Simultaneous *Deep Roots* Avidit Acharya, Matthew Blackwell, Maya Sen, 2020-03-10 Despite dramatic social transformations in the United States during the last 150 years the South has remained staunchly conservative Southerners are more likely to support Republican candidates gun rights and the death penalty and southern whites harbor higher levels of racial resentment than whites in other parts of the country Why haven't these sentiments evolved or changed *Deep Roots* shows that the entrenched political and racial views of contemporary white southerners are a direct consequence of the region's slaveholding history which continues to shape economic political and social spheres Today southern whites who live in areas once reliant on slavery compared to areas that were not are more racially hostile and less amenable to policies that could promote black progress Highlighting the connection between historical institutions and contemporary political attitudes the authors explore the period following the Civil War when elite whites in former bastions of slavery had political and economic incentives to encourage the development of anti black laws and practices *Deep Roots* shows that these forces created a local political culture steeped in racial prejudice and that these viewpoints have been passed down over generations from parents to children and via communities through a process called behavioral path dependence While legislation such as the Civil Rights Act and the Voting Rights Act made huge strides in increasing economic opportunity and reducing educational disparities southern slavery has had a profound lasting and self reinforcing influence on regional and national politics that can still be felt today A groundbreaking look at the ways institutions of the past continue to sway attitudes of the present *Deep Roots* demonstrates how social beliefs persist long after the formal policies that created those beliefs have been eradicated

The Secrets of Silence Shannon Malone Gonzalez, 2025-09-30 Why black women's stories of encounters with the police are missing from official and unofficial accounts of police violence. In *The Secrets of Silence*, Shannon Malone Gonzalez investigates how the policing of black women is tied to the policing of their stories. Over a period of four years, Malone Gonzalez conducted intimate life history interviews with black women about their encounters, listening to those who had never shared their stories before, had never even been asked to, or had tried repeatedly to speak to those around them to no avail. They all described the unspoken or whispered connections in the ways officers and communities socially control black women to put them in their place. Centering black women's searches for recognition of their violent encounters with police and other people in their lives, Malone Gonzalez examines the pervasive and often invisible forms of everyday policing that render black women's stories missing from official data, headlines, and community conversations. Articulating what she calls the space between recognition of black women's stories and their encounters, Malone Gonzalez shows that policing is as much about silence as it is about violence. Black women's silenced stories then provide a way to name and critique the institutional and intimate forms of policing that break and bend black social relations into a complex web of social control. Drawing on abolition feminism and black knowledge traditions, she envisions storytelling and listening as a way to reimagine, remember, and reconnect in solidarity and worldbuilding. *Oral History* Patricia Leavy, 2011-02-24 Part of the Understanding Statistics: Understanding Qualitative Research series, *Oral History* serves as a guide to properly recording

The Children's Table Anna Mae Duane, 2013-06-01 Like the occupants of the children's table at a family dinner scholars working in childhood studies can seem sidelined from the adult labor of humanities scholarship The Children's Table brings together scholars from architecture philosophy law and literary and cultural criticism to provide an overview of the innovative work being done in childhood studies a transcript of what is being said at the children's table Together these scholars argue for rethinking the academic seating arrangement in a way that acknowledges the centrality of childhood to the work of the humanities The figure we now recognize as a child was created in tandem with forms of modernity that the Enlightenment generated and that the humanities are now working to rethink Thus the growth of childhood studies allows for new approaches to some of the most important and provocative issues in humanities scholarship the viability of the social contract the definition of agency the performance of identity and the construction of gender sexuality and race Because defining childhood is a means of defining and distributing power and obligation studying childhood requires a radically altered approach to what constitutes knowledge about the human subject The diverse essays in The Children's Table share a unifying premise to include the child in any field of study realigns the shape of that field changing the terms of inquiry and forcing a different set of questions Taken as a whole the essays argue that at this key moment in the state of the humanities rethinking the child is both necessary and revolutionary Contributors Annette Ruth Appell Sophie Bell Robin Bernstein Sarah Chinn Lesley Ginsberg Lucia Hodgson Susan Honeyman Roy Kozlovsky James Marten Karen Sanchez-Eppler Carol Singley Lynne Vallone John Wall

Racial Domination Loïc Wacquant, 2024-06-07 Race is arguably the single most troublesome and volatile concept of the social sciences in the early 21st century It is invoked to explain all manner of historical phenomena and current issues from slavery to police brutality to acute poverty and it is also used as a term of civic denunciation and moral condemnation In this erudite and incisive book based on a panoramic mining of comparative and historical research from around the globe Loïc Wacquant pours cold analytical water on this hot topic and infuses it with epistemological clarity conceptual precision and empirical breadth Drawing on Gaston Bachelard Max Weber and Pierre Bourdieu Wacquant first articulates a series of reframings starting with dislodging the United States from its Archimedean position in order to capture race making as a form of symbolic violence He then forges a set of novel concepts to rethink the nexus of racial classification and stratification the continuum of ethnicity and race as disguised ethnicity the diagonal of racialization and the pentad of ethnoracial domination the checkerboard of violence and the dialectic of salience and consequentiality This enables him to elaborate a meticulous critique of such fashionable notions as structural racism and racial capitalism that promise much but deliver little due to their semantic ambiguity and rhetorical malleability notions that may even hamper the urgent fight against racial inequality Wacquant turns to deploying this conceptual framework to dissect two formidable institutions of ethnoracial rule in America Jim Crow and the prison He draws on ethnographies and historiographies of white domination in the postbellum South to construct a robust analytical concept of Jim Crow as caste terrorism erected in the late 19th century He unravels the deadly symbiosis between the black hyperghetto and the carceral archipelago that has coproduced and entrenched the material and symbolic marginality of the African American precariat in the metropolis of the late 20th century Wacquant concludes with reflections on the politics of knowledge and pointers on the vexed question of the relationship between social epistemology and racial justice Both sharply focused and wide ranging synthetic yet controversial *Racial Domination* will be of interest to students and scholars of race and ethnicity power and inequality and epistemology and theory across the social sciences and humanities

The souls of white folk Brett Shadle, 2015-05-01 Kenya's white settlers have been alternately celebrated and condemned painted as romantic pioneers or hedonistic bed hoppers or crude racists *The souls of white folk* examines settlers not as caricatures but as people inhabiting a unique historical moment It takes seriously though not uncritically what settlers said how they viewed themselves and their world It argues that the settler soul was composed of a series of interlaced ideas settlers equated civilisation with a hard to define whiteness they were emotionally enriched through claims to paternalism and trusteeship over Africans they felt themselves constantly threatened by Africans by the state and by the moral failures of other settlers and they daily enacted their claims to

supremacy through rituals of prestige deference humiliation and violence The souls of white folk will appeal to those interested in the histories of Africa colonialism and race and can be appreciated by scholars and students alike
