The Publisher ,1902 *The Earles of Liverpool* Peter Earle,2015-05-26 The book personalizes the history of Liverpool during its rise to prominence as a port by focussing on the activities of three generations of one very successful merchant family

Rules of Game Andrew Gordon,2013-02-21 Foreword by Admiral Sir John Woodward When published in hardcover in 1997 this book was praised for providing an engrossing education not only in naval strategy and tactics but in Victorian social attitudes and the influence of character on history In juxtaposing an operational with a cultural theme the author comes closer than any historian yet to explaining what was behind the often described operations of this famous 1916 battle at Jutland Although the British fleet was victorious over the Germans the cost in ships and men was high and debates have raged within British naval circles ever since about why the Royal Navy was unable to take advantage of the situation In this book Andrew Gordon focuses on what he calls a fault line between two incompatible styles of tactical leadership within the Royal Navy and different understandings of the rules of the games *Reference department. Catalogue of books* Wigan free publ. libr,1886 *Portrait of Liverpool* Howard Channon,1976 An affectionate but critical look at the history and development of Liverpool up to the present day

Battlecruiser Repulse John Roberts,2019-06-30 An outstanding illustrated reference revealing the painstaking work of draftsmen in recording every detail of the famed British warship The technical details of British warships were recorded in a set of plans produced by the builders on completion of every ship Known as the as fitted general arrangements these drawings represented the exact appearance and fitting of the ship as it entered service Intended to provide a permanent reference for the Admiralty and the dockyards these highly detailed plans were drawn with exquisite skill in multi colored inks and washes that represent the acme of the draftsman s art Today they form part of the incomparable collection of the National Maritime Museum at Greenwich which is using the latest scanning technology to make digital copies of the highest quality This book is one of a series based entirely on these drafts which depict famous warships in an unprecedented degree of detail complete sets in full color with many close ups and enlargements that make every aspect clear and comprehensible Extensive captions point the reader to important features to be found in the plans and an introduction covers the background to the design The subject of this volume was one of the last battlecruisers elegant ships that combined a powerful armament with high speed but were much criticized for their light protection Throughout their existence they were controversial three were sunk at Jutland and Repulse herself was famously lost to Japanese air attack at the outset of the Pacific War Nevertheless the type was highly prized Repulse and her sister Renown were the only capital ships given sufficient priority to be designed built and completed during the course of the First World War and substantial sums were spent on large scale reconstruction during the 1930s Both of these phases of the ship s life are fully documented in two separate sets of plans which allow this novel form of anatomy to cover the whole life of the ship Dictionary Catalog of the Research Libraries of
