Inside Stories Janice Montgomery, 2005 Educational title for gifted and advanced learners Teaching Middle School Language Arts Anna J. Small Roseboro, 2010-04-16 *Teaching Middle School Language Arts* is the first book on teaching middle school language arts for multiple intelligences and related 21st century literacies in technologically and ethnically diverse communities. More than 670,000 middle school teachers, grades six through eight, are responsible for educating nearly 13 million students in public and private schools. Thousands more teachers join these ranks annually, especially in the South and West where ethnic populations are ballooning. Teachers and administrators seek practical, time-efficient ways of teaching language arts to 21st century adolescents in increasingly multicultural, technologically diverse, socially networked communities. They seek sound understanding, practical advice, and proven strategies for connecting diverse literature to 21st century societies while meeting state and professional standards. *Teaching Middle School Language Arts* provides strategies and resources that work. Roseboro's book provides an entire academic year of inspiring theory and instruction in multimedia reading, writing, and speaking for the 21st century literacies that are increasingly required in the United States and Canada. An appendix includes supplementary documents to adapt or adopt, and a companion web site is designed to continue communication with readers.

**Connecting Equity, Literacy, and Language** Althier M. Lazar, Kaitlin K. Moran, Shoshanna Edwards-Alexander, 2023 This book shows literacy professionals how to develop the dispositions and actions associated with advocacy-focused teaching. While portraits of culturally conscious literacy teachers are now readily available, becoming such a teacher continues to be a challenge. Drawing from 60 years of experience working with teacher candidates and teachers in the city of Philadelphia, the authors argue that becoming an advocacy-focused literacy teacher requires making moral commitments to students and developing professional competencies that fuse literacy, language, and equity studies. Recognizing that educators can be overwhelmed trying to match the realities they face daily with the theory behind good practice, *Connecting Equity, Literacy, and Language* packs a lot of big ideas into one readable, concise book that is perfect for use in literacy methods courses. The text includes definitions and examples of equity concepts, relatable teacher vignettes, and Pause and Reflect boxes to encourage reflection and classroom conversation. **Book Features:** Examines the central problems of students' disconnection with school spirit, murdering, and the teacher education gap. Looks at inequities that have become normalized in classrooms and schools through standardized testing, literacy teaching routines and structures, and deficit-laced language about students and families. Discusses literacies and languages as cultural practices and the need to be vigilant about the linguistic violence that occurs when students' languages are delegitimized. Describes critically and culturally centered teaching frameworks. Provides vivid examples of advocacy-focused teaching. *Esther Forbes* Jack Bales, 1998 An annotated bibliography of
