

Reading is Thinking (Mini-Lessons)

Note: Each mini-lesson should be followed by at least 10 to 15 minutes of Self-Selected Reading (SSR) time.

Day 1 - Introducing SSR & Establishing Guidelines

- Introduce classroom library and checkout procedures.
- Work together to develop guidelines for participation during SSR time.

Day 2 - How to Choose a Book

- Ask students to share ways that readers choose books (favorite author, read the back cover, look at the pictures, etc.)
- Discourage methods that are focused on specific reading levels or AR points.

Day 3 - Refining Book Choices

- Ask students if they have ever chosen a book that was too easy or too hard for them. Have them share how they felt while reading the book.
- Introduce the terms "easy," "just right," and "challenging" as ways to identify book levels; have students help create a class chart of characteristics of each type; discuss when you might choose each type.

Day 4 - Introduce "Reading is Thinking"

- Explain that when good readers read, they are thinking as they read. Give some examples of how you might think about a book (making predictions, asking questions, visualizing, etc.)
- Write "Reading is Thinking" on the top of a sheet of chart paper and have your students help you list the ways that readers think while reading.
- Ask students to think about these ideas while reading silently; after SSR time, invite students to share how they were thinking about their books. Add any new ideas to the "Reading is Thinking" chart.

Day 5 - How to Chat with a Book Buddy

- Tell students that when you are excited about what you are reading, you often want to talk about the book with someone. Discuss and chart appropriate ways to chat with a Book Buddy (taking turns, making eye contact, listening to each other, discussing your thinking, etc.)
- At the end of SSR time, pair students with a partner and review the chart.
