or the empires of the past, the present and the future, revisited by one man in search of love and happiness.

Prehistoric Britain from the Air Timothy Darvill, 1996-07-04 This book provides a bird's-eye look at the monumental achievements of Britain's earliest inhabitants. Arranged thematically, it illustrates and describes a wide selection of

archaeological sites and landscapes dating from between 500 000 years ago and the Roman conquest Timothy Darvill brings to life many of the familiar sites and monuments that prehistoric communities built and exposes to view many thousands of sites that simply cannot be seen at ground level Throughout the book he makes a unique application of social archaeology to the field of aerial photography
